Personal Contact

Driving Pattern

Actual physical control (physical evidence putting the driver behind the wheel)

On Tuesday, July 22, 2026, at approximately 1936 hours, I responded to the area of Okeechobee Boulevard and Parker Avenue, West Palm Beach, Florida, in reference to a drunk driver.

Upon my arrival, I was advised by Detective Dillard (#1843) that he had conducted a traffic stop on a vehicle for speeding eastbound on Okeechobee Boulevard. Detective Dillard made contact with the driver, who was the sole occupant of the vehicle. The driver was later identified as Diana De Paola Nardy (W/F DOB 12/18/1955). Detective Dillard observed signs of impairment, at which time I initiated a DUI investigation.

Observation of Driver

While speaking with De Paola Nardy, I detected a strong odor of an unknown alcoholic beverage emitting from her breath. I also observed that she had slurred speech and glassy eyes.

Drivers Statements:

De Paola Nardy stated that she had consumed one glass of red wine at Carmine's in Palm Beach Gardens. De Paola Nardy stated that she did not require medical attention and advised that she had blood cancer.

Odors:

Unknown alcoholic beverage emitting from her breath

General Observations

Speech: Slurred

Attitude: Talkative

Clothing: Pink Romper, and white sandals

Medical Problems/Medications: Chemotherapy, Hydroxyurea, statin,

Other: N/a

Before administering the SFSTs, I checked De Paola Nardy for equal pupil size, resting nystagmus, and equal tracking. De Paola Nardy's pupils were equal in size, her eyes tracked equally, and no resting nystagmus was observed. During the Horizontal Gaze Nystagmus (HGN) exercise, I instructed De Paola Nardy to follow the tip of my finger with her eyes only. I observed lack of smooth pursuit in both eyes, distinct and sustained nystagmus at maximum deviation in both eyes, and the onset of nystagmus prior to 45 degrees in both eyes. Vertical nystagmus was not observed. During the HGN exercise, De Paola Nardy repeatedly moved her head while attempting to follow the tip of my finger and had to be reminded to keep her head still and follow the stimulus with her eyes only. De Paola Nardy had difficulty following the stimulus throughout the exercise and was repeatedly apologetic for not following the instructions correctly.

Walk and Turn Task

During the Walk-and-Turn exercise, I instructed De Paola Nardy to place her right foot on the yellow line and position her left foot directly in front of her right foot, with the heel of her left foot touching the toe of her right foot, while keeping her arms at her sides. I advised De Paola Nardy that this was the instructional position and that she was to remain in that position until instructed to begin the exercise. I instructed De Paola Nardy to take nine heel-to-toe steps, turn by taking a series of small steps, and then take nine heel-to-toe steps back to the starting point while counting each step out loud and keeping her hands at her sides throughout the exercise. I demonstrated the exercise, and De Paola Nardy stated that she understood the instructions. However, she repeatedly spoke over my instructions and was instructed to stop talking and listen to the directions being given. During the exercise, De Paola Nardy failed to remain in the instructional position, began the exercise before being instructed to do so, did not keep her hands at her sides, executed an improper turn, failed to take nine heel-to-toe steps in both directions, and did not count her steps out loud as instructed. De Paola Nardy also declined to remove her shoes prior to performing the exercise.

One Leg Stand

During the One-Leg Stand exercise, I instructed De Paola Nardy to stand with her feet together and her arms at her sides. I then instructed her to raise either foot approximately six inches off the ground, keeping the raised foot parallel to the ground. I instructed De Paola Nardy to look at the raised foot and count out loud in the following manner: "one thousand one, one thousand two, one thousand three," and so on until instructed to stop. I demonstrated the exercise, and De Paola Nardy stated that she understood the instructions. During the exercise, De Paola Nardy began before being instructed to do so, failed to raise her foot approximately six inches off the ground, did not keep her hands at her sides, and did not look at her raised foot as instructed. I also observed her body swaying from side to side. De Paola Nardy subsequently placed her foot on the ground and discontinued the exercise before being instructed to stop.

Finger To Nose

During the Finger-to-Nose exercise, I instructed De Paola Nardy to stand with her feet together and her arms at her sides. I asked De Paola Nardy if she knew the difference between her right and left, and she demonstrated that she did. I then placed De Paola Nardy in the instructional position and explained the exercise. I instructed De Paola Nardy that when I called out either "right" or "left," she was to raise the corresponding hand and touch the tip of her finger to the tip of her nose while keeping her eyes closed and her head tilted back. I further instructed her to return her hand to her side after each attempt until the next command was given. I demonstrated the exercise, and De Paola Nardy stated that she understood the instructions. During the exercise, De Paola Nardy failed to touch the tip of her finger to the tip of her nose on each attempt. She also kept her eyes open and failed to keep her head tilted back as instructed.

Romberg Balance

During the Romberg Balance exercise, I instructed De Paola Nardy to stand with her feet together and her arms at her sides. I instructed her that, when told to begin, she was to tilt her head back, close her eyes, and estimate the passage of 30 seconds in her head. I further instructed her that, when she believed 30 seconds had elapsed, she was to look at me and state that she was finished. I demonstrated the exercise, and De Paola Nardy stated that she understood the instructions. During the exercise, De Paola Nardy looked forward and attempted to turn around before approximately 30 seconds had elapsed. I also observed her raise her hands upward prior to ending the exercise.
