Document Date: 02/18/2024			Court Case #:
Defendant's Name: HULL, GLENN ANDREW		Agency Case Number: 2024-00060718	

NARRATIVE: The undersigned has probable cause to believe the above-named defendant on the 18 of February 2024 at 1:49 at S ORANGE AVE AND PENNSYLVANIA ST (Zone: india) in Orange County did

On February 18, 2024, at approximately 0110 hours, I, Officer A. Rideaux (33312) responded to the intersection of S Orange Ave and Pennsylvania St to assist Officer A. Sewell (35569) with a reported traffic accident that occurred.

Upon arriving on scene, I saw a silver, 2016 Nissan 4D sedan (bearing FL passenger tag: Z67GNW; VIN: 3N1CE2CP7GL366105) and a grey, 2023 Ford Pickup Truck (bearing FL passenger tag: 25DRFG; VIN: 1FTFW1E80PKE38920) that had collided with each other located in the right hand lane on S Orange Ave. While investigating the traffic crash, Officer Sewell said he smelled a strong presence of alcoholic content coming off of one of the driver's person. As I waited for Officer Sewell to complete his traffic crash investigation, I observed Glenn Hull (suspect) sitting inside the Ford pickup. Hull got out of the vehicle several times to adjust himself at which point I could smell the overpowering distinct odor of alcoholic content emanating directly from his person. As Hull stood, he appeared to sway while he stood. Also, Hull had extremely red (in appearance) bloodshot eyes.

Due to the impact of the crash, OFD (AMR 24-515; Run #: 24-8380) responded to the scene. The driver of the Nissan was transported to the ORMC Emergency department (52 W underwood St) for injuries sustained from the crash (reference Officer Sewell's crash report for further details).

Hull's identity was confirmed via teletype and DAVID databases.

When OFD completed their assessment of Hull and the other driver, Officer Sewell completed his traffic crash investigation with Hull. Once Officer Sewell was finished, I took over as the primary officer on scene (transitioning/changing hats) to perform an Impaired Driving Investigation due to the totality of circumstances gathered by Officer Sewell's and my observations of Hull, to include my initial observations of Hull's behavior and mannerisms.

BEFORE speaking with Hull, I read Miranda to him directly off of my department issued card; Hull agreed to continue speaking with me. When asked, Hull admitted that he had consumed approximately "4 beers". When asked what kind of beers he had consumed, Hull said they were "Michelob's". Hull said he came from "Rachel's" with his wife which he described as being a "strip club". Hull said he had consumed the beers approximately an "hour and a half" prior to the accident occurring. Additionally, when asked how well Hull would rate himself out of ten (with one being totally not able to drive and ten being totally able to drive), Hull said he'd rate himself a "five". When I told Hull I could smell the alcohol emanating from his person from where I was standing he said "I know, I fucked up". Hull also admitted to drinking and driving and continued to say that he "fucked up" and "messed up".

Based off of Hull's behavior (appearing disoriented, slight sway while standing, etc.), hearing his statements (having a slur at times while he spoke) and smelling a very strong and present odor of alcoholic beverage emanating from him, I informed Hull he was showing signs of impairment. At that point, I asked Hull if he was willing to submit to field sobriety exercises to dispel my fear of him being impaired; Hull agreed to perform them.

Hull continued to have what appeared to be sweat pooling on his forehead. In addition, Hull also had a white filmy substance on the corners of his mouth consistent with "dry mouth".

It should be noted, due to the rainy weather conditions, all exercises were done across the street under an awning at 1751 S Orange Ave (SODO Veterinary Hospital). This was done to ensure Hull was not exposed to the elements and rainy weather so he could perform the exercises without having any obstructions and or distractions. Hull mentioned he did not have any medical conditions which would prevent

him from standing or seeing.

