On 04/03/22 at approximately 1720 hours I, Officer David Morgan of Florida Fish and Wildlife Conservation Commission, was on water-based patrol near Peanut Island inside of Lake Worth Inlet located in Palm Beach County with Senior Officers Alan Webb and Marcin Trawinski when we observed a subject on a personal watercraft (PWC) with a personal floatation device (PFD) not being properly worn. The passenger on the vessel did not have a PFD on at all.

Upon contact with the vessel operator, later identified as Craig R Sami, FL DL# S500116830880 DOB 03/08/1983, I noticed that his speech was slurred with a mild odor of alcohol on his breath, bloodshot and glossy eyes. I told him the reason for the vessel stop. When asked where he was going SAMI replied he was heading back home to Boynton Beach, Florida. I asked SAMI if he had consumed any alcohol today and he stated he had 3 beers since this morning.

I asked SAMI if he would perform Seated Standardized Field Sobriety Tasks (SFSTs) to determine if he was impaired. SAMI consented to perform Standardized Field Sobriety Tasks (SFSTs). I had SAMI board my vessel to perform the seated SFSTs. I placed SAMI into the general instructions positions and asked if he was stable. He responded that he was. I then told him to stay in that position and do not do anything else until I told him to do so.

I administrated the Horizontal Gaze Nystagmus (HGN), Finger to Nose, Palm Pat and Hand Coordination tasks. During the HGN task SAMI showed clues in both eyes. Lack of smooth pursuit, distinct and sustained nystagmus at max deviation and onset of nystagmus prior to 45-degree. SAMI also showed vertical nystagmus. SAMI had 6 clues for the task. 4 or more clues indicate impairment.

The next task SAMI performed was the Finger to Nose. I started by reading the instructions for the task. SAMI was unable to follow instructions. He did not keep his hands in the instructed position. When told to begin performing the task he had to be reminded to tilt his head back and close his eyes. I re-read the instructions so SAMI could understand the task. He confirmed he did. On the first left he hesitated and used the pad of his finger not fingertip. On the first right he hesitated, searched for the tip of his nose, used the pad of his finger not fingertip and missed the tip of his nose. On the second left he hesitated and used the pad of his finger not fingertip. On the second right he used the pad of his finger not fingertip. On third right he hesitated, searched for his nose and used the pad of his finger not fingertip. On the third left he searched for the tip of his nose and used the pad of his finger not fingertip. SAMI had 14 clues for this task. 9 or more clues indicate impairment.

The third task I conducted was the Palm Pat. I explained the task instructions and demonstrated the exercise. SAMI was unable to follow instructions of keeping his hands in position while I explained the task. I told SAMI to begin. During the performance of the task SAMI showed clues of a rolled pat and he did not increase speed. In total SAMI demonstrated 3 total clues on Palm Pat. 2 or more clues would indicate impairment.

The fourth task I conducted was the Hand Coordination. I explained the task instructions and demonstrated the exercise. SAMI was not able to follow instructions of remaining with fist to his chest in the starting position while the task was explained and started at the wrong time. I told SAMI to begin. On the 1st task (Forward Steps)

SAMI did not count. On the 2nd task (Hand Clapping) SAMI did not perform the task. On the 3rd task (Return steps) SAMI did not return left fist to chest. On the 4th task (End position) he did not perform. In total SAMI demonstrated 5 clues on Hand Coordination. 3 or more clues would indicate impairment.

At the conclusion of the SFSTs, SAMI was arrested for operating a vessel under the influence at 1731 hours.

I transported SAMI to Phil Foster Park in Palm Beach County where SAMI was read implied consent and agreed to provide breath samples at the Palm Beach County Sheriff (PBSO) portable BAT bus. SAMI provided two breath samples. The samples were 0.213/0.221 grams per 210 liters of breath at 1820 hours and 1823 hours respectively. SAMI answered questions for the operator and appraisal, post-Miranda.

SAMI was issued the following citation:

Citation 1: V655585

327.35(1)(c): Operating a vessel with an unlawful breath alcohol level of .08 or higher

Citation 2: V655586

327.39(1): No PFD on operator/passenger of a PWC.

All above events were captured on agency issued body worn camera and uploaded to the agency server.

Offense Description S1B BUI - BOAT				

On 04/03/2022 at approximately 1700 hours Senior Officers Alan Webb, Marcin Trawinski, and I, Officer David Morgan, with the Florida Fish and Wildlife Conservation Commission (FWC), observed a vessel, later identified by HIN YDV34626K122, heading westbound on the northside of Peanut Island. The operator did not have his personal floatation device zipped up and worn properly. The passenger on the PWC did not have a PFD at all. We initiated the blue lights to address the violation.

