Officer A Cabrera arrived on scene as the back-up officer As I was inside my vehicle, Batres exited his vehicle After repositioning my patrol vehicle, I had Batres stand in front of my vehicle I advised Batres that I was conducting a DUI investigation and asked him if he would submit to some roadside sobriety exercises to which he agreed Batres told me that he did not have any medical problems that would hinder him in performing the exercises and that he is not currently taking any medication

I conducted the HGN (Horizontal Gaze Nystagmus) test and observed all six clues Batres lacked smooth pursuit on both eyes, he had distinct and sustained Nystagmus at maximum deviation on both eyes and onset Nystagmus prior to 45 degrees on both eyes I had to tell Batres numerous times not to move his head while following my pen and to follow my pen with his eyes

Exercise # 1- Finger to nose did not keep his eyes closed and his head tilted back, failed to return his arms to his side as instructed, missed finger to nose every time (LRLRRL) I had to explain to Batres the instructions several times even after he stated that he understood the instructions and that he had no questions Batres raised his arms to the side and up not as instructed

Exercise # 2-One Leg Stand raised his left leg but stated that he was going to raise his right Swayed while balancing, was unable to keep his leg elevated, did not keep his leg straight and raised his foot less than 6 inches, did not count out loud as instructed and used his arms for balance

After the roadside exercises, I placed Batres under arrest for DUI Prior to transporting Batres to the station for processing, I asked him if he would submit to a breath test which he refused I then read Batres the Florida Implied Consent Law in the back of my police vehicle After reading Batres the Florida Implied Consent Law, he stated that he would submit to the breath test I then transported Batres to the station for processing While at the station, I started the observation period at 0111 hours After the observation period, I administered the breath test with the following results 208 and 200 As I was reading the results to Batres, was started giggling as he told me that he was almost home and that he knew that I was going to arrest him for DUI Based on my training and experience, I believe that Batres was in actual physical control of a motor vehicle while his normal faculties were impaired to safely operate a motor vehicle Batres was processed at the station and then was transported to the BSO jail