HORIZONTAL GAZE NYSTAGMUS (HGN) EXERCISE

I informed Hull of the instructions. I used my patrol vehicle flood lights in conjunction with the bright hospital outdoor lights to illuminate Hull's face so I could clearly observe his eyes. During the exercise, Hull moved his head several times instead of following the red lighted stimulus pen with just his eyes as instructed. Hull was repeatedly instructed to follow the stimulus with his eyes and eyes only. At some points while performing this exercise, Hull had an extreme delay in following the red stimulus pen. I asked Hull if he could still see the red lighted stimulus, he acknowledged/confirmed he could. Hull swayed slightly several times throughout the exercise. Before the exercise began, Hull had difficulty keeping his feet together and hands to his sides (without losing balance/breaking the stance). While the flashlight illuminated Hull's face, I observed major/extreme involuntary jerking of his pupils as the exercise was being performed; his eyes had major/extreme jumping movements. Also, Hull's eyes had a red in color hue; having a bloodshot appearance.

WALK AND TURN EXERCISE

Due to the weather conditions, I used duct tape to create a straight line underneath the awning as the line and even surface Hull could walk on; this line was away from any oncoming traffic to include any major obstructions creating a clear path for Hull to freely walk on. I explained and demonstrated the walk and turn exercise to Hull; he confirmed he understood the instructions. As he watched me explain and demonstrate the exercise, he swayed several times while standing in place; losing balance several times as he stood. Hull was not able to stand and maintain the standing position of having his left foot on the white line, with his right foot directly in front of it (touching heel-to-toe) with his hands to his sides; multiple times, Hull lost balance and the position. I explained the exercise several times for Hull prior to him beginning the exercise to ensure he fully understood the instructions. When Hull began to do the walk and turn exercise, he did not keep his hands fully to his side at all times. Hull did not place his heel to toe as instructed throughout the entirety of the exercise; missing connecting heel-to-toe on several of his steps throughout the exercise. Hull took a total of ten steps on his first attempt and approximately ten steps on his second attempt. Hull also did not take a series of small steps to turn around as instructed once he reached his ninth step on the first pass.

ONE LEG STAND EXERCISE

I instructed and demonstrated the one leg stand exercise to Hull where he confirmed he understood the instructions. During the exercise, Hull began to perform the "Walk and Turn" exercise again even though he was thoroughly explained the "One Leg Stand" exercise instructions. When explained and demonstrated to Hull several more times, he continued to perform the "Walk and Turn" exercise instead of the "One Leg Stand". I stopped Hull from performing the exercise and once again explained the instructions for the "One Leg Stand". Hull finally appeared to understand the instructions to the exercise. Hull lost his balance throughout most of the exercise. Hull also did not keep his hands to his side as instructed at some points during the exercise. He also was not able to successfully raise his leg 6-inches off of the ground and maintain that position without losing his balance. Hull tried to perform the exercise several times but was not able to do so without deviating from the full instructions given. Hull attempted to count out loud however, Hull slurred his speech as he did so and ultimately stopped counting out loud as instructed during the exercise.

Based on my observations of Hull, it was believed that allowing him to return to the road would pose an immediate and imminent threat to

other vehicles/people on the roadway (to include himself). Based on the totality of circumstances, evidence obtained and Hull's statements/behavior, he was placed under arrest for violating FSS 316.193(1)-2; DUI-Driving Under the Influence.

Hull's vehicle was towed by Johnson's Wrecker.

Hull was transported to the Orange County Sheriff's DUI Breath Test Facility without incident. While on the way to the DUI Center, Hull continued to say he knew he had messed up. He also stated he thought he could "get away with driving even though he had been drinking". Hull continued to take full accountability for his actions and appeared to be remorseful. While at the center, a twenty-minute observation period was conducted. After the observation period was over, I read implied consent to Hull directly off of the State of Florida Orange County Implied Consent Warning form; Hull agreed to provide a breath sample. Hull provided two breath samples into the "Intoxilyzer 8000" breath sample machine. At approximately 0232 hours, Hull blew a recorded 0.160 blood alcohol level and at approximately 0235 hours, he blew a recorded 0.159 blood alcohol level. Due to the damage caused to the other driver's vehicle, Hull was instead charged with violating FSS 316.193(3)(C) (1)-3; Driving Under the Influence with Property Damage or Personal Injury.

Hull was issued the following citation:

- DUI Uniform Traffic Citation A2GYIWP; FSS 316.193(3)(C)(1)-3; Driving Under the Influence with Property Damage or Personal Injury

Hull was transported to BRC without incident; he had no property with him.

This incident was captured utilizing my department issued BWC. I briefly referenced my BWC to generate this report. The video of this incident was uploaded for further review if necessary.
