PROBABLE CAUSE STATEMENT

The undersigned certifies and swears that he/she has just and resonable grounds to believe, and does believe that the above named Defendant committed the following violation of law.

The Person taken into custody . . .

☒ committed the below acts in my presence.

☐ confessed to _____ admitting to the below facts.

☐ was observed by _____ who told _____ that he/she saw the arrested person commit the below acts.

☒ was found to have committed the below acts, resulting from my (described) investigation.

On the 26 day of May, 2026 at 20:48 (Specifically include facts constituting cause for arrest.)

On Tuesday, May 26, 2026, at approximately 16:30 hours, I, Drug Recognition Expert (DRE) and DUI Investigator J. Kahn #545 was conducting traffic enforcement operations as part of the Florida Department of Transportation (FDOT) Impaired Driving enforcement grant. During this time Road Patrol officers were responding to a driver that was allegedly asleep at the wheel according to an anonymous passerby`s report to dispatch. Officer L. Bruorton #582 requested me to conduct an impairment assessment.

Upon arrival I contacted Officer Butzbach #507 and Officer Bruorton. They advised that they received two calls to this location. The first one a passerby advised a female was slumped over at the wheel and drooling all over herself inside of a black Chevy SUV.

Officer Bruorton stated when she arrived to the scene, she observed a black Chevy SUV bearing Indiana tag XHA493. The female was out of the vehicle and talking to an unidentified male. The male advised that Salazar was the driver of the Chevy SUV and that it rolled into his vehicle. The male further advised there was no damage to his car and did not want to make a crash report Officer Bruorton identified the female as Keslie Salazar by Indiana driver`s license. Salazar is the registered owner of the Chevy SUV. Officer Bruorton did see a drool stain running down her shirt. Officer Bruorton requested fire rescue to conduct a medical evaluation on Salazar. Officer Bruorton further stated Salazar believed she was in Tequesta on US-1 and she was coming from the Village of Juno.

Palm Beach County Fire Rescue responded to the scene at the request of Officer Bruorton. They checked Salazar`s vitals. I contacted the rescue crew (Palm Beach County Run# and they advised Salazar`s blood sugar was normal. Salazar`s blood pressure was 128mmHg systolic and 80 diastolic, and she was tachycardic at 140bpm.

PROBABLE CAUSE STATEMENT

I contacted Salazar and observed that she had bloodshot and watery eyes with droopy eyelids. Her shirt was soiled with drool. Salazar stated she had one shot of liquor at Dive Bar. Salazar had slurred and low speech. Her pupils were constricted. I requested for her to participate in Standardized Field Sobriety Tasks (SFST`s/FST`s) which she agreed to. I asked a series of medical questions to determine if she had any conditions which would impact SFST`s. Based on her answers I find Salazar fit to participate. It should be noted that Salazar stated she had "Type A," diabetes when I questioned her about her allegedly having it. Salazar stated she sometimes uses cannabis products, but then said she never confirmed cannabis product usage. Salazar also stated she has an unknown inner ear issue that reduces her hearing.

I provided instructions and a demonstration (when possible) for the following tasks: The first task was Horizontal Gaze Nystagmus, the stimulus for this task was my Toxoptix X3. Salazar did not present resting nystagmus. Salazar had equal pupils (though she presented myosis or abnormally small pupils), and equal tracking. Salazar presented all six of the standard indicators: lack of smooth pursuit, distinct and sustained nystagmus at maximum deviation, and onset of nystagmus prior to forty-five degrees. Intermittently throughout the task, Salazar moved her head and failed to follow the stimulus completely. Salazar also presented VGN and her eyes failed to converge.

The second task was Walk and Turn. I guided Salazar into the instructional position. She was unable to maintain this position throughout my instructions. When given the signal to begin this task, Salazar could not complete the first performance phase according to my instructions. Salazar blamed the wind for her obvious lack of balance, coordination, and perception of distance. She could not complete this task, so it was passed over for her safety. She crossed her legs more than three times in her attempt to do the task.

The third task was One Leg Stand. Salazar attempted to start the task prior to me telling her to do so. She again blamed the wind for her obvious lack of balance. She set her foot down three times during this task, used her arms for balance, and swayed. For her safety I concluded the task.

At the conclusion of SFST`s, Salazar failed to dispel my suspicions of her impairment. As such I placed Salazar into handcuffs which were checked for placement and double locked. I transported her to the Palm Beach County Jail Breath Alcohol Testing Facility (BAT) where I conducted a twenty-minute observation. During this time she did not consume or regurgitate anything. She was presented before BTO P. Pound PBSO 24639 and a breath testing instrument. She answered identifying questions and refused to submit a sample of her breath. I read her Implied Consent. She consented to submitting a sample of her breath.

Salazar provided two samples of breath; .285 at 18:32 and .281 at 18:35. After submitting her second sample the instrument displayed an exception message for Control

PROBABLE CAUSE STATEMENT

Outside Tolerance (COT). This invalidated these two samples. This is due to Salazar standing before the instrument and talking, exhaling repeatedly, and not following our simple instructions. Everyone exited the room, a second twenty-minute observation was conducted, and Salazar was requested to provide two more samples of breath. She refused to submit. I reminded her of Implied Consent which she acknowledged and maintained her refusal.

Based on the totality of the circumstances, I find probable cause exists that Kelsie Salazar was knowingly and intentionally operating her motor vehicle while her normal faculties were impaired in violation of FSS 316.193(1)(A). Furthermore, she did fail to submit to chemical testing by not providing two valid samples of her breath in violation of FSS 316.1939(1)(d). My department issued body worn and in-vehicle cameras were utilized during the course of this incident.

Additionally, if you refuse to take the test I have requested of you, you will be committing a misdemeanor of the SECOND DEGREE if this is your first refusal, in addition to any other penalties which can be imposed by law. If you refuse to take the test I have requested of you, and if your driving privilege has been PREVIOUSLY SUSPENDED, or if you have been PREVIOUSLY FINED under s. 327.35215, for a refusal to submit to a lawful test of your breath, urine, or blood, your driving privilege will be suspended for a period of eighteen (18) months. Additionally, you will be committing a misdemeanor of the FIRST DEGREE, in addition to any other penalties which can be imposed by law. Refusal to submit to the test I have requested is admissible into evidence in any criminal proceeding.
