Walk & Turn, When told to place her left foot on the solid line she placed her right foot I instructed the defendant to correct her stance Upon beginning the walking phase, she took 9 steps forward correctly, she turned incorrectly by not taking a series of steps around her front foot, only taking one, and while returning she left a space of at least one inch on her 7th, 8th, and 9th step The defendant did not watch her foot during the exercise as instructed and never watched her steps despite advising her 3 times as she performed the exercise

One Leg Stand I had to remind the defendant to watch her foot during the exercise and she stopped the exercise after ten seconds I instructed the defendant to continue until I told her to stop at 30 seconds While counting she started to scramble the numbers after resuming

Finger to Nose Did not keep her head tilted back during the exercise She used the pad of her finger on four selections ,and she missed the tip of her nose on the second selection

I concluded my investigation formulating my opinion that the defendant was under the influence to the extent that her normal faculties were impaired, placing her under arrest

I advised the defendant of her arrest and requested that she submit to the breath test The defendant agreed to submit to testing

I transported the defendant to the Breath Alcohol testing facility where Breath Test
