Probable Cause

On October 5, 2025, at approximately 02:20 A.M., I (Trooper Lafleur ID#5261) and Trooper Schick ID#5354 were dispatched by the Lake Worth Regional Communications Center (LWRCC) to the area of State Road 794 (Yamato Road) and Broken Sound Boulevard in reference to a two vehicle accidents that occurred northbound on Interstate 95 (State Road 9) south of State Road 869 (SW 10TH Street) in the outside lane of travel. The driver of vehicle one failed to stop after the crash. The victim followed the suspect off the interstate. A short time later, a dispatcher for Boca Raton Police department advised the LWRCC that they had a few marked units out with the vehicles and the suspect might be intoxicated.

Upon arrival, I observed a black Ford SUV bearing a Florida license plate of FCLS04, with damage to the front left portion of the vehicle. I also observed a silver Honda Civic bearing a Florida license plate of RBWL75, with heavy damage to the rear right portion of the vehicle. Trooper Schick took over the crash investigation. While Trooper Schick was interacting with the driver of vehicle one in reference to the crash, I was standing right next to her. I observed a strong odor of an unknown alcoholic beverage emitting from her breath every time she spoke or exhaled, and her speech was extremely slurred. A short time later, Trooper Schick concluded the crash investigation. I then made contact with the driver of the black Ford SUV (V01) (who was later identified by her Florida driver's license Card [V620882886430] as WINDEE BIANCA VEROS with a date of birth of 04/23/1988).

I then advised Ms. Veros that a DUI investigation would commence. I read Ms. Veros her Miranda right.

She agreed to talk to me. I asked her if she had consumed any alcoholic beverages today. She advised "no comment". I also asked her if she's the owner of the vehicle. She stated yes. I asked her who was driving the vehicle, and she stated she was driving. I asked her if she was involved in a car accident, and she stated yes. When I questioned her regarding her travel plans, she stated she was coming from a friend's house and she was heading home. Ms. Veros was the sole occupant of the vehicle. While interacting with Ms. Veros, I observed that she had a strong smell of an unknown alcoholic beverage emitting from her breath every time she spoke or exhaled. While speaking to her I noticed her eyes were bloodshot, watery and glassy. Ms. Veros's speech was slow, and slurred. Ms. Veros's mannerisms were distinct and consistent with someone who might be under the influence of alcohol or some type of unknown substance. I obtained four witness statements putting Ms. Veros behind the wheel as the driver of vehicle one.

Due to the cues and clues that I had observed during my initial encounter with Ms. Veros, I asked her if she would be willing to perform voluntary Standardized Field Sobriety Exercises (SFSE) to aid in determining her level of impairment. After requesting Ms. Veros to submit to field sobriety exercises multiple times, she would not give an affirmative yes or no answer. I informed her that it would have to be a yes or no answer and that anything else would be taken as a no. She still refused to provide an affirmative yes or no answer. Her dad was on scene as well; she asked her dad for advice on whether she should perform the exercises or not. Her father asked her if she was drinking tonight. She looked at him and said" do you really want me to answer that question right now while they're recording everything". I then informed her that her refusal to do the exercises could be used against her in court and that I would have to make a decision based upon my observations so far. After a while Ms. Veros stated yes and agreed to do the exercises.

(Note: The summary below is not intended to be a verbatim account of all the events that took place during the administration of the standardized field sobriety exercises. Video footage and audio of the exercises are available upon request.) Each exercise was explained and demonstrated prior to the subject attempting to perform the exercise. The area where the exercises were conducted was clear of debris, and on a flat surface.

