The undersigned certifies and swears that he/she has just and resonable grounds to believe, and does believe that the above named Defendant committed the following violation of law.
The Person taken into custody . . .

☐ committed the below acts in my presence.
☐ was observed by _____ who told _____ that he/she saw the arrested person committ the below acts.
☐ confessed to _____ admitting to the below facts.
☒ was found to have committed the below acts, resulting from my (described) investigation.

On the 27 day of April, 2023 at 11:16 (Specifically include facts constituting cause for arrest.)

PROBABLE CAUSE STATEMENT

On December 9th, 2022 at 6:51 PM, I responded to the 8900 block of Okeechobee Blvd. Upon my arrival, west bound traffic was being diverted around the crash scene and the police vehicles were blocking travel lanes down to one west bound lane. PBCFR Rescue #29 had responded via run #22-144834 and had already cleared the scene. The male cyclist was pronounced deceased at 5:21 PM by PBCFR #29 and remained on scene. At this time, I began a walkthrough of the scene.

Okeechobee Blvd has a speed limit of 50 MPH and travels east and west bound. Westbound traffic in the 8900 block has four through travel lanes with a left turn lane to travel south on Nugent Trail. Eastbound traffic has four through travel lanes with one right turn lane to travel South on Palisades Dr. East and westbound vehicle travel is divided by a solid painted single
yellow line around a raised curb median. Solid white lines separate the turn lanes from the through travel lanes. White dashed lines separate the through travel lanes. A four foot wide designated bike lane runs parallel to the roadway in the east and west bound lanes which is separated by a solid white line.

On the north side of Okeechobee Blvd, miscellaneous car parts and a section of bicycle frame and wheel were located in the bicycle lane outside of the westbound travel lanes. Another section of bicycle was located on the grassy embankment off the roadway. There was no roadway evidence indicating that the driver of V1 attempted to stop, slow or redirect V1 prior making impact with Ped1 on the roadway. The point of impact with the cyclist was located within the designated bicycle lane and not within the outside lane of travel indicated by bicycle tire skid marks at point of impact with the vehicle. The deceased male, later identified as Foad Makhmoor, was lying on his back in the 8900 block in a drainage ditch on the north side of Okeechobee Blvd in the 8900 block. Makhmoor will be referred to as Ped1.

Special Notes:

DEF

Name (Last, First, Middle)	Alias	Race	Sex	Date of Birth
KARVOIS, JASON RYAN		W	M	03/13/1979

The vehicle which struck Ped1 was not in the immediate area and was stopped in the 9800 block of Okeechobee Blvd as post impact with Ped1, the operator continued driving westbound and did not stop. The vehicle was stopped by witnesses to the crash nearly a mile (~.80 miles) west of the point of impact on Okeechobee Blvd. I proceeded to the 9800 block of Okeechobee Blvd and observed a dark blue 2016 Infinity QX80 bearing FL tag # QQIL31 which finally stopped in the west bound right turn lane to enter the plaza at 9800 Okeechobee Blvd. The vehicle was

stopped partially blocking the right turn lane and the passenger side wheels were off the road on the raised curb shoulder. The registered owner of the Infinity was Jason Karvois W/M, 3/13/1979. This vehicle will be referred to as V1. The driver and sole occupant of V1 was the registered owner, identified as Jason Karvois, was on scene being detained by WPBPD officers. Karvios will be referred to as D1.

PROBABLE CAUSE STATEMENT

V1 had moderate right front (passenger) end damage after the impact with Ped1. The damage was significant enough to where D1 should have heard and seen the impact with Ped1. The passenger side lower front bumper was completely missing and the passenger side head light was broken and hanging from the front of the vehicle. The right front wheel fender trim was alsc hanging off the vehicle still attached to the front fender and had been dragged along the roadway until V1 came to a stop when D1 was initially stopped by witnesses to the crash.

