Probable Cause

On Thursday, February 6, 2025, at approximately 16:39 Hrs, I was stationary in a jurisdictional marked patrol vehicle (FHP0447) on the paved shoulder (right shoulder) conducting traffic stops, southbound on State Road-91 (Florida's Turnpike) at mile-marker 98.

I observed a gray Jeep Gladiator leave the outside travel lane, crossing the divided median strip that divides the Jog Road ramp entrance/ accelerating lane and the outside travel lane. Vehicle then passed several from between the divided space between accelerating lane and outside travel lane during heavy traffic. Vehicle did not enter the highway from Jog Road entrance/ accelerating lane.

Vehicle committed the infraction of Florida State Statute **(F.S.S) 316.090 (2)** "No vehicle shall be *driven* over, across, or within any such dividing space, barrier, or section, except through an *opening* in such physical barrier or dividing section or space or at a crossover or intersection as established" and/or **F.S.S 316.084 (2)** "The driver of a vehicle may overtake and pass another vehicle on the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or *main-traveled portion of the roadway*."

I activated my emergency equipment lights and went after the vehicle. The Jeep Gladiator bearing Florida tag (34BIIJ) stopped southbound mile-marker 98 paved shoulder (right shoulder).

I made a driver side approach. The driver (defendant), later identified as (VANDAN SATISH AMIN, FL DL# A236-065-15-200-0, D.O.B 8/22/1981), was informed the reason for the traffic stop. Prior to me stating the infraction, he advised he was headed to see a patient at Action Men Health, in Wellington. I requested for his driver's license, insurance, and registration. It was challenging to hear the defendant in the beginning due to a bit of slurred speech and low tone.

I observed he had a difficult time trying to pull his license out from his wallet. From the window, I could detect and unknown odor of an alcoholic beverage coming from his mouth as I lean in closer. I noticed the defendant place what appeared to be gum (due to the shape and wrapper) into his mouth and I made a comment about it.

I later asked the defendant to step out of his vehicle so I can without a doubt determine the unknown alcoholic beverage smell is from his breath and not within his vehicle. When the defendant stepped out, I noticed he stumbled walking to the rear of his vehicle. While standing behind his vehicle and in front view of FHP0447, I would notice the defendant sway a bit (it wasn't windy).

NOT A CERTIFIED COPY

I asked AMIN if he was willing to perform the Field Sobriety Task. I also informed him that if doesn't perform the task then I would make my decision based on my assessment from observations.

I was quickly interrupted by a vehicle collision that happened next to the traffic stop that occurred approximately 16:51 Hrs (no one available to work it at the time). When I finished with the crash report approximately 17:18 Hrs. I asked the defendant the same question if he's willing to perform the task as I didn't receive a solid answer, "yes or no."

Shortly after, a friend of the defendant, SAM, arrived on scene.

I asked the defendant once again if he's willing to perform the task and that he has the choice of refusal if he chooses, with the knowledge of knowing that my decision will then be assessed by my observations. He agreed to perform the task.

I asked the defendant if he's ok with me checking his eyes. He agreed.

Horizontal Gaze Nystamus (HGN):

The first task, I had him perform was the HGN task. He was asked if he wears glasses or contacts, he stated, "yes to contacts." I then explained the task to the him and began to perform the task. The defendant acknowledged the color of the stimulus (red). During the instructional phase, I asked him if he understood all my directions, he stated, "yes." Before beginning, I was checking for Pupil Size and Resting Nystagmus. As I made my first pass to the left and back to the right, I was checking for equal tracking and Lack of Smooth Pursuit. I observed the defendant had Lack of Smooth Pursuit in both eyes. I checked for Distinct and Sustained Nystagmus at Maximum Deviation, which I observed in both eyes. The Onset of Nystagmus Prior to 45 Degrees was observed in both eyes as well. No Resting Nystagmus was found. I did not observe Veritcal Nystagmus. (Note: During the passing, the defendant would moved his head several times after informed not to/ his eyes would not follow the stimulus properly by pausing in a fixated direction then continue to follow/ when he took off his sun shade glasses I notice his eyes were glassy).

Walk and Turn (WAT):

I asked the defendant if he's willing to perform the next task WAT, he stated, "yes." He informed me that his right foot was swollen. With that in mind, I used the wide white strip on the ground that had a visible line. He walked on the visible line that was on the ground. I explained and demonstrated how to properly perform the task myself. During every explanation I asked him if he understood, he stated, "yes." I had a trooper block the lane next to us to safely use the line on the wide shoulder we were on (Note: he did not properly used heel-to-toes/ used his arms to balance).

One Leg Stand (OLS):

NOT A CERTIFIED COPY

I asked the defendant if he's willing to perform the following task OLS, he stated, "yes." I explained and demonstrated how to properly perform the task myself. The defendant advised he understood the task. Once he began, the foot raised was his right foot. I performed the task with him. (Note: the defendant placed his raised put down, 16 seconds had passed/ lost his balance/ placed his raised foot down again on the second attempt, 26 seconds). I offered to switch spots where were standing, but he was chose not to.

At approxmately 18:18 Hrs, based on the totality of the circumstances. I determined there were probable cause and believe the defendant committed the offense of driving under the influence of alcohol beverages or chemical substances by being in actual physical control/operating a motor vehicle as set forth in Florida Statute 877.111, or a controlled substances as set forth in Florida Statute 893 or any combination thereof, and was affected to the extent that his normal faculties were impaired, contrary to Florida Statute 316.193(1) and was taken into custody without further incident. I placed the defendant under arrest and double locked.

The defendant was transported to the Palm Beach county jail by Trooper A. Dorival (ID:1483) with a cage (his only major involvement in this case and blocking the lane). At approximately 18:49 Hrs, I conducted a 20-minute observation on the defendant where he did not drink, ingest, or regurgitate any foreign objects at the Palm Beach county jail BAT (Breath Alcohol Test) center. The defendant was willing to provide breathe after informing his *Implied Consent*. At approximately 19:39 Hrs first breathe sample came back .205 and second breathe sample came back .206. Miranda was read at the center where the defendant invoked his rights.

All the above event occurred in Palm Beach County.

The patrol vehicle I was assigned to that day (FHP0447) is equipped with in car audio and video that was later downloaded to the server and available upon request.

His friend AMAR took possession of his vehicle with permission.
