The undersigned swears there are reasonable grounds to believe that the above named defendant in Hillsborough County, Florida, did:

On the above listed date and time, near the intersection of Bloomingdale Ave. at S U.S. Hwy. 301 the affiant responded to a Traffic Crash call for service, which involved an alleged impaired driver (HCSO case #24-110040 / DHSMV #26537710). The defendant was operating a black Harley Davidson motorcycle west on Bloomingdale Ave. when she hit a raised median (west side of Hwy. 301), lost control and struck the front passenger side door and fender area of the victim/witness' vehicle, which was also traveling west on Bloomingdale Ave. The witness, who was driving the black Tesla sedan, identified the defendant as the driver and observed the defendant operating the black Harley Davidson at the time of the crash. The total value of the property damage was approximately $5,000.00. During Deputy R. Rene's (ABN 263695) contact with the defendant while assisting with the traffic crash investigation, he detected multiple indicators of impairment.

Following the traffic crash investigation, the affiant made contact with the defendant and also detected multiple indicators of impairment, which included the odor of an alcoholic beverage emitting from the defendant's breath as she spoke, slurred speech and bloodshot, watery and glassy eyes. The affiant asked the defendant to do the Standardized Field Sobriety Exercises (SFSE's), which the defendant refused to do. The defendant was subsequently placed under arrest for DUI based on the totality of the circumstances. The defendant was transported to Central Breath Testing (CBT) where she refused to provide an answer as to whether she would provide the two lawful breath samples to determine her breath alcohol content (BrAC). The affiant read the defendant the Implied Consent warning, which she refused to acknowledge understanding and again refused to provide an answer as to if she would provide the two lawful breath samples. Therefore, an intoxilyzer instrument was set up to give the defendant the opportunity to provide the two lawful breath samples. The defendant refused to enter the testing room, which caused the intoxilyzer instrument to time out and provide a "No Sample Provided" reading. The defendant's actions were deemed as a refusal. The affiant issued the defendant a DUI citation (AAZ70UE), which reflects the DUI charge. The affiant conducted a search of the D.A.V.I.D. database, which revealed the defendant was previously guilty of DUI on 4/11/2003. The defendant was identified via her Florida driver license.