I first spoke to WPBPD Responding West Palm Beach Officer N. Lopez who stated she first made contact with D1. Upon arrival, Ofc Lopez made contact with D1 who had been stopped by witnesses on scene and D1 was standing outside of his vehicle. Both witnesses observed D1 in physical control of V1 at the time of the crash. Ofc Lopez stated that D1 was very unsteady and unable to balance himself while standing. D1 seemed to be confused and could not complete coherent sentences when asked simple questions. D1`s words were slurred when spoken. When Ofc Lopez asked for D1`s drivers license, D1 handed her a CCW license. D1 was seated in

the rear of Ofc Lopez`s Patrol vehicle unrestrained for his safety as D1 was unable to stand up
without losing balance or attempting to fall over. This interaction was captured on Ofc Lopez`s BWC. WPBFR responded to treat D1, but he declined treatment and transport.

I then spoke with witness Mason Storms (W/M, 10/28/1997). Storms will be referred to as W2. W2 stated he was traveling westbound on Okeechobee Blvd in his vehicle behind V1 when he
observed D1 swerving and failing to hold the travel lane. W2 stated he observed D1 strike
Ped1 in V1 who was riding his bicycle in the designated bicycle lane westbound on Okeechobee

PROBABLE CAUSE STATEMENT

Blvd. After impact with Ped1, D1 continued driving westbound on Okeechobee Blvd and made no effort to stop or return to the scene. W2 followed behind V1 attempting to get D1 to stop. W2 stated D1 finally stopped in the 9800 Block of Okeechobee Blvd. W2 stated that when D1 got out of V1 he was stumbling and appeared intoxicated. W2 stated that he called 911 once D1 stopped and waited for police to arrive on scene. W2 provided a sworn statement on scene.

I then made contact with D1 who was unrestrained in the rear of N. Lopez's patrol vehicle. During a fact finding interview with D1 he stated he knew there was an accident after being told by police. D1 could not explain the crash, his location, the reason for leaving,
the distance traveled, or any other aspects of the crash. While speaking to D1, it was noted
his words were slurred and sentences did not make sense. He eyes appeared glossy and distant. D1 seemed to have difficulty staying awake. Showing signs of impairment, along with causation

of a felony involving death, D1 was asked if he would consent to a blood draw to determine any alcohol or controlled substance present in his system. D1 refused consent. When D1 was asked to exit the PD vehicle in which he was sitting (non-cuffed with water) for his safety based on his impairment, D1 was very unsteady and required your affiant to reach for his arm to help steady him at times. Under Florida Law, a force blood draw was performed at 7:32pm, by PBCFR via in the rear of a secure medical rig which required no physical force as D1 complied. The blood draw was captured on BWC.

I then made contact with witness Bruce King (W/M 2/21/1969). King will be referred to as W1.
W1 stated he was traveling westbound on Okeechobee Blvd in his vehicle when he observed V1
swerving and failing to hold the travel lane. W1 stated he observed D1 strike Ped1 in V1 who was riding his bicycle in the designated cycle lane westbound on Okeechobee Blvd. After impact with Ped1, D1 continued driving westbound on Okeechobee Blvd and made no effort to stop or redirect. W1 followed V1 attempting to get D1 to stop. W1 stated D1 finally stopped in the 9800 Block of Okeechobee Blvd. W1 stated that when D1 got out of V1, he was stumbling and unaware of the crash. W1 stated that he observed D1 in physical control of V1 and D1 was the sole occupant of the vehicle. W1 provided a sworn statement on scene.

THI Ingrassia who was assisting on scene completed a blood draw warrant for a second blood draw for D1. This warrant was obtained and signed by Judge Sherri Collins. The blood draw

warrant was executed at 9:47pm by PBCFR in the rear of a secure medical rig which

PROBABLE CAUSE STATEMENT

required no physical force as D1 complied. The blood draw was captured on BWC. D1 was released from the scene post blood draw. Blood Kits and samples obtained were submitted to WPBPD Evidence for PBSO for toxicology analysis.

