Probable Cause

On Wednesday, May 28th, 2025, at approximately 6:20 PM, I, Trooper Herrera (Permanent ID #5279 / Radio ID #1794) was conducting traffic enforcement northbound on Interstate 95 (State Road 9) south of State Road 806 (Atlantic Ave) in a fully marked Florida Highway Patrol (2021 Dodge VIN # 2C3CDXAT2MH532309 Plate FHP#1432 with a speedometer calibration date of 05/16/2025) agency vehicle with painted insignias, in the county of Palm Beach, Florida. While traveling northbound at approximately 6:22 PM, our Troop was notified by the Lake Worth Regional Communications Center (LWRCC) to be on the lookout for a Black in color Chevrolet Tahoe SUV that was unable to maintain its lane and was constantly slowing down on the roadway before rapidly speeding back up to speeds more than 85 miles per hour. The speed limit in the area is 65 MPH. The vehicle that called in the BOLO was a white Honda Accord and the caller advised that the driver was a female and was able to get a partial license plate number that was attached to the BOLO vehicle that read "NBA". At approximately 6:26 PM I was able to locate the Black in color Tahoe traveling in the number 2 travel lane (The travel lanes are numbered from left to right) and I got directly behind the vehicle and confirmed with LWRCC that the Florida license plate attached to the vehicle read "NBAF40". LWRCC informed me that the vehicle came back to a black in color 2020 Chevrolet Tahoe that was registered to a H/M Maria Duval DOB 05/21/1971 out of the city of West Palm Beach, FL.

Almost immediately after I positioned my patrol vehicle behind the vehicle, the driver applied its brakes and rapidly decelerated to 45 MPH and then changed from the number 2 travel lane all the way over to the number 5 travel lane and then onto the outside lane of the exit ramp to Woolbright Road. It is to be noted that prior to the vehicles rapid deceleration and then change of lanes, I did not have my lights and sirens initiated. The vehicle after getting onto the outside lane of the exit ramp then crossed over onto the white line that divides the outside lane and the inside lane and appeared to for a second want to get back onto Interstate 95. I then initiated my lights and sirens to bring the vehicle to a stop and conduct a welfare check on the driver. The vehicle came to a stop onto the outside paved emergency shoulder. I made my initial contact with the driver through the passenger side. The driver of the vehicle who I later confirmed to be Maria Duval and who was the registered owner, was the sole occupant of the vehicle. While I was on the passenger side of the vehicle Ms. Duval took several seconds to notice that I was standing there and had trouble finding the button to lower the passenger side window so that I could speak with her. After Ms. Duval was finally able to lower the window, I advised Ms. Duval that I made the traffic stop to conduct a welfare check on her to see if she was having any medical complications. Ms. Duval stated that she did not have any medical complications. I then asked her if she had taken any medications that might have affected her driving, and she told me that she had did not. I then asked her if the vehicle had any mechanical issues that might have caused it to operate in

an unsafe manner, and she said that it did not. During my interaction with her I observed her eyes to be very glossy and bloodshot and I also smelled a strong odor of an unknown alcoholic beverage emitting from her breath and the odor intensified the more she spoke with me. I asked Ms.Duval where she was coming from and I was unable to understand what she was telling me because she was slurring her words a lot. She on multiple occasions would go completely off topic with what I was asking her and tell me that her son was a Marine in the military and that she was a realtor. When another Trooper arrived on scene, I walked over to the driver side of the vehicle to continue to ask Ms. Duval questions and the smell of an unknown alcoholic beverage grew stronger. I asked her if she knew her address and she would begin to tell me and then suddenly stop and change the subject.

I then told Ms. Duval that I noticed some signs of impairment coming from her and if she had consumed any alcoholic beverages earlier that day. She advised me that she did not multiple times. I asked her if she was willing to perform some voluntary (SFSE'S) standardized field sobriety exercises and she again and often would change the subject. After attempting multiple times to get a direct answer from her as to if she would perform the SFSE's, I then informed Ms. Duval of her Taylor warnings and that if she failed to voluntarily perform the SFSE's, that I would have to base by decision to arrest her on the signs of impairment that I had noticed being her slurred speech, blood shot and glassy eyes, unknown alcoholic beverage emitting from her breathe and her inattentiveness.

Ms. Duval stepped out of her vehicle and I walked her over to the front of my patrol car. It is to be noted that when she stepped out of the vehicle, she was having trouble maintaining her balance. At this time, I once again asked her if she was willing to perform the SFST's and she again began to change the subject and began to speak to me using her hands to emphasis what she was trying to say by touching my uniform with the tips of her fingers. It can be seen on video that I would gently redirect her hands away from me. Due to Ms. Duval not giving me a clear and decisive answer after asking her one more time at 6:40 PM, and based on the evidence collected through my investigation and the totality of the circumstances, I determined that there was probable cause to believe that Ms. Duval committed the offense of driving under the influence and by being in actual physical control of the vehicle while under the influence of alcohol, and or any chemical substance, and or any controlled substance while his normal faculties were impaired.
Ms. Duval was then handcuffed and placed in the rear seat of my patrol car until a female deputy arrived on scene to conduct a thorough pat down on her. At 7:09 Officer Pimentel from the Delray Beach Police, arrived on scene and performed a search on Ms. Duval The Black SUV was towed from the location of the traffic stop by Priority Towing. All items inside the vehicle were inventoried and documented accordingly by Trooper Schick I (ID #5354). The defendant was then transported to the Palm Beach County Breath Alcohol Testing (BAT) facility. At the BAT facility, a 20-minute observation period was conducted by me where she did not ingest anything by mouth or regurgitate (mouth was confirmed to be empty prior to beginning of the observation period). Ms. Duval was then taken to the Intoxilyzer room where she was asked to provide a breath sample to determine the level of alcoholic content within her body. Mr. Duval agreed to provide a breath sample. Mr. Duval's first breath sample was .222. Mr. Duval's second breath sample was .219.
