Orange County		ICJIS Arrest Affidavit (continued)	
Arrested ☒ At-Large ☐ JRA ☐		Document #: 1057703	
Document Date: 02/25/2024		Division #: _____ Court Case #: _____	
Defendant's Name: RAPCHAK, DAVID STEVEN		Agency Case Number: 24-010980	
NARRATIVE: The undersigned has probable cause to believe the above-named defendant on the <u>25</u> of <u>February 2024</u> at <u>1:45</u> at <u>13000 FLAMINGO CROSSINGS BLVD, BAY LAKE, FL, 34787</u> (Zone: <u>601</u>) in Orange County did This affidavit establishes probable cause for arrest. It does not include all of the facts known to me, but only those fact relevant and sufficient to show probable cause for arrest. Please see the separate incident report for a full narrative of events. PC Statement: 1. David Steven Rapchak drove a vehicle. 2. While driving the vehicle, David Steven Rapchak: a. _____ was under the influence of alcoholic beverages to the extent that his normal faculties were impaired. b. _____ had a breath alcohol level of .08. On Sunday, February 25, 2024, at approximately 0145 hours, I, Deputy Gallon was driving in the area of Western Way and Hartzog Road when I established reasonable suspicion (i.e. failure to maintain lane) to conduct a traffic stop on a silver 2019 Ford Ecosport bearing Florida tag NHJM98. Upon making contact with the driver and sole occupant of the vehicle, David Steven Rapchak, I observed bloodshot watery eyes and a strong odor of alcohol emanating from the vehicle. David acknowledged having one drink approximately one and a half hours prior to being stopped. Based on the aforementioned observations, I asked David to exit the vehicle, due to my suspicion that he was driving under the influence. David was medically screened and consented to performing standardized field sobriety exercise (SFSEs). The following exercises were explained and demonstrated: Horizontal Gaze Nystagmus (HGN), Walk and Turn (WAT), and One Leg Stand (OLS). During HGN, I observed lack of smooth pursuit, distinct and sustained nystagmus at maximum deviation, and onset of nystagmus prior to 45 degrees in both David's left and right eyes. During WAT, I observed miss steps heel to toe, use of arms for balance, an improper turn, and an incorrect number of steps. During the OLS, I observed him put his foot down and sway. Based upon the totality of circumstances, I placed David under arrest for DUI, securing him in handcuffs. I transported him to the DUI Testing Center, where he provided two breath samples of .164, after the observation period. David was then transported to the Orange County jail, where he was transferred into their custody without incident.