THI Streigold made contact with Jared Jablonski (W/M, 2/14/1985). Jablonski will be referred to as W3. W3 was west bound on Okeechobee Blvd in the outside travel lane. W3 observed the collision V1 made with Ped 1 but was unaware it was a cyclist until he stopped and made contact with Ped1. W3 stood by with Ped1 and contacted 911, standing by until first responders arrived on scene. W3 provided a sworn tape recorded statement.

THI Streigold photographed the scene. The scene was digitally scanned using the FARO scan station by CSI S. Riveria. The Palm Beach County Medical Examiner's Office was notified of the crash by this investigator and Forensic Investigator J. Baird was notified of the crash on 12/09/2022 at 7:00 PM and responded to the scene at 7:45 PM. THI Streigold assisted investigator Baird. Elite Removal responded and removed the deceased. V1 was photographed, and doors/trunk sealed with evidence tape. Sheehan's Towing responded and removed V1 with a hold placed on V1 for WPBPD Traffic Homicide. This investigator completed the DHSMV traffic fatality report. A copy of the crash report was sent to the Medical Examiner's Office.

At 10:24 PM, THI Ingrassia and I made next of kin notification at the deceased residence located at 1231 The 12th Fairway, Wellington, FL 33414. The son of Ped1, Faraz Makhmoor (W/M, 10/03/1990) was present at the residence and notification was made.

As D1 was suspected to be under the influence of alcohol/drugs due to D1's level of intoxication, actions post crash and driving pattern prior to the crash. These factors indicate that D1's actions are criminal in nature and a search warrant would be obtained to search V1 and obtain data from V1's EDR crash recording equipment.

A canvass of the area while on the crash scene determined that there could be surveillance footage from cameras located at the Exxon Gas Station located at 9971 Okeechobee Blvd. Cameras were reviewed but evidence was not captured by surveillance on property. There were no additional cameras located in the area of the crash.

On 12/13/2022 at 11:54 AM, A vehicle search warrant signed by Judge Lauren Burke was obtained for V1 to search the interior of V1 as well as obtain any evidence from the interior of
V1 including serology evidence. Another signed warrant was obtained on 12/09/2022 at 9:31 AM to read out V1's EDR crash recording equipment, this warrant also signed by Judge Lauren Burke.

On 12/14/2022, THI Dillard responded along with WPBPD Crime Scene Investigator Steffani Rivera to Sheehan's Towing at 1253 Roebuck Ct, West Palm Beach, FL 33401 to execute both the vehicle search warrant and EDR warrant and perform the vehicle inspections. In addition, post crash photographs were taken of V1 and the interior of the vehicle searched for property.

At approximately 1335 hours CSI Rivera and THI Dillard, executed the vehicle search and EDR warrants. The vehicle that was involved in this incident (V1) was a blue colored four-door Infinity QX80 with Florida tag QQIL31 and VIN: JN8AZ2NE5G9120994. It should be noted that damage was located on the rear passenger side front bumper area. The four doors, hood, and trunk of the vehicle were sealed with evidence tape. Photographs were obtained of the exterior and interior of the vehicle by CSI Rivera.

PROBABLE CAUSE STATEMENT

At the request of Traffic Homicide Investigator Dillard, the following swab samples were obtained from the vehicle by CSI Rivera:
- Front driver door area (interior)
- Steering wheel
- Gear shift
- Front driver headrest

The following items were located inside of the vehicle and were collected:
- Black colored semi-automatic Century Arms MKE AP5-M 9x19 caliber pistol with serial number: T0624-21CE00360. With the firearm was a black colored loaded magazine. These items were recovered from the glove compartment. The firearm was rendered safe by removing the magazine. It should be noted that there was no live round in the chamber.
- Black colored semi-automatic Sig Sauer P365 9mm caliber pistol with serial number: 66A295929. With the firearm was a black colored loaded magazine. These items were recovered from the center console. The firearm was rendered safe by removing the magazine and live round from the chamber.
- Two (2) black colored loaded extended magazines from the center console.
- Clear plastic bag that contained miscellaneous pills and a white powder from the center console.
- Orange colored prescription pill bottle with miscellaneous pills from center console.
- Black colored extended magazine from the trunk.

