*****SUPPLEMENTAL PC*****

On 10/25/2025 at approximately 0235 hours, I was patrolling the area of Okeechobee Blvd. and the Florida Turnpike, located in unincorporated West Palm Beach, Palm Beach County, FL. While doing so, I was driving a fully marked PBSO patrol vehicle with agency insignias prominently displayed and wearing a PBSO class "B" patrol uniform. While driving westbound on Okeechobee Blvd., just east of the Florida Turnpike, in the far right lane, I observed a gray Dodge Ram pickup truck bearing FL Tag # BZ6-9CZ, also heading eastbound in the far left lane. The Dodge Ram pickup truck was traveling at a very high rate of speed, passing me and several other vehicles. I looked at my fully calibrated speedometer of my patrol vehicle (Asset # 88232) and observed that I was traveling at 50 miles-per-hour with the pickup truck traveling much faster, likely in excess of 70-80 miles-per-hour. I then pulled behind the pickup truck and began speed pacing it by maintaining 3 full car lengths behind it. While doing so, I reached speeds consistently of 75-80 miles-per-hour. The speed limit of Okeechobee Blvd., east of the Florida Turnpike is 45 miles-per-hour. While driving eastbound, the truck was gliding across the roadway, going over it's lane and into the middle lane, then back into the far left lane, several times. No road debris or obstructions were present to explain such maneuvers. The truck continued eastbound and stopped at a red light at Okeechobee Blvd. and Haverhill Rd.

The light turned green and the vehicle continued eastbound on Okeechobee Blvd. I continued to pace the vehicle which was now traveling 60-65 miles-per-hour. As we approached the intersection of Military Tr., the traffic light turned red while the truck was approximately 500 feet from the intersection. The truck continued driving eastbound, completely disregarding the red light and drove through the intersection. I then activated my emergency lights and sirens, signaling for the vehicle to stop. The vehicle continued eastbound approximately 1/4 of a mile to Indian Rd., before finally stopping. It should be noted that the entire roadway was well lit and there were several turn-offs that the vehicle could have used to stop prior to Indian Rd. I then made contact with the driver who identified herself with FLDL as Samantha Baboolal. I immediately detected the odor of unknown alcoholic beverage emanating from the interior of the vehicle and took note that she had red glassy eyes and mildly slurred speech. I also observed an open plastic container with off-white colored liquid in the center console cup holder. Baboolal indicated that she was heading home from her boyfriend's house and knew that she was speeding but was unaware that she ran the red light. Additionally, Baboolal explained that the open container was her boyfriend's cup of tequila. It should be noted that there were no other occupants of the vehicle during the stop. I then contacted the PBSO DUI unit, to which Inv. A. Senmanat #24968 responded to the scene and took over the ongoing investigation.

SUPPLEMENTAL PROBABLE CAUSE AFFIDAVIT

On Saturday October 18, 2025 at approximately 0256hrs I responded to 4111 Okeechobee Blvd, West Palm Beach, FL 33407 where a traffic stop had come to for a DUI investigation.

Upon arrival I spoke with Lt. W. I observed Baboolal leaning against the wall of the Marathon gas station next to her vehicle. I walked up to her and observed he chewing gum. I introduced myself and asked her to speak with me in front of my vehicle. As she spoke I immediately smelled an obvious odor of an unknown alcoholic beverage coming from her breath, As she walked towards my vehicle I observed her to have an unsteady balance. Baboolal's eyes were glassy, watery, and red (she had stated she was crying from breaking up with her boyfriend). As she spoke she slurred some words.

Baboolal stated she was not sick or injured, or physical defects, and had no medical problems. She stated she was not taking any prescription medications. She stated she has not hit her head recently. She stated she was on her way to her home, from her boyfriends house. She stated she has not smoked marijuana or used any illegal drugs today.

[redacted] She stated that they had no problems with their feet, legs, hips, and arms. She advised that she had back problems from an injury from her childhood. That sometimes it locks up and she is unable to walk. I told her that she walked to my vehicle and she said that it happens sometimes. I asked her if she felt the effects of the alcohol and she said no. I asked her if she was under the influence and she said that she was "fine right now". She stated there have been times that she was unable to see due to the alcohol but that she was fine tonight. There whole time she was speaking with me I observed her swaying side to side.

Based on the totality of the indicators of impairment and the signs of impairment observed by the Lt; I asked Baboolal to do the Roadside Tasks and she agreed to do them. See attached DUI Probable Cause Affidavit.

I transported Baboolal to the PBSO B.A.T. and after a twenty minute observation in which she did not take anything by mouth or regurgitate. I then requested her to submit to a lawful test of her breath for the purpose of determining the alcohol content and she wanted to know if she refused. I read her Implied Consent and she stated that she understood it. I asked her if she was going to provide breath and she said she would. Baboolal provided two valid breath samples and the results were: .148 and .129.

Baboolal was later turned over to PBSO booking Deputies for booking purposes.

This case is cleared by arrest.

ROADSIDE TASKS

HORIZONTAL GAZE NYSTAGMUS:

- [x] LT EYE-LACK OF SMOOTH PURSUIT
- [x] RT EYE-LACK OF SMOOTH PURSUIT
- [x] LT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION
- [x] RT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION
- [x] LT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES
- [x] RT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES

Other Observations:

The defendant was placed into the instructional stance for Horizontal Gaze Nystagmus. She verbally identified the red stimulus that I was holding up. She was told to follow the stimulus with her eyes only and not to move her head. I checked her eyes for equal pupil size, equal tracking, and resting nystagmus. I observed a lack of smooth pursuit in both eyes. I observed distinct and sustained nystagmus at maximum deviation in both eyes. I observed onset of nystagmus prior to 45 degrees in both eyes. She was reminded a couple of times not to move her head. I did not observe any vertical nystagmus in neither eye. She swayed from side to side throughout this process.

WALK & TURN:

I explained and demonstrated the instructions for the Walk & Turn to her. She stated she understood the instructions and had no questions for me. She failed to maintain the instructional stance by separating her feet help steady herself (she stated it was because her thighs were to thick). She swayed from side to side. She did not walk heel to toe on some steps, stepped off the line, stopped to steady herself, took more than nine steps, she incorrectly counted her steps (I stopped her and explained her first step taken was one and I had her restart; and again she did not start counting properly), and made an improper turn. She used her arms to assist in balance.

ONE LEG STAND:

I explained and demonstrated the instructions for the One Leg Stand to her. She stated she understood the instructions and had no questions for me. She failed to maintain the instructional stance by separating her feet to help steady herself. She swayed from side to side. She raised the left leg for this task. She started and lowered her foot; and immediately said, "My balance is so bad I would not be able to do this even if I was not drinking". She lowered the foot several time, and did not count out loud.

FINGER TO NOSE:

I explained and demonstrated the instructions for the Finger to Nose task to her. She stated she understood the instructions and had no questions for me. She failed to maintain the instructional stance by separating her feet to help steady herself. She missed all attempts with both the right and left hand. She touched under the nose, or to the side of the nose. She was also swaying throughout this task.

ROMBERG ALPHABET:

I explained and demonstrated the instructions for the Rhomberg Alphabet task to her she stated she understood the instructions and had no questions for me. She failed to maintain the instructional stance by separating her feet to help steady herself. She swayed from side to side. She properly recited the Alphabet.