Phase 2: Personal Contact with Operator

Upon contact with the vessel operator, later identified as Craig Raymond Sami, FL DL# S500116830880 DOB 03/08/1983, I noticed that his speech was slurred with a mild odor of alcohol on his breath, bloodshot and glossy eyes. I told him the reason for the vessel stop. When asked where he was going SAMI replied he was heading back home to Boynton Beach, Florida. I asked SAMI if he had consumed any alcohol today and he stated he had 3 beers since this morning.

I asked Sami to perform the NASBLA Seated Field Sobriety Tasks (SFSTs). He agreed to do them. I assisted Sami onto my patrol vessel and sat him in the front of the vessel on a seat. I placed SAMI into the general instructions position and asked if he was stable. He responded that he was. I then told him to stay in that position and do not do anything else until I told him to do so.

I administered the Horizontal Gaze Nystagmus (HGN), Finger to Nose, Palm Pat, and Hand Coordination tasks. During the HGN task SAMI showed clues in both eyes. Lack of smooth pursuit, distinct and sustained nystagmus at max deviation and onset of nystagmus prior to 45-degree. SAMI also showed vertical nystagmus. SAMI had 6 clues for the task. 4 or more clues indicate impairment.

The next task SAMI performed was the Finger to Nose. I started by reading the instructions for the task. SAMI was unable to follow instructions. He did not keep his hands in the instructed position. When told to begin performing the task he had to be reminded to tilt his head back and close his eyes. I re-read the instructions so SAMI could understand the task. He confirmed he did. On the first left he hesitated and used the pad of his finger not fingertip. On the first right he hesitated, searched for the tip of his nose, used the pad of his finger not fingertip and missed the tip of his nose. On the second left he hesitated and used the pad of his finger not fingertip. On the second right he used the pad of his finger not fingertip. On third right he hesitated, searched for his nose, and used the pad of his finger not fingertip. On the third left he searched for the tip of his nose and used the pad of his finger not fingertip. SAMI had 14 clues for this task. 9 or more clues indicate impairment.

The third task I conducted was the Palm Pat. I explained the task instructions and demonstrated the exercise. SAMI was unable to follow instructions of keeping his hands in position while I explained the task. I told SAMI to begin. During the performance of the task SAMI showed clues of a rolled pat and he did not increase speed. In total SAMI demonstrated 3 total clues on Palm Pat. 2 or more clues would indicate impairment.

The fourth task I conducted was the Hand Coordination. I explained the task instructions and demonstrated the exercise. SAMI was not able to follow instructions of remaining with fist to his chest in the starting position while the task was explained and started at the wrong time. I told SAMI to begin. On the 1st task (Forward Steps) SAMI did not count. On the 2nd task (Hand Clapping) SAMI did not perform the task. On the 3rd task (Return steps) SAMI did not return left fist to chest. On the 4th task (End position) he did not perform. In total SAMI demonstrated 5 clues on Hand Coordination. 3 or more clues would indicate impairment.

Arrest of Operator:

Due to the totality of the circumstances, my observations of his slurred speech with a mild odor of alcohol on his breath, bloodshot eyes, and glossy eyes along with his performance on the NASBLA seated field sobriety tasks, the SAMI was arrested for boating under the influence--- Operating a vessel with normal faculties impaired.

I placed Sami under arrest at 1731 hours on 04/03/22.

Disposition of Vessel:

The PWC operator/owned by Sami was towed by TowBoat US Palm Beach from Phil Foster Park. The PWC was transported to TowBoat storage location in Rivera Beach, Florida.

Disposition of Operator:

After being placed under arrest, Sami was transported to Phil Foster Park via vessel. Sami was read Implied Consent from the Florida BUI/DUI Implied Consent Warning (FWCDLE 108D) and requested to give breath samples for the purpose of determining its alcohol content. Sami agreed to provide breath samples at the Palm Beach County Sheriff (PBSO) portable BAT bus located at Phil Foster Park. SAMI provided two breath samples. The samples were 0.213/0.221 grams per 210 liters of breath at 1820 hours and 1823 hours respectively. The results of his breath were nearly three times the legal limit.

From the Phil Foster Park, I transported Sami to the main county jail located on Gun Club Road. He was booked into the Palm County Main Jail at 2045 hours on 04/03/22.

Sami was issued the following citations:
