Probable Cause

On August 10, 2025 at approximately 5:49AM I was dispatched to back up an off-duty officer on a traffic stop on Interstate 95 (State Road 9) southbound, just north of Atlantic Avenue on the left shoulder. I arrived on scene at approximately 6:00AM, upon my arrival I observed an unmarked Chevrolet Silverado alongside Officer Rodriguez (#1880) from Fort Lauderdale Police Department. He advised the driver was unable to maintain their lane and swerving in and out of traffic. I also observed a red Mustang bearing a Florida License Plate (LUED74) stopped in front of Officer Rodriguez. I approach the vehicle and observed the driver who was later identified by his United States Passport as Jakob Nicholas Colodney (10/17/2000) asleep in the driver seat. The driver side window was rolled down and I attempted to wake up the driver with verbal commands and using the flashlight and the driver was unaware of my presence. I tapped the driver with the flashlight to wake up the driver and he slowly opened his eyes. I noticed the drivers eyes to be blood shot and watery eyes. I asked the driver for his Drivers License and he seemed sluggish in his movements and responses. I once again asked the driver for any identification, and he just nodded his head. I noticed a passport in his left hand; I asked the driver if he had a passport in which he slowly slurred yes. Mr. Colodney handed me the USA Passport and his movements were slow. After observing the sluggish behavior, slurred/slowed speech, bloodshot glossy eyes, and also detecting odor of alcohol, I asked Mr. Colodney to step out of the vehicle. Mr. Colodney advised "as a 2 year law student, he will not be stepping out of the vehicle". I asked Mr. Colodney multiple times to step out of the vehicle, and eventually he complied. I asked Mr. Colodney if he would be willing to perform Standardized Field Sobriety Exercises (also known as SFSEs) to determine if he was okay to drive. He stated he is willing to participate in the exercises, I informed him if he is okay with being escorted to a different location to safely conduct SFSE. He advised that [redacted] informed him he could drive to the nearest exit and go home. He questioned why a different location, which I explained to him the ground was wet and we are standing in the dark on the left shoulder of the interstate. He understood and was placed into my patrol vehicle and transported to Chevron (1909 W Atlantic Ave). I once again asked Mr. Colodney if he is willing to preform SFSE and he agreed.

I asked Mr. Colodney if he had any medical conditions, diabetes, surgeries or wore contacts/glasses. He stated he did not. All exercises were conducted at the Chevron where it was leveled and well-lit. When I asked Mr. Colodney if the area was okay for him to conduct the SFSE's and if he could visibly see the white parking lot line in which he stated yes.
The first exercise I asked Mr. Colodney to perform was the horizontal gaze nystagmus exercise. I instructed him to stand with his feet together (heels and toes), to keep his hands down to his sides, and to keep his head still and to follow the tip of my finger using his eyes only. Mr. Colodney stated he

understood.

The following was observed:

-Had to be shown the starting position and corrected multiple times.
-Would repeat my instructions such "feet together" but not actually do any of it.
-No resting nystagmus.
-Orbital sway throughout the exercise.
-Equal tracking in both eyes.
-Moved head multiple times throughout the exercise and had to be told to stop moving his head.
-Lack of smooth pursuit in both eyes.
-Distinct and Sustained Nystagmus in both eyes at Maximum Deviation.
-No onset of Nystagmus prior to 45 degrees in his right eye.
-Vertical Gaze Nystagmus.

The next exercise was the Walk and Turn. I explained to Mr. Colodney that he was to put his left foot on the line and place his right foot in front of it, with his right heel touching his left toes, and to keep his hands down to his sides. I demonstrated the exercise and then advised Mr. Colodney to maintain that position and to not start until told to do so. Mr. Colodney stated he understood my instructions. I told Mr. Colodney that when told to begin he was to take nine heel-to-toe steps down the line, and on his ninth step, he was to take a series of small steps to turn around. He was then to return back down the line while taking nine heel-to-toe steps. I then informed him that while walking, he was to watch his feet at all times, keep his arms down to his sides and count his steps out loud. Mr. Colodney was told that once he began, he was not to stop until the exercise was completed. Mr. Colodney stated he understood my instructions.

The following was observed:

-Did not maintain starting position while listening to instructions.
-Began too early.
-Had to be told multiple times to get into the starting position.
-Asked repeatedly if he could begin after being told to wait until told that he could begin.
On the first set of nine steps, I observed the following:
-Did not walk heel to toe
-Kept stating he is clumsy.
-Didn't count out loud/ lost count and randomly went to step 4.
-Slowed to steady/balance himself
-Raised arms more than 6 inches for balance on steps 1 and 6.
-Missed his heel-to-toe step on steps 1-9/
-Stepped off the line on step 1.
-Did not keep arms at his side throughout entire exercise.

On the second set of nine steps, I observed the following:
-Instead of beginning his 9 steps, he asked if he had to do it again.
-Stepped off the line on
-Raised arms more than 6 inches for balance on steps 6-10.
-Did not keep arms at his side throughout entire exercise.
-Slowed to steady/balance himself on steps 1-7.
While doing said exercises repeatedly, Mr. Colodney missed every heel-to-toe step and stepped off the line almost immediately.

The next exercise was the One Leg Stand. I demonstrated to Mr. Colodney that he was to stand with his feet together and with his arms down at his sides. Mr. Colodney was told not to begin until told to do so. Mr. Colodney stated he understood the instructions. I then told Mr. Colodney that when told to begin, he was to raise either leg of his choice approximately 6 inches off the ground. He was then to keep his foot parallel to the ground, keep both legs straight and to look at his raised foot. I advised Mr. Colodney that while holding that position, he was to count out loud such as one thousand one, one thousand two until told to stop. Mr. Colodney stated he understood my instructions. He was anxious to begin the exercise.

The following was observed:

-Raised his left leg, continually put his leg down for balance.
-Did not maintain starting position.
-Did not keep both legs straight
-Raised his arms more than 6 inches for entire exercise.
-Put his foot down numerous times.
-Began counting with his fingers.
-Did not count out loud
-Did not maintain balance for more than 5 seconds before almost falling over.

Based on my observations and the totality of the circumstances, I determined that Mr. Colodney had his normal faculties impaired and placed him under arrest at 06:34AM for Driving Under the Influence (DUI). At approximately 06:42AM I read Miranda Rights to Mr. Colodney and he stated he understood.

I transported Mr. Colodney to Palm Beach County Jail, during this period he spontaneously asked if could do 50 pushups and be released. He continued stating if he did 100 pushups that I had to release him. He also stated he was not even intoxicated; he slept 4 hours and is sober now.

I arrived at the Palm Beach County Jail and a 20-minute observation period began at 07:06AM.

During his 20-minute observation period, I verified that Mr. Colodney did not take anything by mouth or

regurgitate. At approximately 08:27AM, Mr. Colodney was asked to provide breath sample in which he refused. I then read him implied consent. Mr. Colodney stated he wanted an attorney and would not answer yes or no. I explained to Mr. Colodney that if he continues to disregard the question it will be taken as a no. Mr. Colodney was once again questioned in which he refused to provide sample.

Mr. Colodney is being charged with the following:
1 count of 316.193 (1) - DUI

At approximately 08:55AM, Mr. Colodney was transferred into the custody of the Palm Beach County Jail personnel.

All of the above events occurred in Palm Beach County, Florida.
