PROBABLE CAUSE STATEMENT

The undersigned certifies and swears that I have probable cause to believe and do believe that the above named defendant(s) committed the following violation of law:

The Person taken into Custody

☐ committed the below acts in my presence.

☐ was observed by _____ who told _____ that he/she saw the arrested person committ the below acts.

☐ confessed to _____ admitting to the below facts.

☒ was found to have committed the below acts, resulting from my (described) investigation.

On the 12 day of May, 2023 at 10:33 (Specifically include facts constituting cause for arrest.)

On 5/12/2023 at approximately 1033 hrs, I responded to the area of US Highway 1 just north of Ocean Dunes Boulevard, in reference to a report of a traffic crash with injuries. Detail of the call stated a vehicle was flipped over, possibly on fire, with a person trapped inside. I responded to the area and by the time I arrived, I observed Nicholas Devers (OF-1) sitting outside of VEHICLE-1. VEHICLE-1 is a Mercedez sedan bearing FL tag BG67TX. The vehicle was on its roof. PFC Albano did not witness the crash, but removed Devers from the vehicle, who was still in the driver seat at the time officers arrive. Outside of the window that Devers was extracted from, multiple metallic canisters of nitrous oxide were located along with a large nitrous oxide dispenser. Nitrous oxide is an intoxicating inhalant frequently used for recreational drug use. It should be noted that your affiant is a Drug Recognition Expert in good standing witht he IACP (DRE #34042).

I made contact with Devers, who could not articulate what happened. He did not know where he was, where he was coming from or what year it was (he told me it was 2022). He had a flushed face, dilated pupils and heavily slurred and thick, slow speech. I detected an unknown chemical odor emitting from his breath, which intensified when he spoke. His eyes were glassy and bloodshot. Due to the severity of the crash, he was transported to Saint Mary`s by ground to the trauma center for evaluation. I collected the nitrous oxide canisters and dispenser from the scene as possible evidence. I made contact with my co-crash investigator, Ofc. Gelina, and advised him of my findings. We determined that VEHICLE-1 was southbound on US Highway 1 at an accelerated speed, traveled west off-road, and traveled in the median for approximately 521 feet before crashing. There were no apparent brake marks and it appeared that Devers was possibly unconscious at the time of the crash.

I went to St. Mary`s and made contact with medical staff. They advised me that due to his injuries he would be at the hospital for an extended period of time, exceeding four

hours from the time of the crash. I made contact with Devers who again displayed thick, slow and slurred speech. His face was still pale and he has glassy, bloodshot eyes with dilated pupils. I advised him that the crash investigation was over and that I was now transitioning to a criminal DUI investigation. I advised him of the difference between traffic and a criminal investigation stemming from crash privilege. He advised that he understood. I asked if he would submit to a field sobriety exercises and he refused. He also advised he would not speak without a lawyer. He was read Taylor warnings during my interview with him and continually refused to participate in SFST`s. Based on the totality of the circumstances, I had probable cause at this point to believe he had been in actual physical control of a vehicle while under the influence of an alcoholic beverage, chemical or controlled substance to the point that his normal faculties were impaired, contrary to F.S.S. 893.13, and during that crime did cause property damage to another. I also had probable cause to believe he was in unlawful possession of inhalants (nitrous oxide) with intent to ingest to become intoxicated, contrary to F.S.S. 877.111(1). He was arrested at 1144 hours. I asked if he would submit to a blood test, as a breath test was impossible and impractical due to the time delay between crash and possibly sampling.

Devers initially refused to submit to the blood test. I read him implied consent from a prepared card. He then agreed to take the blood test. Ofc. Coleman responded back to the city and retrieved a blood test kit. I read Devers implied consent again to make sure that he understood the sanctions of not providing a sample. He advised he understood and now refused to take the test; the refusal time was 1252 hrs.

Devers was also found to having a suspended DL without knowledge. He was cited for DUI property damage, DWLS without knowledge and careless driving. I booked him into the county jail. BWC.