Traffic Homicide Investigator Dillard searched the vehicle. Upon completion of the search, additional photographs were obtained. One empty 357 Ml bottle of Svedka Vodka was located in the front center console along with another empty 357 Mi bottle of Svedka Vodka in the rear seat area.

PROBABLE CAUSE STATEMENT

CSI Rivera collected the firearms and drug located within the vehicle for processing and storage. CSI Rivera identified the narcotics located in the vehicle.
The clear plastic bag that contained the following:
- White colored powder that was tested using Scott Reagent presumptive test which yielded positive results for cocaine. The weight of the powder with the clear plastic bag and packaging weighed approximately 5.20 grams.
- Two (2) capsules with a blue colored imprint "103". Identified using www.drugs.com as "Gabapentin". The weight of the two (2) capsules with packaging weighed approximately 4.30 grams.
- Two (2) round shaped tablets with imprint "U 344". Identified using www.drugs.com as "Baclofen". The weight of the two (2) tablets with packaging weighed approximately 4.26 grams.
- Four (4) half round shaped tablets. Half of the imprint "344" another half has "U" imprint. Possibly "U 344" Identified using www.drugs.com as "Baclofen". The weight of the four (4) half tablets with packaging weighed approximately 4.36 grams.
- Two (2) round shaped tablets with imprint "CL40". Identified using www.drugs.com as "Olanzapine". The weight of the two (2) tablets with packaging weighed approximately 4.34 grams.
- One (1) round shaped tablet with imprint "P20". Identified using www.webmd.com as "Escitalopram". The weight of the one (1) tablet with packaging weighed approximately 4.02

grams.
- Three (3) oval shaped pills with imprint "91 F". Identified using www.drugs.com as "Ondansetron Hydrochloride". The weight of the three (2) tablets with packaging weighed approximately 3.87 grams.

The orange colored pill bottle belonging to "Jason Karvois" for "Baclofen 20MG Tab". The orange-colored pill bottle contained miscellaneous pills that contained the following:
- Twenty-one (21) round shaped tablets and one (1) piece of a round shaped tablet with imprint "U 34". Identified using www.drugs.com as "Baclofen". The weight of the twenty-one (21) tablets and piece of one (1) tablet with packaging weighed approximately 9.85 grams.
- Six (6) rectangular shaped pills that appeared to be broken in halves that contained the imprint "U 246". Identified using www.drugs.com as "Buspirone". The weight of the six (6) rectangular pills with packaging weighed approximately 4.72 grams.
- One (1) round tablet with imprint "11 36". Identified using www.drugs.com as "Escitalopram Oxalate". The weight of the one (1) tablet with packaging weighed approximately 3.71 grams.
- Three (3) capsules with blue colored imprint "103". Identified using www.drugs.com as "Gabapentin". The weight of the three (3) capsules with packaging weighed approximately 4.36 grams.
All items were packaged and submitted to the West Palm Beach Police Department Property

and Evidence section for storage by CSI Rivera and documented in her supplement report.

THI Dillard performed a crash data read out of the EDR control unit from V1. The Bosch Crash Data Retrieval Tool licensed to the West Palm Beach Police Department was utilized to perform a read out of the data. The EDR from V1`s airbag control Module did not record any event date from this crash due to it involving a pedestrian and no airbags were deployed on V1.
V1 was towed from Sheehans Towing yard and taken to the WPBPD Traffic impound lot located at 1290 Frederick St, West Palm Beach.

