<p>☐ Marsy's Law CVI FL. Const. Art.1 § 16(b)</p> <p>On Monday, May 8, 2023 at approximately 2015 hours, I was dispatched to South Shore Boulevard (Bv) and 50th Street South, Wellington (Palm Beach County) Florida to assist Deputy Marshall Miller with a traffic crash that involved a possible impaired driver. While en route to this location I was advised the non-fault driver was being transported to Wellington Regional Medical Center for non life threatening injuries. Upon my arrival I noticed Palm Beach Fire Rescue stopped in the previously mentioned intersection securing the crash scene. Deputies parked their vehicles around the intersection to prevent traffic from entering. A white male subject was standing behind a utility vehicle, bearing current Florida license plates "NYGA 31". The rear hatch was open. I made contact with the crash investigation who was actively investigating the crash. He directed me to a witness who willingly came forward with information regarding the crash. He ultimately provided a sworn video statement detailing the it. He also identified the defendant as the driver of red utility vehicle. After the interview I began assisting with investigating the crash scene. The red utility vehicle was resting against a guard rail that it pushed toward a canal. It was facing southwest. The black pick up truck was resting int he westbound lane of 50th St facing west. Investigating the crash scene I observed an area of impact which gouged the roadway. I saw evidence of both vehicles travel after impact. The pick up was struck on its left front side (at the quarter panel) which caused it to redirect 90 degrees and proceed in a west direction. It incurred severe damage to its front side. The red utility vehicle incurred severe damage to its front side. It redirected in a southwest direction and struck the guard rail. The impact to the guard rail compromised its integrity and caused it to be pushed toward the canal. The utility vehicle came to rest against the guard rail. I made contact with the driver who was currently standing underneath the open hatch of the utility vehicle. He was later identified as Fred Ray Kahle by through the Driver and Vehicle information Database. His shirt was unbutton and his clothing was loose and disheveled. He was wearing a white shirt, blue pants and black shoes. I saw an abrasion to the top of his right hand with dried blood on the wound. As I interacted with the driver I noticed he struggled to maintain his balance when he stood. He was disoriented and thought he was on the west coast at times. His eyes were red, watery and glossy.</p>

<p>☐ Marsy's Law CVI FL Const. Art. I § 16(b)</p> <p>His face was flushed, his mouth was dry and he slurred his speech while speaking. His movements were slow, jerky and lethargic. On one occasion he nearly fell while retreating to the rear bumper of his vehicle. I initially smelled a strong odor of an unknown alcoholic beverage emanating from the inside of the vehicle. I saw an open container Jai alai IPA beer inside the center console cup holder. There were other expended beverages of the same beer lying on the passenger side floor board. I told the driver I was assisting with a crash investigation where he was identified as the driver of the utility vehicle. I explained I had completed my assistance with the crash and would now be conducting a criminal investigation for DUI with property damage. My suspicion of his alcoholic beverage consumption was prompted by the previously mentioned indicators of impairment he was exhibiting, to include the open container of beer and the intense odor of an unknown alcoholic beverage emanating from his breath. I told him I am required to advise him of his Constitutional Rights prior to speaking with him further. He acknowledged his "rights" afterward. He consented to an interview and could not recall being in a crash. He said he was coming from West Palm Beach and thought he was on SR 80. He told me the other driver caused the crash. Based on my suspicion I asked if he would perform Standardized Field Sobriety Tasks to determined if he was impaired while operating his vehicle. He declined. I explained Taylor Warnings which informed him the tasks are voluntary and he does not have to perform them. In the absence of his performance, however, would force me to conclude my investigation of his impairment on the evidence before me. I told him his "refusal" will be used against him in a court of law. I asked if he understood the warning. He told me he did understand but did not with to perform the tasks. Thus, based on the witness's identification of the defendant driving the red utility vehicle when the crash occurred, coupled with my observation of personal indicators of impairment exhibited by the defendant, probable cause was established for DUI with property damage. I told the defendant he was being placed under lawful arrest for the charge. He was handcuffed (checked for proper fit) prior to being seated into the rear of my patrol vehicle. D&D Towing responded on a rotation request and impounded the defendant's vehicle to their lot.</p>

I met with the physician who explained the defendant would need several medical procedures since he was in a traumatic incident. He told me the tenure of his treatment would be upwards of two (2) hours. This makes breath samples impractical. I met with the defendant as he lay on the gurney and told him his treatment would be upwards of two hours. Thus I told him I am now requesting that you submit to a lawful test of your BLOOD for the purpose of detecting its alcohol content and the presence of chemical or controlled substances. He refused. I read him implied consent in which he acknowledged. With his understanding of the consent I asked if he would reconsider and provide blood samples. He refused again and was deemed a "refusal". The defendant was cleared medically and later booked into the main jail for the previously mentioned charge.</p>