Horizontal Gaze Nystagmus (HGN):
The first exercise that I performed with Ms. Veros was the Horizontal Gaze Nystagmus exercise. I placed Ms. Veros in a position with her feet together and hands down by her sides. I asked Ms. Veros a series of medical questions to ensure that she would be able to perform each of the exercises safely and without any deficiencies. Ms. Veros advised me that she would not have any issues performing the exercises. I asked Ms. Veros if she wore glasses or contact lenses. Ms. Veros stated no. I began the first series of passes with the stimulus, and I was checking each of her eyes for resting nystagmus and equal pupil size. I checked both eyes for equal tracking. Both eyes exhibited equal tracking. I began the second series of passes, and I was checking each of her eyes for lack of smooth pursuit. Both eyes exhibited a lack of smooth pursuit. I then checked each of her eyes for the onset of nystagmus prior to 45 degrees. Ms. Veros's eyes exhibited the onset of nystagmus prior to 45 degrees. I checked each of

NOT A CERTIFIED COPY

her eyes for distinct and sustained nystagmus at maximum deviation. Both eyes exhibited distinct and sustained nystagmus at maximum deviation. I checked each of her eyes for Vertical Gaze Nystagmus. Both eyes exhibited Vertical Gaze Nystagmus. Ms. Veros exhibited an orbital sway throughout the duration of the exercise.

Walk-and-Turn:
The next exercise that I performed with Ms. Veros was the walk-and-turn. I placed Ms. Veros in the starting position. I explained and demonstrated the exercise to Ms. Veros. Ms. Veros had a hard time maintaining the starting position, had to remind her multiple times to get back to the starting position. I asked Ms. Veros if she had any questions, she said no. Ms. Veros began performing the first nine step series; I counted ten steps, she missed heel-to-toe five times. During the second nine step series she missed heel-to-toe three times and counted ten steps. Ms. Veros failed to follow instructions and did not perform the exercise as instructed.

One-Leg Stand:
The next exercise that I performed with Ms. Veros was the One-Leg stand. I placed Ms. Veros in the starting position. I explained and demonstrated the exercise to Ms. Veros. I asked Ms. Veros if she understood the instructions and she advised me that she understood. I used a digital watch to count to 30 seconds. Ms. Veros began performing the exercise, raising her right leg. While Ms. Veros was counting, she kept on repeating the same numbers over and over.

The Romberg test:
The last exercise that I performed with Ms. Veros was the Romberg test. I asked Ms. Veros to stand with her feet together, head tilted slightly back, and eyes closed. I advised her to estimate when 30 seconds has passed and say "stop" when she thinks it's been that long. I used a digital watch to keep track of the time. Ms. Veros opened her eyes at 44 seconds and she never said stop. Ms. Veros exhibited an orbital sway throughout the duration of the exercise.

Based upon the above information and the totality of the circumstances, I determined that there was probable cause to believe that WINDEE BIANCA VEROS committed the offense of driving under the influence by being in actual physical control/operating a motor vehicle while under the influence of alcoholic beverages, any chemical substance per Florida State Statute 877.111, or any controlled substance per Chapter 893, while her normal faculties were impaired. I placed Ms. Veros under arrest at 03:29 AM for the above offense and handcuffed her behind her back, double locked, spaced and tightened. After being searched, Ms. Veros was placed in the back seat of my marked patrol (FHP3475) vehicle with the seat belt placed around her for safety. She was then transported to the Palm Beach County Breath Alcohol Testing (BAT) facility. At the BAT facility, I conducted a twenty-minute observation period where she did not ingest anything by mouth or regurgitate (mouth was confirmed to be empty prior to the beginning of the observation period). Ms. Veros was then asked if she was willing to provide a breath sample to determine the alcohol content of her breath. She said no and refused to provide the breath sample. I then read Ms. Veros the Florida Implied Consent driver's

license suspension warning; she still refused to provide the breath sample. Ms. Veros' refusal time was at 04:31 AM. I then read the Constitutional Warning document to her and asked her if she understood. She stated yes. Ms. Veros was transported to Wellington Medical Center, where she was medically cleared for jail.

See BAT video footage for a complete account of the incident. See BAT video footage for a complete account of the incident.

Ms. Veros was transported to the Palm Beach County jail for booking and processing and charged with DUI and refusal to submit.

Ms. Veros was issued a DUI citation along with a uniform citation for careless driving and hit and run.

She was booked without incident.

All of the above events occurred in Palm Beach County, FL.
