**PROBABLE CAUSE STATEMENT**

The undersigned certifies and swears that he/she has just and reasonable grounds to believe, and does believe that the above named Defendant committed the following violation of law.

The Person taken into custody

☒ committed the below acts in my presence.

☐ confessed to _____ admitting to the below facts.

☐ was observed by _____ who told _____ that he/she saw the arrested person committ the below acts.

☒ was found to have committed the below acts, resulting from my (described) investigation.

On the 11 day of January, 2026 at 17:44 (Specifically include facts constituting cause for arrest.)

On 1/11/2026 at approximately 1705 hours, I responded to the area of Parkside Drive and University Boulevard in reference to a careless driver. Dispatch advised the caller reported a silver Volkswagen Jetta was stopped in the middle of the road flashing his lights. The driver was a white male in a blue shirt and had vomit all over himself.

Upon arrival, I observed a silver Volkswagen (bearing FL tag QW334) stopped on Parkside Drive just North of University Boulevard. The vehicle was stopped at an angle blocking the bike lane and most of the northbound travel lane. I approached the vehicle and found the male matching the description given sitting in the driver`s seat. The keys to the vehicle were in the ignition, but the engine was not running. The male was identified as William Baehler (W/M 02/27/73). I asked Baehler if he was ok or if he needed any kind of medical attention to which he denied. I asked Baehler why he was stopped and he responded by saying he had car troubles. When asked to provide me with his license registration and insurance, he was unable to provide any of the correct documents and handed me his vehicle title. When asked to provide his license, he attempted to get out of the vehicle. I asked where his license was located and he gestured to the passenger area. When I asked him to retrieve it, he again attempted to exit the vehicle. I asked if the license was located in the back of the vehicle, Baehler advised it was not and appeared confused. I asked Baehler where he was coming from and replied Nieko`s. Nieko`s is a local bar approximately half a mile from our current location. He followed up by stating that he had not driven at all. I asked how his car ended up where it was if he had not driven and he said his car had been here since 11 am. I asked Baehler if he knew where he was and he told me he did but would not tell me the location. I asked several times and he just kept gesturing in front of us and saying we were right here. He eventually said that we were at Nieko`s. I clarified by asking him if we were currently at Nieko`s and he agreed. He then said that he lives in the Heights, a local neighborhood, and I asked if that was where he was going now. He responded that he was waiting for an uber as he was unable to drive. I asked what he meant and he eventually

told me had had a couple beer`s while at Nieko`s. It should be noted that the entire time I spoke with Baehler, his speech was slurred and slow and I had difficulty understanding his responses to my questions. He would often answer incorrectly or need to be prompted to give an answer. I had to repeat my questions multiple times to get a proper response. Baehler`s movements were sluggish and clumsy and his eyes were glassy and bloodshot. I was able to detect the strong odor of an unknown alcoholic beverage emanating from Baehler`s breath that intensified as he spoke. Additionally, Baehler had vomit around his mouth and on his clothing. I again asked if Baehler suffered from any kind of medical condition or diabetes to which he stated he did not. I asked if he needed medical attention for any reason to which he denied.

Once another officer arrived, I requested Baehler step out of the vehicle. Baehler was unsteady on his feet and had difficulty walking straight. I told Baehler I was concerned about his ability to be driving and asked if he would be willing to participate in the standardized field sobriety tasks, to which he agreed.

The first task was the Horizontal Gaze Nystagmus. Baehler was unable to place his feet together with heels and toes touching. I directed him multiple times to do so, however he was unable to do so. Baehler moved his head multiple times despite being reminded to keep it still. He forgot multiple time to follow the stimulus with is eyes and would stop looking at it throughout the task. Due to Baehler not keeping his eyes on the stimulus I was unable to check for sustained horizontal gaze nystagmus or onset of nystagmus at 45 degrees. I did observe lack of smooth pursuit in both eyes.

The second task was the walk and turn. Baehler was unable to get into the starting position despite multiple requests to do so. He attempted to start walking prior to being told the directions. He was unable to properly place both feet on the line and stumbled each time he attempted to get into the starting position. Baehler missed heel to toe on every step, and stepped off the line on every step. He stumbled several times throughout. Multiple times, Baehler would take more than one step with the same foot in an attempt to adjust the placement of his foot or catch his balance. Baehler took approximately twelve steps up the line. Baehler made an improper turn, stepping off line completed and not keeping his lead foot down. He commented that he was not drunk yet and did not return back down the line.

The third task was the one leg stand. Baehler could not maintain the starting position. After explaining the instructions, Baehler stated he understood and had no questions. Once he was told to begin, he asked clarifying questions and I explained the instructions and demonstrated for him again. Baehler picked his right foot up and bent his knee at a 90-degree angle. He held his shin parallel with the ground. He placed his foot down after approximately 6 seconds and could not hold it up for more than a few seconds at a time. He held his hands on his hips throughout the task. He counted to "one thousand five", repeated it and then stopped counting. He stopped the task early

without being prompted.

The fourth task was the finger to nose. I instructed Baehler to stand with his arms down at his side with his pointer finger extended, but he was unable to do so. He would instead hold his arms to his side with the hand open. When instructed to make a fist and extend his pointer finger, he would do so but raise his arms up. I had to demonstrate to and instruct Baehler on the position several times before he was able to get into the position. Each time I called "Left" or "Right", Baehler would raise his arm parallel with the ground with his alms open. On the third "Right" he initially raised his left hand before correcting and raising his right hand.

The fifth task was the Romberg alphabet. After explain the instructions, Baehler stated he understood and had no questions. I instructed Baehler to start and he hesitated and asked what I wanted him to do. I explained the instructions again and Baehler confirmed he understood. I asked Baehler to start the task and he hesitated and asked if I wanted him to start at the beginning. I replied yes and he hesitated again and did not start the task. I explained the instructions a third time and Baehler stated he understood. I asked him to start. He did not tilt his head back or close his eyes. He recited the alphabet up to "G" before stopping and looking around for a couple seconds. He then commented "That`s my buddy" and gestured off to the side. He did not continue the task.

Based on my investigation, observations, and totality of circumstances, probable cause was established to believe that Baehler was in actual physical control of a vehicle while under the influence of an alcoholic beverage, chemical, or controlled substance, to the point where his normal faculties were impaired contrary to F.S 316.193. He was placed into handcuffs which were properly spaced and double-locked and placed into the rear of my patrol car at 1744 hours.

I transported Baehler to the Palm Beach County Breath Alcohol Testing center, arriving at 1840 hours. I placed Baehler under a 20 minute observation period, during which he neither consumed nor regurgitated anything. We then went on video with BAT technician Leahey #19183. I requested Baehler submit to a lawful test of his breath to determine the alcohol content, to which he agreed. He subsequently provided two breath samples of 0.310 & 0.322.

Based on the breath samples given by Baehler, I find probable cause exists to arrest him for DUI with a BAC over 0.15 contrary to F.S. 316.193(4).

The above incident was captured on BWC. This narrative is a summary of the events and not purported to be verbatim.
