DUI PROBABLE CAUSE AFFIDAVIT

On the 1st Day of February, 2022 at 0236 A.M. P.M.

Subject: Dina M Arabiat Case Number: 2022-0001530

Agency: West Palm Beach Police Department Arresting Officer: J. Charles #2148

Personal Contact

Driving Pattern

Actual physical control (physical evidence putting the driver behind the wheel)

On Tuesday, February 1st, 2022 at approximately 0236 hours, I responded to 200 Banyan Blvd in the city limits of West Palm Beach, in reference to an accident in which a red Mazda struck another parked vehicle. The driver of the red vehicle was said to be intoxicated.

Upon arrival, officers made contact with an on duty security officer for CJE Security. The security officer, later identified as Rosa Vega (H/F 03/13/1960) advised she saw the red Mazda going down the garage towards to Banyan St exit, which was closed with barricades. The red Mazda almost went over the median dividing the up/down (entrance/exit) lanes in the garage. It should be noted the median is approximately 6-8 inches tall. Vega directed the driver to exit using to Narcissus St exit. Vega then advised she witnessed the red Mazda's front passenger side bumper strike the rear passenger side bumper of a black sedan that was parked. Vega advised she believed the driver to be intoxicated. A taped sworn statement was taken from Vega, positively putting Arabiat behind the wheel.

Observation of Driver

Vega advised she made contact with the driver of the Mazda, telling her to pull over into a parking spot. Vega stated the driver and sole occupant of the vehicle parked the vehicle, and as Vega was calling the police, the driver attempted to leave the scene. Vega advised that as I arrived, the driver of the Mazda, was the woman she was next to and speaking with outside of the vehicle. The female was identified through FL Driver's License as Dina M Arabiat (O/F 07/11/1986). I made contact with Arabiat, who was standing next to a red Mazda 3 bearing FL tag IFB505. The vehicle was on, and running with the driver's door open, with white paint transfer marks on the passenger side of the front bumper. Arabiat was swaying slightly as she stood. Arabiat's eyes were glassy and bloodshot. The longer I spoke to Arabiat, the stronger I was able to smell the strong odor of an unknown alcoholic beverage. While speaking to Arabiat, she constantly leaned on the vehicle for balance.

Drivers Statements:

Arabiat denied being involved being in a car accident and refused medical attention several times on scene. Arabiat was advised the traffic crash investigation was complete and a criminal investigation was underway. Post Miranda, Arabiat admitted she was driving to follow her boyfriend to his house. Arabiat then stated she was at "Kenticki" in Wellington. Arabiat stated she drank Martini's (2), with the first drink at 5 pm, and stopped drinking at 7pm. When asked the time, Arabiat advised it was around 11pm (it was after 3am). Arabiat stated she was fine to drive.

Odors:

Strong odor of an unknown alcoholic beverage that got stronger the longer I spent talking to Arabiat.

General Observations

Speech: Speech was extremely slurred and in a low tone of voice

Attitude: calm and aware of situation. Defensive after being asked questions related to the crash or drinking. Angry after arrest

Clothing: gray dress, black shoes

Medical Problems/Medications: Asthma

Other: wears glasses/contacts and states has astigmatism

The driver was instructed to stand with her feet together with her arms at her sides. She was then asked if she could identify the color of the stimulus I placed in front of her eyes; in which she advised it was blue (which was correct). She was reminded to track the stimulus with her eyes only. She failed to keep her head still while tracking the stimulus. I observed the driver saying during the instructional and practical portion of this exercise.

Walk and Turn Task

The driver was asked to place her left foot on the line (neon pink duct tape) with her right foot directly in front of it with her heel touching her toe, then place her arms at her sides and stay in this position while I demonstrated this task. I observed the driver swaying during the instructional portion of this exercise. She could not maintain her balance while listening to the instructions and stepped out of the stance during the demonstration to catch her balance. She started the task before being instructed. The driver repeatedly stepped out of the starting position. On the first set of heel to toe steps she missed heel-to-toe on all steps. The driver had to be reminded to look at her feet. She performed the turn other than the way it was demonstrated. On the second set of heel to toe steps she again missed all heel-to-toe steps, and stepped off the line twice.

One Leg Stand

I had the driver stand with her feet together and hands down at her side as I explained the exercise. I explained and demonstrated the exercise and she stated she understood the instructions. She could not maintain her balance while listening to the instructions and stepped out of the stance during the demonstration to catch her balance. She started the task before being instructed. When told to begin, the driver lifted her left foot off the ground. She kept her arms behind her back and not to her side as instructed. She put her foot down at 6 seconds, took a step with her right foot and then raised her left foot again. She would continue to put her foot down before the thirty seconds had elapsed, take a step with her right foot and then raise her left leg again. I observed the driver swaying during the instructional and practical portion of this exercise.

Finger To Nose

I had the driver stand with her feet together and hands down at her side as I explained the exercise. I explained and demonstrated the exercise and she stated she understood the instructions. I asked the driver to tilt her head back and close her eyes. The sequence performed was : L,R,L,R,R,L. On the first few finger lifts, the driver had to be reminded to bring their arms back down to their side. On the last right, the driver started with her left, and quickly switched to her right. On the last left, the driver missed the tip of her nose, hitting close to the edge of her nose, before correcting it and touching the tip of her nose. The instructions had to be repeated multiple times for the driver, who started before being told to start. I observed the driver swaying during the instructional and practical portion of this exercise.

Romberg Balance

I had the driver stand with her feet together and hands down at her side as I explained the exercise. I explained and demonstrated the exercise and she stated she understood the instructions. I asked the driver to tilt her head back and close her eyes and estimate the passage of 30 seconds. She advised she finished this exercise at an internal clock of 30 seconds when the actual time was 28 seconds.
