PROBABLE CAUSE STATEMENT

The undersigned certifies and swears that he/she has just and resonable grounds to believe, and does believe that the above named Defendant committed the following violation of law.

The Person taken into custody . . .

☐ committed the below acts in my presence.

☐ confessed to _____ admitting to the below facts.

☐ was observed by _____ who told _____ that he/she saw the arrested person committ the below acts.

☒ was found to have committed the below acts, resulting from my (described) investigation.

On the 17 day of August, 2023 at 22:19 (Specifically include facts constituting cause for arrest.)

On Thursday August 18th, 2023, at approximately 2002 hours, I was dispatched to the roundabout at the intersection of West Frederick Small Road/South Central Boulevard in reference to a crash involving a white Honda with a female driver.

Upon arrival, I observed the above mentioned white Honda Civic, (bearing FL Tag#BN37AC), crashed into the center of the roundabout into large brush/bushes. The driver, sole occupant, and registered owner, Megan Murray (W/F 01/09/1990), was still sitting in the driver`s seat and was attempting to get out of her vehicle. While I stood by with Murray, Officer Fandrey spoke with the caller and witness of the crash, Julie Bellan (W/F 03/10/1972). Bellan stated that she saw Murray drive her white Honda straight into the center of the roundabout without braking and with a high-rate of speed. She advised that officers arrived on-scene very shortly after she had called and stayed close by incase Murray was injured.

After Murray exited her vehicle, she was extremely uneasy on her feet and acting very nonchalant after being involved in an almost very serious accident. Murray was holding her phone up as if she was on a phone-call stating she was talking to her father, however, I could hear the Bluetooth speaker from inside of her vehicle of a voicemail/automated system showing that she was not talking to anybody on the phone. Murray was unable to tell me how she ended up crashed into the middle of the roundabout and would just give me a blank stare when I would ask her questions. While speaking with Murray, I observed that she had very glassy/droopy eyes, heavily slurred speech, was very uneasy on her feet, and the odor of an unknown alcoholic beverage emanating from her breath that intensified as she spoke. I advised Murray that I had concluded my civil crash investigation and was changing hats to a criminal DUI investigation. She was read Miranda from a pre-printed card to which she stated she understood. Post Miranda, Murray admitted to having just left her work at Carmines (local restaurant) where she had drank 3 beers with co-workers.

DEF	Name (Last, First, Middle)	Alias	Race	Sex	Date of Birth
	MURRAY, MEGAN TERESA		W	F	01/09/1990

PROBABLE CAUSE STATEMENT

Based on the aforementioned events, I requested Murray submit to Standardized Field Sobriety Tasks, to which she agreed.

I first began with the Horizontal Gaze Nystagmus task. I instructed Murray to stand with her feet touching (heel & toes) and to keep her arms down at her side to which she struggled to do. I demonstrated to Murray that she would be following my stimulus (red light) with her eyes and her eyes only and to keep her head still at all times. Murray stated she understood the instructions and was ready for me to continue. Murray`s eyes had no resting nystagmus in either eye and both eyes tracked together equally. I observed lack of smooth pursuit in both eyes, distinct and sustained nystagmus at maximum deviation in both eyes, and onset of nystagmus prior to 45 degrees in both eyes. She did not have vertical Nystagmus in either eye. Multiple times throughout this task Murray stopped following the stimulus with her eyes and was noticeably swaying back and forth.

The second task was the Walk & Turn. I demonstrated and instructed Murray to stand on the long yellow line of tape that was placed on the level sidewalk and to place her left foot onto the line with her right foot touching her left foot heel to toe with her arms at her side. Murray got into the starting position and was unable to maintain it and attempted to start walking without any further instructions. I instructed/demonstrated Murray to take nine heel-to-toe steps down the line and take a series of small steps then return down the line heel-to-toe taking nine steps while making sure to count out loud, look at her feet at all times, do not use her arms for balance, and do not stop walking. She stated she did not have any questions and understood the directions and was told to begin when ready. Murray began to walk down the line taking large steps missing heel to toe on almost every step, did not count out loud, and walked far past the yellow line while taking over 12+ steps before turning around and walking back towards me.

The third task was the One Leg Stand. I instructed Murray to stand with her feet touching (heel & toes) and to keep her arms down at his side, to which she struggled to do without swaying around. I instructed/demonstrated to Murray that she would be raising the leg of her choice approximately 6 inches off the ground while keeping her foot parallel to the ground and counting out loud until I told her to stop. After demonstrating she stated she understood. Murray did not raise her foot approximately 6 inches off the ground or following any of my instructions that she just stated she understood. She almost fell over a few times and for her safety, I moved onto the next task.

The fourth task was the Finger to Nose. I instructed Murray to stand with her feet touching (heel & toes) and to keep her arms down at her side with her pointer fingers pointed outward. I instructed/demonstrated Murray that I would be calling left (L) or

PROBABLE CAUSE STATEMENT

right(R), when I do, with her head tilted back and eyes closed, she would take the tip of the finger I called and touch it to the tip of her nose and was shown the difference between the tip/pad/nail. She stated he understood and did not have any questions. I called out the fingers in the standardized order of L, R, L, R, R, and L. When I called "L" Murray placed the pad of his finger onto the top of her nose. I called "R" she placed the pad of her finger just above the tip of her nose. I called "L" and she placed the side of her finger on the middle of her nose while stumbling around and almost falling down to the point where I had to grab her to make sure that she did not fall. Murray then became unsure if she wanted to continue. I advised her that if she refused to complete the tasks that I have requested of her that it can/will be used against her in a court of law and I would have to make an arrest decision based on the totality of circumstances. She stated she understood and would continue to the final task.

The fifth and final task was the Romberg Alphabet. I instructed Murray to stand with her feet touching (heel & toes) and to keep her arms down at her side. She was instructed to tilt her head back and close her eyes while reciting the alphabet in a non-rhythmical manner. During this task, Murray did not incorrectly recite the alphabet, however, was noticeably swaying back and forth, did not keep her eyes closed, and had a very long slowed pause after she got to "P".

Based on my investigation, observations, and totality of circumstances, I had probable cause to believe that Megan Murray was in actual physical control of a vehicle while under the influence of an alcoholic beverage, chemical, or controlled substance, to the point where her normal faculties were impaired, contrary to F.S 316.193. She was placed into handcuffs that were properly spaced and double-locked per department policy and placed into the rear of my patrol car at 2028 hours.

I then transported Murray to the Jupiter Medical Center for medical clearance per jail policy and subsequently to the Palm Beach County Breath Alcohol Testing center, arriving at 2132 hours. I placed Murray under a 20 minute observation period, during which she neither consumed nor regurgitated anything. We then went on video with BAT technician Ragin#16877. I requested Murray provide a breath sample to which she agreed. She provided two breath samples of .208 & .204.

I placed Murray in holding while all necessary paperwork was completed and subsequently booked her into the Palm Beach County Jail. She was given a criminal court date of 09/20/2023, 0830 hours.

The above incident was captured on BWC. This narrative is a summary of the events and not purported to be verbatim.
