PROBABLE CAUSE STATEMENT

The undersigned certifies and swears that he/she has just and resonable grounds to believe, and does believe that the above named Defendant committed the following violation of law.

The Person taken into custody . . .

- ☐ committed the below acts in my presence.
- ☐ confessed to _____ admitting to the below facts.
- ☐ was observed by _____ who told _____ that he/she saw the arrested person committ the below acts.
- ☒ was found to have committed the below acts, resulting from my (described) investigation.

On the 22 day of June, 2025 at 03:45 (Specifically include facts constituting cause for arrest.)

On 06/22/2025 at approximately 0304 hours, I responded to the area of 300 S Dixie Hwy as a backup officer.

Upon arrival, I met with Ofc. Tejeda. According to Ofc. Tejeda, she was patrolling when she noticed a Delray Beach PD vehicle behind a gray Jaguar bearing FL tag 58FBFI. She then observed there was a white male, later identified by his FL DL to be Thomas Flynn, passed out in the driver seat behind the wheel of the Jaguar vehicle with the car on and running. Ofc. Tejeda advised she attempted to awaken Flynn, and even physically nudged him to wake him, when he finally woke up. She turned off his vehicle in fear he would awaken and accidentally drive off. Ofc. Tejeda stated when she asked Flynn for his information, he handed her lotto tickets and a red credit card.

Upon my arrival, Flynn was still seated in the driver seat. His vehicle, the gray Jaguar, was in the roadway, at the stop sign facing west at S. Dixie Hwy. I asked Flynn to step outside of his vehicle, to which he complied. As Flynn got out of his vehicle, he stumbled a lot and has difficulty walking. I then asked him what happened, and he advised he did not know. He was not aware that he had fallen asleep in his vehicle and did not remember being woken up by anyone. I asked him if he had any medical conditions or medical issues, and he replied he did. I then asked what they were, and he was unable to tell me what his medical issues or conditions were. I asked him several times, and he could not provide me with any valid medical issue or condition that would contribute to him falling asleep at the wheel of his vehicle. He further advised that he does not take any prescription medications and had concussions in the past but has not seen a doctor or had any surgeries. According to Flynn, he was heading to his home at "2221 Lighthouse Point." I asked him what street he lived on, and he replied, "2221 Lighthouse Point." He advised he has lived there for 10 years, but he did not remember the street he lived on. He advised he was coming from his friend, Paul`s, house in Boca Raton, and Paul owns a bar, so they were hanging at Paul`s bar. While speaking with Flynn, I could

smell an overwhelmingly strong odor of an unknown alcoholic beverage emanating from his breath and person, his eyes were bloodshot red and glossy, he was slurring his speech, and he was unsteady on his feet. I then asked him how much he had to drink tonight, and he replied, "a ton." I asked him how much a "ton" was, and he replied, "Plenty….uh…3." He advised he had 3 beers. I then asked him if he felt like he was able to drive right now, and he replied, "No." I asked him why he was trying to drive home, and he replied, "Idiot. I don`t know. I`m sorry."

Based on my observations, I was concerned that Flynn had been operating and been in actual and physical control of a motor vehicle while under the influence of alcohol and/or a chemically controlled substance. I asked Flynn if he would be willing to participate in field sobriety tasks to dispel my alarm. He advised he would participate in the tasks.

I then guided Flynn over to a solid yellow line on a flat and dry surface in a well-lit area. I pointed to the line we would be using, and Flynn used his foot to point to the line as well. He also stated it was, "yellow." I explained and demonstrated each task before Flynn performed them.

The first task was the Horizontal Gaze Nystagmus. Flynn advised he did not have any issues with his eyes that are not corrected by contact lenses or glasses. After explaining the instructions, I asked Flynn if he had any questions. He replied "no." I then asked if he understood the task, and he replied "yes." During this task, I had to remind Flynn to straighten his head. During the task, I noticed equal pupil size. I noticed a lack of smooth pursuit in both eyes, distinct and sustained nystagmus at maximum deviation in both eyes, and nystagmus in both eyes prior to 45 degrees. Flynn would also lose focus of the pen. I also observed vertical nystagmus in both eyes. Flynn was swaying the entire time.

The second task was the Walk and Turn. I afforded Flynn the opportunity to participate in this task with his shoes on or off, and he chose to keep his shoes on. After explaining the instructions, I asked Flynn if he had any questions. He replied "no." I then asked if he understood the task, and he replied "yes." Flynn did not remain in the starting position. He also started before I told him to. Flynn took more than 9 steps, he stepped off the line, he did not maintain heel-to-toe, he counted his steps improperly, he raised his arms and did not keep them by his side as I instructed, he turned improperly, he stopped to steady himself, and he took more than 9 steps back. When I asked him how many steps I told him to take, he could not tell me. When asked again, he said he could not remember. He then advised he did not want to continue with the tasks.

I then read him Taylor Warnings, to include that if he did not want to continue with the field sobriety tasks, I would be forced to make a decision on whether or not he`s too

impaired to operate a motor vehicle based on my observations up until this point, and his refusal to participate in the field sobriety tasks can be used against him in court as evidence. Flynn advised he understood. I then asked him again if he wished to continue with the tasks, and he advised he would continue.

The third task was the One Leg Stand. After explaining the instructions, I asked Flynn if he had any questions. He replied "no." I then asked if he understood the task, and he replied "yes." Flynn lifted his left leg and balanced on his right leg. He kept his left leg bent, he could not keep his foot up for more than a few seconds, and he lost his balance several times. He also did not follow my instructions with looking at his foot while he counted or keeping his hands by his side.

The fourth task was the Finger to Nose (L-R-L-R-R-L). Flynn advised he has a Master`s degree as his highest level of education. I explained and demonstrated the instructions. Flynn showed me which hand was his left hand and which hand was his right hand. He also showed me his index/pointer fingers and the tip of the finger. I also showed him the tip of the nose. Flynn advised he understood and did not have any questions. During the task, he did not follow the directions. He bent his body backward instead of just tilting his head back, he did not keep his eyes closed, and he did not touch any finger to his nose. Instead, he said he would look left or right when I said left or right.

The next task was the Rhomberg Alphabet. Flynn stated he could not recite the English alphabet from A-Z, however, he wanted to try. I told him to recite the English alphabet from A-Z without skipping any letters. Flynn recited the following, "Z,X,Y…and there`s a lot beyond that. Z,X,Y…I don`t know."

The final task was the Rhomberg Balance (estimate 30 sequence). I explained the instructions. Flynn advised he understood and did not have any questions. Flynn estimated 30 seconds in 1 minute and 7 seconds.

Based on my observations, I developed probable cause to arrest Thomas Flynn for DUI pursuant to F.S.S. 316.193(1)(a). I handcuffed Flynn, and Ofc. Ramunni conducted a search of his person. The keys to the Jaguar were inside of Flynn`s right jeans` pocket. He then placed him into my marked patrol vehicle. An inventory was conducted of the vehicle. It was then towed by Priority Towing.

I then transported Flynn to Palm Beach County Jail BAT to obtain a breath sample. Upon arrival, I conducted a 20-minute observation, ensuring nothing was inside his mouth, and then Flynn was taken into the BAT room. I then requested Flynn to provide a sample of his breath for the purposes of determining the alcohol content. Flynn advised he would not provide a breath sample. I then read Flynn his Florida Implied Consent warnings, and he advised he understood. He again refused to provide a breath sample. I then read Flynn his Constitutional Warnings again, and he advised he understood. Flynn did not my
