PROBABLE CAUSE STATEMENT

The undersigned certifies and swears that he/she has just and resonable grounds to believe, and does believe that the above named Defendant committed the following violation of law.

The Person taken into custody . . .

☒ committed the below acts in my presence.

☐ confessed to _____ admitting to the below facts.

☐ was observed by _____ who told _____ that he/she saw the arrested person committ the below acts.

☒ was found to have committed the below acts, resulting from my (described) investigation.

On the 28 day of January, 2023 at 03:18 (Specifically include facts constituting cause for arrest.)

On Saturday January 28th, 2023 at approximately 0017 hours, I was conducting a routine patrol in the area of US1/Indiantown Road and observed a silver Nissan Altima (bearing FL Tag#5049AU) traveling northbound on US1 with no headlights or taillights on, making it extremely hard to see.

I conducted a traffic stop on the vehicle by activating my overhead emergency lights as it pulled in the Harborside Place shopping center (200 N US1). The vehicle was very slow to pull over and stopped in the middle of the roundabout at the beginning of the shopping center, blocking the roadway. I made contact with the driver, later identified by his South Carolina DL as John Alexander (W/M 01/31/1955). Alexander stated that he did not realize the headlights were not on and had just picked-up the rental car earlier in the day. I immediately detected the odor of an unknown alcoholic beverage that emanated from his breath that intensified as he spoke. I also observed that Alexander had very blood-shot/glassy eyes and appeared very lethargic. Alexander stated he was staying at the Best Western Hotel which was in the opposite direction as to where he was driving. When I asked Alexander why he pulled into the plaza and was driving the opposite direction of his hotel, he stated that he was going this way to make a U-turn, even though he had passed two separate turn lanes/intersections to turn around prior. Alexander also admitted to having just had a drink before he left where he was coming from when I asked him. Based on the aforementioned events, I requested Alexander exit the vehicle and submit to Standardized Field Sobriety Tasks, to which he agreed.

I first began with the Horizontal Gaze Nystagmus task. I instructed Alexander to stand with his feet touching (heel & toes) and to keep his arms down at his side to which he struggled to do. I demonstrated to Alexander that he would be following my stimulus (red light) with his eyes and his eyes only and to keep his head still at all times. Alexander stated he understood the instructions and was ready for me to continue. Alexander eyes had no resting nystagmus in either eye and both eyes tracked together

equally. I observed lack of smooth pursuit in both eyes, distinct and sustained nystagmus at maximum deviation in both eyes, and onset of nystagmus prior to 45 degrees in both eyes. He did have vertical Nystagmus in both eyes. Multiple times throughout this task Alexander stopped following the stimulus with his eyes and was noticeably swaying back and forth.

The second task was the Walk & Turn task. I demonstrated and instructed Alexander to stand on the silver line of tape I had placed onto the flat sidewalk surface and to place his left foot onto the line and his right foot touching his left foot heel to toe with his arms at his side. Alexander got into the starting position and was unable to maintain it. I instructed/demonstrated Alexander to take nine heel-to-toe steps down the line and take a series of small steps then return down the line heel-to-toe taking nine steps while making sure to count out loud, look at his feet at all times, do not use his arms for balance, and do not stop walking. He stated he did not have any questions and understood the directions and was told to begin when ready. Alexander stated he was nervous and needed a few seconds before we began. After a few minutes of going back and forth, I advised Alexander that if he refused to complete the tasks I had requested of him, that I would have to make an arrest decision based off what I have seen so far and it can be used against him in a court of law. He stated he understood and would continue. I again instructed/demonstrated Alexander the task, to which he then placed the wrong foot on the line and stated he was ready and began walking. He stepped off the line and missed heel-to-toe on his first few steps then stopped when an item fell onto the ground and he stated that it distracted him. He then returned back to the front of the line and attempted to walk down it again without being instructed to do so.

The third task was the One Leg Stand. I instructed Alexander to stand with his feet touching (heel & toes) and to keep his arms down at his side, to which he struggled to keep his heels and toes touching without swaying around. I instructed/demonstrated to Alexander that he would be raising the leg of his choice approximately 6 inches off the ground while keep his foot parallel to the ground and counting out loud until I told him to stop. After demonstrating he stated he understood. Alexander did not raise his foot approximately 6 inches off the ground, only held it up for approximately 3-4 seconds before placing it down, and almost fell over. He began again, also only holding it up for approximately 3-4 seconds and almost fell over.

The fourth task was the Finger to Nose. I instructed Alexander to stand with his feet touching (heel & toes) and to keep his arms down at his side with his pointer fingers pointed outward. I instructed/demonstrated Alexander that I would be calling left (L) or right(R), when I do, with his head tilted back and eyes closed, he would take the tip of the finger I called and touch it to the tip of his nose and was shown the difference between the tip/pad/nail. He stated he understood and did not have any questions. I called out the fingers in the standardized order of L, R, L, R, R, and L. When I called "L" Alexander placed the pad of his finger on the bridge of his nose and did not place

his hand down as instructed. I called "R" and Alexander touched the pad of his finger to the center of his nose, and again did not place his hand down. I called "L" and he placed the pad of his finger to the center of his nose again, did not place his hand down. I called "R" and he touched the pad of his finger to the top of his nose without placing his hand down. I called "R" and with his right finger still touching his nose, lifted his left finger then placed his right finger back down on his nose.

The fifth and final task was the Romberg Alphabet. I instructed Alexander to stand with his feet touching (heel & toes) and to keep his arms down at his side. He was instructed to tilt his head back and close his eyes while reciting the alphabet in a non-rhythmical manner. Alexander stated that he had a PHD, however, did not know of feel comfortable reciting the alphabet. Alexander was instructed to count back from 32-6 in a non-rhythmical manner. He was noticeably swaying back and forth and stopped counting on the number "9".

Based on my investigation, observations, and totality of circumstances, I have probable cause to believe that John Alexander was in actual physical control of a vehicle while under the influence of an alcoholic beverage, chemical, or controlled substance, to the point where his normal faculties were impaired, contrary to F.S 316.193. He was placed into handcuffs that were properly spaced and double-locked per department policy and placed into the rear of my patrol car at 0041 hours.

I then transported John Alexander to the Palm Beach County Breath Alcohol Testing center, arriving at 0130 hours. I placed Alexander under a 20 minute observation period, during which he neither consumed nor regurgitated anything. We then went on video with BAT technician O`Neal #6212. I requested Alexander provide a breath sample to which he stated he was unsure and was told by attorneys in his state to refuse. I read him implied consent from a pre-printed template to which he stated he understood. After a few minutes of Alexander asking questions and stating he was unsure as of what to do, he ultimately refused to provide a breath sample.

I placed Alexander in holding while all necessary paperwork was completed and subsequently booked him into the Palm Beach County Jail. He was given a criminal court date of 03/01/2023, 0830 hours.

The above incident was captured on BWC. This narrative is a summary of the events and not purported to be verbatim.
