The undersigned certifies and swears that he/she has just and reasonable grounds to believe, and does believe that the above named Defendant committed the following violation of law.

The Person taken into custody...

☐ committed the below acts in my presence.

☐ confessed to admitting to the below facts.

☐ was observed by _____ who told _____ that he/she saw the arrested person commit the below acts.

☒ was found to have committed the below acts, resulting from my (described) investigation.

On the 8 day of February, 2022 at 01:24 (Specifically include facts constituting cause for arrest.)

On February 7th, 2022 at approximately 2217 hours, I was dispatched to Police Officer Steade's traffic stop at the 700-BLK of US Highway 1, North Palm Beach, FL 33408.

Upon arriving on scene, Police Officer Steade notified me that the driver, Terrence Craig (w/m 06/21/1970), was showing signs of impairment. I introduced myself to Craig and asked him where he was coming from. Craig stated that he was coming from the restaurant Carmines in Palm Beach Gardens. I asked Craig where he was driving to and he stated that he was heading to Golf Course Rd to go home. I also asked Craig if he consumed any alcohol, and he stated that he did not any at all. While talking to Craig I noticed that his face was flushed, he had glassy eyes, his pupils were dilated, and his speech was slurred. I asked Craig if he would be willing to complete several Standardized Field Sobriety Tasks (SFSTs). Craig stated that he will do them. I asked Craig to step out of the vehicle. As he stepped out he was not able to maintain his balance, and he urinated himself. I asked Craig if he had any medical conditions or physical defects, and he stated that he did have high blood pressure and diabetes.

I explained the first SFST, Horizontal Gaze Nystagmus (HGN), to Craig. Craig stated that he understood. I placed the stimulus (a black pen) in front of Craig, and advised him to follow the pen with his eyes only. Craig swayed from left to right, was unable to keep his balance, and was not able to maintain the starting position. As I began to move the pen, Craig moved his head to follow the pen. I had to remind Craig to follow the pen with his eyes only, numerous times. Craig was eventually able to follow the pen, and his eyes showed the following signs: a Lack of Smooth Pursuit in both the right and left eyes, Distinct Nystagmus at Maximum Deviation in both the right and left eyes, and Onset of Nystagmus Prior to 45 degrees in both the right and left eyes.

I explained the second SFST, Walk and Turn, to Craig. While I was explaining it to him, Craig kept swaying back and forth, kept stumbling, and was unable to maintain the

Craig was instructed to get into the proper starting position (left foot on line with right foot in front, touching heel to toe). Craig was instructed that he could begin. Craig missed four heel to toe steps by approximately 11-13 inches, did not count out loud, and did an improper turn. Craig was not able to maintain his balance as he kept using his arms to balance himself. Craig almost fell over. I ended this SFST in fear that Craig would injure himself.</p> <p>I explained the Rhomberg Alphabet to Craig. Craig stated that he understood.
