DUI PROBABLE CAUSE AFFIDAVIT

On the 7TH Day of MAY 2020 at 1419 A.M. P.M.

Subject: RAMBEAU, ROBERT Case Number: 20-7476

Agency: West Palm Beach Police Department Arresting Officer: OFC STREIGOLD #1753

Personal Contact

Driving Pattern	Actual physical control (physical evidence putting the driver behind the wheel)
<p>Per Ofc Raja: He was in his marked patrol car on eastbound Forest Hill Blvd stopped at the S Dixie Hwy intersection due to a red traffic light attempting to turn left (north) onto S Dixie Hwy. Ofc Raja stated their light had just turned green when a 2019 black Toyota Corolla (FL-Y99VGW) was traveling southbound on S Dixie Hwy crossed into the intersection and stopped in the middle. The Corolla driver then reversed to the stop bar. The Corolla made a left turn onto Forest Hill Blvd and into the parking lot of a gas station. Ofc Raja and OIT Andersen conducted a traffic stop on the Corolla. The driver, Robert Rambeau, was identified by his FL ID. The driver became uncooperative with Ofc Raja and OIT Andersen. The driver was detained and placed in handcuffs and placed in the rear of Ofc Raja's marked patrol car.</p>	

Observation of Driver
<p>Ofc Raja advised me that the driver was exhibiting signs of intoxication as he was unable to maintain his balance and his speech was slurred. Upon my contact with the driver (in the rear of the marked patrol car) I was able to smell an odor of an unknown alcoholic beverage emitting from the driver's breath and the odor intensified as the driver continued to speak. After the driver stated he was calm, I removed the driver from the patrol vehicle and removed his handcuffs. The driver was having difficulties maintaining his balance, his eyes were glossy and his speech was slightly slurred. It should be noted that located inside the Corolla were several opened beer cans. In the center console cupholder was a Steel Reserve opened beer can that was still cold to the touch. Pictures of the inside of the vehicle were taken.</p>

Drivers Statements:
<p>The driver stated he was at Howley's restaurant and had been drinking several beers. The driver stated several times during my conversation with him and during the SFST's that he was drunk.</p>

Odors:
<p>ODOR OF AN UNKNOWN ALCOHOLIC BEVERAGE WAS EMITTING FROM THE DRIVER. THE ODOR INTENSIFIED AS THE DRIVER CONTINUED TO SPEAK.</p>

General Observations

Speech: SLIGHTY SLURRED
Attitude: COOPERATIVE
Clothing: BLACK SHIRT / BLACK AND BLUE SHORTS / BLACK SHOES
Medical Problems/Medications: NONE
Other: INITIAL 20-MINUTE OBSERVATION STARTED AT 1455HRS. THE 20-MINUTE OBSERVATION RE-STARTED AT 1512HRS.

The driver was instructed to stand with his feet together with his arms at his sides He was then asked if he could see the tip of the stimulus I placed in front of his face; the driver stated he could. He was reminded to track the stimulus with his eyes only. He failed to keep his head still while tracking the stimulus. I observed the driver swaying during the instructional and practical portion of this exercise.

Walk and Turn Task

The driver was asked to place his left foot on the line (neon orange duct tape) with his right foot directly in front of it with his heel touching his toe, then place his arms at his sides and stay in this position while I demonstrated this task. The driver stated he did not believe that he would be able to perform this task due to his swollen legs. The driver stated his legs hurt and were swollen because he is homeless and has been walking on them all day. The driver attempted to start the exercise however, he stated several times that he cannot perform the task. He also stated because he is drunk. I observed the driver swaying during the instructional portion of this exercise. This exercise was not completed.

One Leg Stand

I attempted to explain this exercise to the driver. The driver stated again that he does not think he can perform this exercise due to his legs being swollen and hurting. The driver was asked severa times if he wanted to attempt the exercise and he continued to refuse due to his legs and the fact that he did not want to fall over. This exercise was not completed.

Finger To Nose

I had the driver stand with his feet together and hands down at his sides as I explained the exercise. I explained and demonstrated the exercise and he stated he understood the instructions. The driver demonstrated that he knew his right from his left. I asked the driver to tilt his head back and close his eyes. The sequence preformed was: L, R, L, R, R, L. On the first left the driver placed the pad of his left hand on the tip of his nose. On the first right the driver placed the pad of his finger on the tip of his nose. On the second left the driver placed the pad of his finger on the left side of his nose then moved to the tip of the nose. On the second right the driver placed the pad of his finger on the tip of his nose. On the third right the drive placed the pad of his finger on the side of his nose and then moved to the tip of his nose. On the third left the driver placed the pad of his finger on the tip of his nose. During the course of this exercise the driver did not have his head tilted back nor his eyes closed as instructed to. I observed the driver swaying during the instructional and practical portion of this exercise.

Romberg Balance

I had the driver stand with his feet together and hands down at his sides as I explained the exercise. I explained and demonstrated the exercise and he stated he understood the instructions. I had the driver tilt his head back and close his eyes and estimate the passage of 30 seconds. He advised he finished this exercise at an internal clock of 30 seconds when the actual time was 10 seconds. I observed the driver swaying during this exercise. The driver's eyes were not closed and his head was not tilted back as instructed.
