The undersigned certifies and swears that he/she has just and reasonable grounds to believe, and does believe that the above named Defendant committed the following violation of law. The Person taken into custody [X] committed the below acts in my presence. [] confessed to admitting to the below facts. [] was observed by who told that he/she saw the arrested person commit the below acts. [X] was found to have committed the below acts, resulting from my (described) investigation. On the 9TH day of MARCH 20 20 at 0206 [X] A.M. [] P.M. (Specifically include facts constituting cause for arrest.)

Based on the totality of the circumstances, Fanara was placed under arrest for operating a motor vehicle while under the influence of alcohol and or a controlled substance. He was placed in PBSO issued handcuffs which were checked for proper fit and double locked. He was then searched incident to arrest, all property located on his person was placed in his prisoner property and brought to the jail. Fanara was then transported to the Palm Beach County Breath Alcohol testing facility located at the main detention center. After arrival at the BAT, Fanara was observed for a period of twenty minutes during which time he did not take anything by mouth or regurgitate. He was then brought into the breath testing room where I asked Fanara to provide a sample of his breath for the purpose of determining its alcohol content. He initially agreed to do so and then asked what would happen if he refused. I advised him of Florida's implied consent law from a pre printed card after which he advised he understood and still refused to provide a sample of his breath. The refusal time was noted at 0315 hours. I then advised Fanara of his Miranda warnings from a pre printed card after which he advised he understood. When asked if he would participate in the DUI questionnaire he advised yes. The following in a brief synopsis of Fanara's post Miranda conversation, not to be taken as a verbatim account. Fanara admitted to having four beer's the a few hours prior and Fanara admitted to driving, being in actual physical control of a motor vehicle. For further details, see BAT video classified under this case number. Fanara was booked into the main jail without incident.

D.U.I. PROBABLE CAUSE AFFIDAVIT

ON THE 9TH DAY OF MARCH 20 20, AT 0206 AM PM

SUBJECT: Fanara, Glenn, Anthony CASE NUMBER: 20-047168

AGENCY: PALM BEACH COUNTY SHERIFF'S OFFICE ARRESTING OFFICER: P. SCARTOZZI

PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

On 3/9/2020 at approximately 0206 hours I was conducting selective traffic enforcement in the area of North Haverhill Road and Community Drive when I noticed a vehicle approaching from the south in the northbound number one lane. I visually estimated this vehicle to be traveling approximately 70 MPH. When I activated my dash mounter radar I received a loud doppler tone emitting from the radar consistent with high speed. The counting box displayed the speed as 72 MPH. This vehicle was the only vehicle on the roadway traveling northbound. I turned around and was able to catch up to this vehicle entering the Cypress Lakes community at North Haverhill Road and Cypress Lakes. I got behind the vehicle bearing Florida license plate number KFE-M82 which came back registered to Glenn Fanara. The vehicle was going through the resident lane of the community. I activated my emergency lights and siren to signal the vehicle to pull over. The vehicle came to final rest just inside the communities gates. I approached

OBSERVATION OF DRIVER:

the vehicle on the driver's side and made contact with the driver (Glenn Fanara) who the sole occupant, in actual physical control of the motor vehicle on a public roadway in the state of Florida. Immediately upon making contact with the driver, I noticed the odor of an unknown alcoholic beverage emitting from his mouth area. His eyes were blood shot and glassy, his movement were slow and uncoordinated and his speech was slow and slurred. I asked Fanara how much he had to drink tonight after which he advised "a couple". I backed my patrol vehicle up and asked Fanara to step out of the vehicle. I chose a smooth level portion of the as fault roadway, free of debris and obstructions in order to perform roadside tasks. I asked Fanara again how much he had to drink and he advised four beers, when asked what kind he advised Budweiser. Fanara denied having any physical or mental disabilities, he denied having a speech impediment or any problems with his eyes, he denied being a diabetic and he denied having any medical condition which would cause his breath to display the unknown odor of an alcoholic beverage.

DRIVER'S STATEMENTS:

I asked Fanara to stand with his heels and toes together with his arms down at his sides. While standing here, he would sway in a side to side back to front manner more then two inches. I moved to the Horizontal Gaze Nystagmus task. I placed a light stylus pen approximately 12" away from his face just above the eye brow line. During the horizontal gaze Nystagmus (HGN) task the drivers eyes displayed equal pupil size and equal tracking. The driver's eyes displayed lack of smooth pursuit, distinct and sustained Nystagmus at maximum deviation and distinct and sustained Nystagmus prior to 45 degrees. During the Vertical gaze Nystagmus (VGN) task the drivers eyes displayed equal pupil size and equal tracking. The driver's eyes displayed lack of smooth pursuit, distinct Nystagmus when looking all the way up. The driver's eyes also displayed onset of Nystagmus prior to 45 degrees when looking all the way up.

ODORS:

GENERAL OBSERVATIONS

SPEECH: Slow, thick, slurred, difficult to understand

ATTITUDE: Cooperative, uncooperative, mood swings, combative.

CLOTHING: Blue long sleeve shirt, Tan pants blue shoes.

MEDICAL/OTHER: The driver denied any medical conditions, physical disabilities, injuries and medication use and or use of recreational drugs.

Other Observations:

WALK & TURN:

I then moved to the Walk and Turn Task. He was asked to place his left foot on the ground with his right foot directly in front of it in the heel to toe position with his arms down at his sides. I demonstrated the proper starting position. He would sway in a side to side, back to front manner more than two inches during the demonstration phase. He was given the standardized instructions for this task after which he advised he understood. On the first set of heel to toe steps he missed steps one through ten and stepped out of the stance. On the second set of heel to toe steps he missed steps one through nine and stepped out of the stance. He would stop walking to steady himself with pauses to regain his balance. He performed the incorrect number of steps. He performed the turn other than the way it was demonstrated.

ONE LEG STAND:

I then moved to the One Leg Stand Task. He was asked to stand with his feet and toes together with his arms at his sides and stay in this position while I demonstrate this task. He would sway in a side to side back to front manner more than 2 inches during the demonstration phase. He stepped out of the stance during the demonstration to catch his balance. He was given the standardized instructions for this task after which he advised he understood. He continued to sway while balancing on one leg. He used his arms to balance by raising them more than six inches from his sides. He started hopping in an attempt to maintain his balance. He put his foot down to regain his balance at numerous times before the thirty seconds had elapsed. He put his foot down three times all before counting to thirty seconds, thusly not being able to complete the task.

FINGER TO NOSE:

I then moved to the Finger to Nose Task. He was asked to stand with his feet and toes together. He was then instructed to extend his arms outward so they would be parallel to the ground. He was then instructed to make a fist with both hands, extend his index / pointer finger on both hands, turn both hands toward the sky and then place both arms down at his sides and remain in this position while I gave the instructions. I demonstrated how to do get to this position by the numbers. He was given the standardized instructions for this task after which he advised he understood. He would sway in a side to side back to front manner more than 2 inches during the demonstration phase. He did not keep his eyes closed and had to be reminded to do so. He failed to return his arms down to his sides as instructed after touching his nose. His index finger did not touch his nose. The sequence used for this task was L, R, L, R, R, L.

ROMBERG ALPHABET:

I then moved to the Romberg Alphabet Task. He was asked to stand with his feet and toes together with his arms at his sides and stay in this position while I demonstrated this task. He would sway in a side to side back to front manner more than 2 inches during the demonstration phase and during the course of performing the task. He chose to recite the alphabet. He would not keep his eyes closed and had to be reminded numerous times to do so. He incorrectly recited the alphabet.
