| <p>The following incident occurred in the City of Delray Beach, County of Palm Beach, State of Florida.</p> <p>On September 4th, 2021, at approximately 11:43am, I was dispatched to a motor vehicle accident at 16211 S Military Trl. Upon arrival, I observed that the at fault driver, Alexandria Ann Altieri, still seated in the driver's seat of her Hyundai passenger car bearing Florida tag GXUN27. When she exited the vehicle, Altieri was extremely fidgety and had an unstable gait. When Altieri spoke, her speech was slurred, and I noticed that her eyes darted around as if she couldn't control it. I asked Altieri to lean against the front of my vehicle and she had difficulty balancing while leaning, almost falling over at one point. Altieri had difficulty focusing and following directions.</p> <p>After the crash investigation was completed, I advised Altieri that I was now conducting a DUI investigation and any statements made prior could not be used at a part of the investigation. I then read Altieri her rights from my department issued Miranda card and she stated that she understood her rights. Altieri advised that she arrived in Delray Beach from Pompano at approximately 6:30am, when she spoke with her manager at Dunkin Donuts on west Atlantic Ave. Altieri advised that she then went to Publix and a gas station over the next 5 hours. Altieri could not account for any other actions during that time frame.</p> <p>As part of the crash, the vehicle was inventoried and impounded. During the inventory, several prescription medications were found. Inside of one container that no longer had a label, two different types of tablets were found. The tablets were identified as Baclofen and Cyclobenzaprine Hydrochloride, both of which are classified as non-controlled muscle relaxants. Altieri did state that she takes muscle relaxers as prescribed on an as needed basis but has not taken any in several days. Altieri also stated that she has a history of drug abuse with Xanax and Subutex. | <p>she had not consumed any alcohol or taken any prescription or illegal drugs on the date of the accident. Altieri did advise that she took two capsules of an herbal substance called Kraton. A page from drugabuse.gov advised Kraton can have a psychotropic affect.</p> <p>During the interview with Altieri, she remained very fidgety and had difficulty balancing. Altieri was wearing a Dunkin Donuts t-shirt with long jeans and sandals. Her clothing was soiled and disheveled and her hands were dirty with scrapes and scratches.</p> <p>Believing that Altieri was impaired while driving, I requested that she perform the standardized field sobriety tasks to dispel my suspicion. Altieri agreed and the following observations were made:</p> <p>It should be noted that Altieri advised that she had no relevant medical conditions and was taking only the medications described above.</p> <p><b>HORIZONTAL GAZE NYSTAGMUS: 2 of 6 clues</b><br/>Altieri's eyes were checked for pupil size and equal tracking; the pupils were small. I observed lack of smooth pursuit in both eyes. Altieri had to be reminded to keep her head still during this task. It should be noted that Altieri swayed in all directions during this task.</p> <p><b>WALK &amp; TURN: 7 of 8 clues</b><br/>Altieri was given all instructions and advised that he understood before starting this task. Altieri was unable to maintain his balance during the instructions. Altieri missed heel-to-toe steps and/or stepped off-line on every step. Altieri turned improperly and raised her arms for balance during the entire task. Altieri also took the incorrect number of steps and stopped walking at the turn before taking the return steps. It should be noted that Altieri was given the option for footwear and chose to perform this task barefoot. She was then allowed an attempt while wearing sneakers and after losing her balance on the first few steps, chose not to continue.</p> <p><b>ONE LEG STAND: 4 of 4 clues</b><br/>Altieri was given all instructions and advised that she understood before starting this task. Altieri made several attempts to start this task due to her difficulty balancing. Altieri had to be reminded again to extend her leg and raise her foot 6 inches off the ground. Altieri was unable to balance for even one second during this task.</p> <p>The remaining tasks were not conducted as Altieri requested medics be called back to the scene due to her dehydration. It should be noted that Altieri initially declined medical attention when medics were first dispatched. Medics transported Altieri to Delray Medical Center for further evaluation. While at the medical center, Altieri</p> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                |                                                                                                       |                                                 |                                                                            |                                    |               |                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <p>exhibited signs of an altered mental state such as speaking and humming to herself as well as continuing the constant fidgeting. Medical staff advised that Altieri would not be released for an extended period, at which time I chose to request a blood sample for the purpose of determining the alcohol content and the presence of chemical or controlled substances. Altieri agreed to provide a sample, and it was drawn by nurse Shamarah Pinnock at 1447 hours. The sample was sealed and labeled to be submitted to evidence.</p> <p>On 10/27/2021, I received the toxicology report from the Palm Beach County Sheriff's Office lab. The report was signed by Xiaoqin Shan, Ph. D. - Senior Forensic Scientist. According to the report the following was found in the blood sample: acetone, Benzoylecgonine (cocaine metabolite_ at 238 +/- 48 ng/mL, Clonazepam at 60 +/- 15 ng/mL, Mitragynine, and Pentylone.</p> <p>Based on the above facts, probable cause does exist to arrest Alexandria A. Altieri for DUI pursuant to FSS 316.193(1B), two counts of prescriptions not in a labeled container pursuant to FSS 499.03(2), and possession of a prescription drug without a prescription pursuant to FSS 499.03(1).</p> |                                                            |  |                                                                                             |  |                                                                                                       |  |                                                                            |  |                                    |          |
