NARRATIVE:

***** DUI SUPPLEMENTAL PROBABLE CAUSE *****

On July 22, 2025, I was traveling eastbound on Persimmon Boulevard (Blvd.), a two-lane roadway, at the intersection of 130th Trail North in unincorporated Palm Beach County, Florida. While traveling behind a black four-door Honda bearing Florida tag 20ATUE, I observed the vehicle failing to maintain a single lane. The driver, later identified as Mr. Gabriel W. Indalecio, was the sole occupant.

I observed the Honda swerve from the center line to the fog line on multiple occasions. At one point, the vehicle entered the lane of oncoming traffic. Due to these observations, I activated my department-issued Body Worn Camera (BWC) to document the driving pattern.

As Mr. Indalecio approached the intersection of Persimmon Blvd. and the State Road 7 (SR7) extension, he came to a complete stop at the posted stop sign. He then made a wide right turn onto SR7, crossing over the center line and entering the left turn lane (northbound) before correcting his course to proceed southbound in the appropriate travel lane.

At that time, Mr. Indalecio began to maintain proper lane positioning. Believing he may have been momentarily distracted, I deactivated my BWC. However, after passing Portsof Blvd. and approaching a right-hand curve, Mr. Indalecio again crossed both the center and fog lines. While negotiating the curve, he entered the oncoming traffic lane and nearly struck a motorcyclist traveling northbound.

Due to these repeated driving infractions and concerns for public safety, I initiated a traffic stop. I activated my vehicle's red and blue emergency lights and siren and conducted the stop just north of the intersection of Okeechobee Blvd. and SR7.

Upon making contact, I identified myself and requested Mr. Indalecio's driver's license, registration, and proof of insurance. As he gathered the requested documents, I immediately detected a strong odor of an unknown alcoholic beverage emanating from the interior of the vehicle. Mr. Indalecio's eyes were glossy and bloodshot, and his movements were slow.

When asked where he was coming from, Mr. Indalecio stated, "Home." While speaking, I smelled the odor of alcohol coming from his breath. After receiving his documents, I explained the reason for the stop. When asked

NARRATIVE CONTINUATION

if he was okay, he responded, "Yeah." I then asked if he had consumed any alcoholic beverages. He shook his head side to side, indicating that he had not.

While waiting for backup to arrive, I asked Mr. Indalecio if he had any medical conditions that could explain his driving behavior. He stated no but presented a prescription pill bottle. When asked what the medication was for, he stated it was for depression. He added that he was on his way to Lake Worth, where he works as a property manager.

Deputy Sheriff (D/S) Tejada #26703 arrived on scene, and I briefed him on my observations and concerns regarding potential impairment. D/S Tejada assumed the investigation and initiated a DUI investigation. I uploaded the BWC footage to Evidence.com and completed a supplemental report. This concluded my involvement in the case.

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

On July 22, 2025, at approximately 0700 hours, Sgt. Varone observed a vehicle traveling east on Persimmon Boulevard at 130th Avenue North. The vehicle failed to maintain a single lane and crossed the center line into oncoming traffic on the two-way roadway. The driver then made a wide right turn from Persimmon Boulevard onto North State Road 7, again crossing into the oncoming lane. Concerned for public safety due to these multiple infractions, Sgt. Varone initiated a traffic stop. He observed several signs of impairment, including bloodshot eyes, a strong odor of an unknown alcoholic beverage, and slow movements from the driver. After explaining the reason for the stop, the smell of the alcoholic beverage from inside the vehicle became more pronounced. When asked about any medical concerns that could explain the driver's unusual behavior, the driver mentioned that he takes medication for depression. For a detailed description of the encounter, please refer to Sgt. Varone's report.

OBSERVATION OF DRIVER:

Driver appeared lethargic and unable to keep his eyes opened.

DRIVER'S STATEMENTS:

Driver stated he was on his way to work.

ODORS:

Strong odor of unknown alcoholic beverage

Other Observations:

Indalecio's pupils appeared pin-sized, and his eyes were glassy and watery. A strong smell of alcohol or an alcoholic beverage wafted from his breath as he spoke, although it was somewhat masked by a body spray. He moved slowly and shuffled through his papers in confusion. His clothes were wrinkled and he looked tired, as if he had just awakened moments ago.

WALK & TURN: SFST

I explained and demonstrated the instructions for the Walk and Turn Task to Gabriel, Whitlock, and Indalecio, all of whom I believed understood the task. During the instructional phase, Indalecio struggled to maintain his balance and repeatedly drifted off the solid white line on the side of the road, which was clearly marked. While performing the task, Indalecio swayed from side to side. He had difficulty staying balanced, took an incorrect number of steps, and continued walking past step 9 on the line. Additionally, he stepped off the line, did not position his feet heel to toe, and did not keep his arms at his sides, instead raising them more than 6 inches for balance. Finally, he executed an improper turn that was not in line with what had been demonstrated.

ONE LEG STAND: SFST

I explained and demonstrated the instructions for the One Leg Stand Task to Indalecio, who indicated that he understood. However, during my demonstration, Indalecio did not maintain the instructional phase and began the task prematurely. While performing the task, Indalecio swayed from side to side and used his arms for balance by raising them more than 6 inches. He placed his foot down multiple times to regain his balance before the 30-second time period had elapsed. Additionally, Indalecio did not lift his foot 6 inches above the ground, did not point his foot out, did not keep his leg straight, and failed to count appropriately or at all. He also stopped the task early.

FINGER TO NOSE:

I explained and demonstrated the instructions for the Finger to Nose Task to Indalecio, who confirmed that he understood. During the task, Indalecio swayed from side to side. He did not keep his feet together, did not tilt his head back enough, and failed to touch the tip of his nose with his finger. On both attempts, he was unable to make contact with the tip of his nose using either his left or right hand. Instead, Indalecio hovered his finger near his nose and eventually touched it with the meaty part of his finger. Additionally, he began to tilt his head forward and sway noticeably. With his eyes closed, he appeared to be falling asleep while standing.

No performed due to Indalecio not being able to stand and maintain his balance.