On 12/18/2022, I made contact with D1 at 8820 Okeechobee Blvd (Home Depot Parking Lot) to execute a search warrant signed by Judge Lauren Burke, signed on 12/12/2022, to obtain and take possession of DNA from Jason Ryan Karvois (D1). DNA would be recovered through the use of an oral swab to compare with DNA recovered from V1 to place D1, the sole occupant of V1, in the drivers seat and in actual physical control of V1 at the time of the crash. Contact was made with D1 and an oral swab was obtained 10:20 AM. D1 made no statements about the accident. The oral swab taken from D1 was placed into WPBPD Evidence for analysis by the Palm Beach County Sheriff`s Office Forensic Biology Unit.

On 12/19/2022 a receipt of search warrants issued was completed and filed with the clerk of courts. A DNA case request was completed with the Palm Beach County Sheriffs Office for DNA standard obtained from D1 and swabs from V1.

On 01/17/2023, I received an email from Edward Zumaeta, forensic scientist, at the Palm Beach County Sheriff`s Office with the Toxicological analysis of D1`s blood obtained on scene post crash. The blood volatile results from the first blood draw collected at 7:32 pm yielded the following results:
0.306 grams of ethanol per 100 milliliters of blood.
The blood drug analysis did not yield any results.

The blood volatile results from the second blood draw collected at 9:47 pm yielded the following results:

0.259grams of ethanol per 100 milliliters of blood.
The blood drug analysis did not yield any results.

Under Florida law, the limit for blood alcohol or breath alcohol is .08 or above.

On 03/01/2023, I received a final copy of the Medical Examiners report signed by Dr. Natalia Belova. This report stated that Ped1 died as a result of multiple blunt force injuries due to being a cyclist struck by a motor vehicle.

PROBABLE CAUSE STATEMENT

On 03/26/2023, I completed a scale traffic crash diagram using the FARO Scanning software. A traffic crash reconstruction was completed. A Scale drawing using the FARO Zone 3D Software was completed.

On 04/18/2023, I received an email from PBSO forensic biology DNA results of the 2 submissions examined for the forensic report.
Submission 003 was two (x2) swabs from the steering wheel from V1.
Submission 006 was two (x2) oral standards taken from Jason Karvois (D1).

From submission 003 swabs taken from the steering wheel of V1. The results of the DNA profile obtained are approximately 9E27 times (Very Strong Support) more likely if it originated from Jason Karvois (D1) and one unknown individual than if the DNA profile obtained originated from two unknown, unrelated individuals.

The report indicates that the above statistical result provides very strong support for the proposition that Jason Karvois (D1) is a contributor to the DNA profile obtained on the steering wheel of V1 placing Karvois (D1) in actual physical control of the V1 at the time of the accident during the collision with Ped1.

My investigation concluded that D1 operated V1 under the influence of alcohol at nearly four times the legal limit in the state of Florida. While D1 was under the influence of alcohol, D1 ran V1 off the roadway and struck Ped 1 who was riding his bicycle in the designated bicycle lane with the proper flow of traffic. Post crash, D1 fled the scene and continued to operate V1 with no regard for Ped1. D1 only stopped after being pursued by two witnesses to the crash nearly a mile (~.80 miles) west of where the impact occurred. D1 had at the time of the crash a blood volatile alcohol toxicology first draw result of 0.306 grams of ethanol per 100 milliliters of blood. The second blood volatile alcohol toxicology first draw result of 0.259grams of ethanol per 100 milliliters of blood. Under Florida law, the limit for blood alcohol or breath alcohol is .08 or above. D1 was confirmed to be the sole operator of V1 at the time of the crash through sworn witness statements taken on scene and DNA evidence obtained from V1 and a standard from D1.

Based on this information and evidence learned through the course of my investigation, probable cause exists to charge Jason Ryan Karvois (D1) with:
one count (x1) of DUI Manslaughter per F.S.S. 316.193(3c)(3a) and
one count (x1) of Leaving The Scene of a Crash Causing Death per F.S.S. 316.027(2).
