PROBABLE CAUSE STATEMENT

The undersigned certifies and swears that I have just and reasonable grounds to believe, and do believe that the above named Defendant committed the listed violation(s) of law. The Person taken into custody:

- ☒ Committed the below acts in my presence.
- ☐ Confessed to [WITNESS] admitting to the below facts.
- ☐ Was observed by [WITNESS] who told [WITNESS] that he/she saw the arrested person commit the below acts.
- ☒ Was found to have committed the below acts, resulting from my (described) investigation.

On May 17th, 2026 at approximately 2020 hours, I was patrolling East Bound in the 800 block of West Boynton Beach Blvd, in the city of Boynton Beach, Palm Beach County, when I observed D/S K. Scollo # 45181 conduct a traffic stop on a vehicle driven by Kaitlynn Easley .

D/S Scollo stated to me that he stopped the vehicle a White Genesis due to tint on the windows that appeared to be to dark. He stated that he was unable to identify the drivers gender age or race. Prior to conducting the traffic stop he observed the vehicle abruptly cut across multiple occupied lanes of traffic, creating a danger to the other motorist travelling in said lanes. He conducted a traffic stop on the vehicle stopping the vehicle in the driveway of W Boynton Beach Blvd and Casablanca Isles Blvd.

He made contact with the driver, Kaitlynn Easley who he advised of the reason for the traffic stop. he checked the tint levels of the windows and found the tine to be 15% on the front driver side window. D/S Scollo advised me that he had concerns that the driver was possibly impaired and I took over the

NOT A CERTIFIED COPY

investigation (See Supplemental PC for further).

Upon approaching the vehicle, I observed a child passenger, Alijah Easley in the rear seat who was not wearing the shoulder strap portion of the seatbelt properly.

I had the defendant step out of the vehicle. I observed that the defendant's pupils appeared to be dilated. Her eyes were watery and blood shot. The defendant swayed while standing still with her feet approximately shoulder width apart. There was an obvious odor of an unknown alcoholic beverage, based on my training and life experiences that came form the defendant's breath and intensified as she spoke with me.

I made contact with Easley, who stated she was traveling from a friend's house in Lake Worth at Ansley Place to her mother's residence at 1406 Belmont Place, Boynton Beach, Florida 33436. She identified the child as her son who is autistic. Easly stated that she did not had any medical issues. She stated that she did not take any illegal drugs but that she does work for a marijuana dispensary. The defendant stated that she smoked Marijuana earlier in the day. When I asked Easley if she had consumed alcohol, she stated she had not. I informed her I could smell alcohol coming from her person. She then stated there might have been alcohol in her car. I explained I was detecting the odor while speaking with her directly, not from the vehicle.

I advised Easley I was concerned she was impaired based on what I observed, what my partner reported about her driving, the odor I detected, and statements she made. I requested she complete field sobriety tasks to confirm or dispel my suspicion. To which she refused. I explained the tasks that if she refused I would have to base my decision of impairment on the evidence I had seen to that point. I explained that if I found reason to believe she was impaired that she could be placed under arrest for DUI and that her refusal could be used against her in criminal proceedings. Easley agreed to complete the tasks after initially asking if her mother could be present first. I explained there was no legal requirement for her mother to be present as she was 26 years old.

That task were completed int he roadway of the parking lot. The area was relatively flat and even to the naked eye. The area was dry and free of any large debris. It was lightly windy during the task. The area was illuminated by the street lamps in the parking lot. The tasks were recorded on my Body Worn Camera.

Horizontal Gaze Nystagmus (HGN) task:

I confirmed that the defendant did not have any issues with her eyes that were not corrected by corrective lens. The defendant stated that she wore contacts and was near sighted. I placed stimulus, a red pen light, in front of the defendant. I instructed the defendant on the task which she stated that she understood.

- The defendant had equal, dilated, pupil and did not have resting nystagmus
- The defendant's eyes tracked equally
- The defendant had a lack of smooth pursuit in both her left and right eye
- The defendant failed to follow the stimulus as instructed and reminded so the task was stopped
- The defendant swayed during the task

Walk and Turn Task:

I placed an approximately 2" wide yellow line of tape on the ground. The defendant stated that she knew her left from her right. The defendant stated that she could see the yellow line on the ground. I placed the defendant into the instructional position. I instructed the defendant on the task which I also demonstrated. The defendant stated that she understood

- The defendant failed to remain in the instructional position.
- The defendant did not turn in the manner instructed
- The defendant stepped off the line
- The defendant missed heel to toe
- The defendant raised her arms for balance
- The defendant did not continue to look at her foot as instructed

One Leg Stand Task:

I placed the defendant into the instructional position. I instructed the defendant on the task which I also demonstrated. The defendant stated that she understood

- The defendant put her foot down
- The defendant used her arms for balance
- The defendant swayed
- The defendant had visible body tremors
- The defendant had to be reminded to hold her foot 6"
- The defendant did not keep her foot level with the ground.
- The defendant stopped the task prior to being told to stop

Finger to Nose Task:

I placed the defendant into the instructional position. I instructed the defendant on the task which I also demonstrated. The defendant stated that she understood.

