<p>MVR is available.</p> <p>On 04/25/2021 at approximately 2122 hours, I responded to the area of 864 W Palmetto Park Rd (westbound lanes) in reference to a single vehicle (2015 Black Volkswagon SUV bearing FL tag JNED24) accident versus a sign.</p> <p>Upon arrival, Ofc Yockel had completed his accident investigation. Two wheel witnesses, passerby Jason Fitzmeyer and BRED Lt. Rodney Tumbleston (station 2), observed white male Mark Balli, identified by his FL DL, to be the driver of the vehicle with the keys in the ignition. Ofc Price obtained a statement from Lt. Tumbleston. Ofc Yockel and myself both advised Balli that Ofc Yockel had completed his accident investigation and now I was beginning the criminal investigation.</p> <p>I then read Balli his Constitutional Warnings on a preprinted card issued by BRPD in Ofc. Wright's presence. Balli advised he understood and would answer my questions without an attorney present. I then asked Balli what happened that lead up to the accident. While speaking with Balli, I observed Balli to be swaying and Ofc Wright had to catch Balli a couple of times from falling over. Balli stated that he was coming from a show and had a single Gin drink. He stated that his friend, Debra, was driving the vehicle. Balli further stated he was heading home to Boynton Beach, FL. While speak with Balli, I could smell a strong odor of alcohol emanating from his person, his eyes were blood shot glossy, and he was slurring his speech. Based on these observations, I asked Balli if he was willing to participate in roadside field sobriety tasks to dispel my alarm that he was under the influence. Balli advised that he would submit to the tasks.</p> <p>I then walked Balli over to a well-lit area and asked him if he had any medical problems, medical issues, or physical injuries that would prevent him from completing tasks such as walking, standing, and balancing on one leg. Balli replied he did not. Ofc</p>

<p>Wright asked Balli if he was taking any prescription medications, and Balli replied he was not. The tasks that were completed were the Horizontal Gaze Nystagmus, Walk and Turn, One Leg Stand, and Finger to Nose.</p> <p>The first SFST was the Horizontal Gaze Nystagmus. Balli moved his head after repeatedly telling him not to move his head and only follow with his eyes. Balli also could not maintain the starting position after multiple times telling him to keep his feet together and hands by his side.</p> <p>The second SFST was the Walk and Turn. Balli was unable to follow directions and started before told to do so. He failed to keep his feet heel-to-toe and instead took wide steps. He walked more than 9 steps forward the first time. I then reminded him that he must only take 9 steps forward and 9 steps back, which he acknowledged. He walked a few steps forward without counting and then restarted. He then walked a few steps again and then restarted. I gave him numerous attempts to complete the task, however, Balli was unable to keep his balance, continued to take wide steps, did not count out loud, and almost fell over a few times. He did not walk backwards. He did not complete the task as instructed after multiple attempts.</p> <p>The third SFST was the One Leg Stand. Balli chose to balance on his left leg. Balli was swaying and had to constantly put his foot down. He did not count out loud as instructed in the format I request him to count (i.e. One thousand one, one thousand two, one thousand three...). He also did not keep his leg straight or six inches off the ground as I had demonstrated in front of him.</p> <p>The fourth SFST was the Finger to Nose (L-R-L-R-R-L). Balli did not maintain the start position as instructed and kept his head upright when told to tilt his head slightly back. After reminding him every time he touched his nose, Balli did not bring his finger back down to his side after touching his nose; he would keep it on his nose. On the first left, he used his left hand and had a wide swing, touching the tip of his finger to his cheek at first and then to the top of his nose. On the first right, he used his right hand and had a wide swing, touching the tip of his finger to his nose. On the second left, he used his left hand and had a wide swing, touching the tip of his finger to his nose. On the second right, he used his right hand and had a wide swing, touching the tip of his finger to his nose. On the third right, he started with his left hand then switched to his right hand. On the third left, he used his left hand and had a wide swing, touching the tip of his finger to his nose.</p> <p>Based on the above information, I placed Balli under arrest for DUI. I handcuffed Balli and checked for double-lock and proper fit. Ofc Wright assisted with conducting a search of Balli's person and then placed Balli into my police vehicle. I then transported him to Boca ER for a medical clearance since he was involved in a minor vehicle accident. Balli was medically cleared by Boca ER, and then I transported him to PBCJ for a BAT.</p>
