The undersigned certifies and swears that he/she has just and reasonable grounds to believe, and does believe that the above named Defendant committed the following violation of law. The Person taken into custody [ ] committed the below acts in my presence. [ ] was observed by who told that he/she saw the arrested person commit the below acts. [ ] confessed to admitting to the below facts. [X] was found to have committed the below acts, resulting from my (described) investigation. On the 3RD day of JUNE 20 20 at 1709 [ ] A. M. [X] P.M. (Specifically include facts constituting cause for arrest.)

The subject Bryon James Halsey, was involved in a vehicle crash reference PBSO case # 20-074663 and upon my arrival on scene, the subject was in the driver's seat of a 2019 Chevrolet Blazer FL tag # LJSL92. In addition, two wheel witnesses (Officer Andrew Ziadie ID# 746 BOCA PD, and Anthony Smith) placed the subject Byron Halsey behind the wheel of the vehicle. where/when you first observed the infraction/driving pattern.

I observed that Bryon Halsey was wearing blue shirt and beige pants. While questioning Bryon Halsey, I observed that he seemed to be confused by my questions and had difficulty performing tasks such as locating his drivers license. He believed he did not have his wallet or license on him. However, both items were located in his back pocket. I observed Halsey eyes appeared red and glassy. I observed that he was slurring his words. Halsey was asked to exit the vehicle to perform field sobriety tasks and he agreed. While exiting the vehicle, Halsey appeared to be shaky on his feet and unable to keep his balance standing on his feet.

I asked if Halsey had been drinking or used any drugs. He stated no. I asked the driver what medical problems and/or previous injuries they had. He stated none. I asked what medications they take. He stated none

I asked the defendant to perform voluntary roadside tasks to which he consented to take. While standing in front of my patrol car, the defendant swayed back and forth and side to side. The area in front of my patrol car was on a visually flat surface, visually even, and clear of debris. The weather was cool. I conducted the standardized field sobriety tasks (SFSTS) in front of my PBSO patrol vehicle (asset # 69655)

After completion of the SFSTS, I found probable cause to arrest the defendant for driving under the influence pursuant to Florida state statutes 316.193 (1). I handcuffed Bryon James Halsey, checked for proper fit and double locked. I then placed him in the rear of my PBSO patrol vehicle. The vehicle was towed by Sister's towing company to their impound lot.

ROADSIDE TASKS

HORIZONTAL GAZE NYSTAGMUS:

- LT EYE-LACK OF SMOOTH PURSUIT
- RT EYE-LACK OF SMOOTH PURSUIT
- LT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION
- RT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION
- LT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES
- RT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES

Other Observations:

Once positioned in the front of my vehicle, I continued my investigation. I instructed Halsey to keep his hands by their side, stand with his feet together, and follow a pen stimulus with his eyes not turning his head. I asked him if he understood my instructions. Halsey verbally stated he understood my instructions. Halsey however swayed while standing stationary. I observed both eyes to be red, bloodshot, and glossy. His left and right eye displayed equal pupil size, equal tracking, and a lack of smooth pursuit. I observed distinct and sustained nystagmus was present in both his left and right eye at maximum deviation during two separate four second evaluations. The onset of nystagmus was prior to a 45 degree angle in both his left and right eye during two separate four second evaluations. Vertical nystagmus was not present in both the left and right eye during two separate four second evaluations. While conducting the task I had to remind him to keep hands by his side, his feet together, not turn his head and follow the stimulus multiple times.

WALK & TURN:

I positioned Halsey on a painted white line which was on a visually smooth and visually level surface, free of any debris and well lit by the afternoon sun. I instructed the driver to place his left foot on the line and his right foot in front of the left touching heel to toe. I instructed him that he was to keep his hands at his side and stay in this position until I instructed him to do otherwise. I instructed him to walk nine heel to toe steps counting out loud, while watching his feet. On the ninth step he was to keep his front foot on the line and use his back foot, in a series of small steps, to turn around before walking nine heel to toe steps the opposite direction counting out loud and watching his feet. I demonstrated the task while I was verbally instructing him in the proper way to complete the task. During the task, I observed the driver could not stand heel to toe, swayed while balancing, started too soon, stops walking to steady self, did not touch heel to toe, stepped off the line. Used arms to maintain balance (+6"), did not turn properly, turns other way than I explained. Incorrect number of steps. Could not perform complete task.

ONE LEG STAND:

I placed Halsey with his feet together and arms at his side. I demonstrated the task as I verbally instructed him to raise one of his feet approximately six inches off of the ground, point his toe straight, look at the raised foot, and count out loud 1001, 1002, 1003 and so on until told to stop. I asked him if he understood the instructions and demonstration I provided. After Halsey stated he understood my instructions, the task was performed. While Halsey stood in the instructional position, I observed he could not stay in the instructional position and needed help putting his feet together. Halsey swayed while standing stationary. While raising his foot he swayed while balancing, could not extend his leg, kept his foot barely off the ground, put foot down (within 30 seconds), could not do task.

FINGER TO NOSE:

I instructed Halsey to stand with his feet together, make each hand into a fist keeping, extended his index fingers and to place his palms facing up. He was instructed to lower their arms by their side. I instructed and demonstrated the proper hand and arm position and for him to remain in this position while I demonstrated the rest of the task. I instructed and demonstrated him to tilt his head back approximately 45 degrees and close their eyes while waiting for a verbal command of left or right. On the command of "left" or "right", he would raise the requested hand, touch the tip of his finger to the tip of his nose, then bring their hand immediately back down to his side. During the instruction and demonstration of the task he swayed heavily while standing in the instructional position. Also while attempting to position him in the instructional stance he had difficulty with staying in the instructional position. I asked him if he understood the instructions I provided and he verbally stated he understood. I instructed him to start the task as explained. During the task, I observed the driver failed to return arms to side, correct finger did not touch tip of nose, used wrong hand.

ROMBERG ALPHABET:

Driver refused to continue doing tasks