- The defendant missed and searched for the tip of her nose with every attempt
- The defendant did not bring her hand immediately back as instructed
- The defendant had visible eyelid tremors
- The defendant swayed throughout the task

NOT A CERTIFIED COPY

Romberg Alphabet:

I placed the defendant into the instructional position. I instructed the defendant on the task which I also demonstrated. The defendant stated that she understood

- The defendant stated her alphabet without issues
- The defendant swayed throughout the task
- The defendant had visible eyelid tremors

At this time I found probable cause to charge the defendant with Driving Under the Influence (Enhanced-Passenger under 18 years of age) pursuant to Florida State Statute 316.193(4). I handcuffed her to the rear, checked for proper fit, and double locked. I placed the defendant in the rear of my PBSO patrol vehicle.

I transported the defendant to the Palm Beach County Jail Breath Alcohol Testing (BAT) center. Upon arrival I placed the defendant in to a centrally located position where I observed her for a 20 minute period during which time she did not take anything by mouth or regurgitate. During this period the defendant asked about my family and children and stated, "When the real crime happens its going to be in your family".

After the observation period the defendant was moved into a video recorded interview room. I requested that she provide a lawful sample of her breath for the purposes of determining the alcohol content. The defendant refused. I read the defendant implied consent from a pre printed form which she stated that she understood. The defendant repeatedly spoke over me, became confrontational and demanded her lawyer. I again requested that she provide a lawful sample of her breath to determine the alcohol content, explaining that any answer other than a "yes" would be taken as a refusal. The defendant choose not to answer the question which was taken as a refusal to provide a lawful sample of her breath at 2205 hours.

At this time I found probable cause to charge her with Refusal to provide a breath sample second or subsequent pursuant to Florida State Statute 316.1939(1e)

I then requested that the defendant sign her citations, explaining that it was an admission not an admission of guilt but a acknowledgement of the citations. She was advised that any answer other than yes would be taken as a refusal and that if she refused to sign the citation she would be charged accordingly pursuant to Florida State Statute 318.14. She did not answer with a yes which was taken as a refusal to sign the citations.

While explaining to suspension she yells, "when your daughter gets caught," and shrugs. When I finished explaining her suspension to her she was moved to a holding cell. She became increasingly belligerent and stated, "That is why your daughter is going to get raped," which coupled with the other remarks she had made throughout the night as threat against my family.

I found probable cause to charge her with Threaten harm law enforcement officer family pursuant to Florida State Statute 836.12(2)(A)

I acknowledge this report was generated from a digital recording using Draft One by Axon. I further acknowledge that I have reviewed the report, made any necessary edits, and believe it to be an accurate representation of my recollection of the reported events. I am willing to testify to the accuracy of this report.

PROBABLE CAUSE STATEMENT

The undersigned certifies and swears that I have just and reasonable grounds to believe, and do believe that the above named Defendant committed the listed violation(s) of law. The Person taken into custody:

- ☐ Committed the below acts in my presence.
- ☐ Confessed to [WITNESS] admitting to the below facts.
- ☐ Was observed by [WITNESS] who told [WITNESS] that he/she saw the arrested person commit the below acts.
- ☒ Was found to have committed the below acts, resulting from my (described) investigation.

On Sunday, May 17, 2026, at approximately 2033 hours, while actively patrolling in Palm Beach County, Florida, I observed a white 2023 Genesis four-door sedan bearing Florida tag #DW37SC traveling westbound on W Boynton Beach Blvd approaching the intersection of Interstate 95.

Due to the dark tint on the Genesis' front side windows, I was unable to identify the driver's approximate gender, age, or race. While conducting an FCIC/NCIC query of the Florida registration tag, I observed the Genesis abruptly cut across multiple occupied lanes of traffic, creating a danger to other motorists traveling in those lanes.

I initiated a traffic stop by activating my red and blue emergency lights while operating my PBSO green-and-white patrol vehicle at the intersection of W Boynton Beach Blvd and Casablanca Isles in Boynton Beach, Florida.

Contact was made with the driver and registered owner of the Genesis, identified as Kaitlynn Easley. Easley was advised of the reason for the traffic stop. While accompanied by DUI Investigator Ward #16305, it was determined that Easley appeared to be intoxicated.

The Genesis' front side window tint was tested using my PBSO-issued Enforcer tint meter, which indicated a light transmittance reading of 15%, being 13% below the legal requirement pursuant to Florida Statute 316.2953.

The traffic stop was subsequently turned over to DUI Investigator Ward for further investigation.

This probable cause affidavit is being completed for supplemental purposes.
