MAR 17 AM 4:51

Probable Cause

On March 17, 2018 I was on routine patrol in my marked patrol vehicle in Palm Beach County. I was traveling northbound on I-95 (State Road 9) approaching Palm Beach Lakes Blvd in the center lane. I observed a white colored Honda directly in front of me in the center left lane. I observed that the vehicle was traveling at a high rate of speed and passing cars on the left. I visually estimated the speed of the vehicle to be 85mph in a 65mph zone. I positioned my patrol car adjacent to the vehicle and obtained a vehicle pace of 80mph in a 65 mph zone. I also observed the vehicle swerve and cross the white lane dividers on the left and right side of the lane. I then activated my emergency equipment in an attempt to initiate a traffic stop on the vehicle. The vehicle yielded to the left shoulder of the roadway. I then approached the vehicle and introduced myself. I observed that there was a white male driving who was wearing a grey shirt and a passenger who was wearing a blue colored shirt. I observed that the driver had bloodshot glassy eyes and the odor of an unknown alcoholic substance was emitting from his breath as he talked. I then requested that he step out of the vehicle and walk towards my patrol car. As he stood in front of my patrol car I observed that he had orbital sway, blood shot glassy eyes and again observed the odor of an unknown alcoholic substance emitting from his breath as he talked. The driver was later identified as Cameron Christensen by his FL DL. I then requested that he conduct field sobriety exercises and he agreed.

Horizontal Gaze Nystagmus

Before beginning the exercises, I checked to see if Mr. Christensen was wearing glasses or contact lenses. It was determined that Mr. Christensen was not wearing glasses or contacts. I then checked Mr. Christensen's eyes and observed equal tracking and equal pupil size. Mr. Christensen was instructed to place his feet together and place his hands down at his side.

Report Date / Time 3/17/2018 3:02:49AM	Report Number FHP99ARR772618	Case Number/CAD Number FHPL18OFF022246 / LWRC18CAD048219	Reporting Officer Name Z. TODD

. He then was instructed to keep his head still and follow the stimulus with his eyes and his eyes only. He was also instructed to keep looking at the stimulus until told not to. Mr. Christensen verbally indicated that he understood.

- Lack of smooth pursuit, left eye
- Lack of smooth pursuit, right eye
- A distinct and sustained nystagmus at maximum deviation in the left eye
- A distinct and sustained nystagmus at maximum deviation in the right eye
- An onset of nystagmus prior to 45 degrees in the left eye
- An onset of nystagmus prior to 45 degrees in the right eye

I also observed Mr. Christensen to have orbital sway and glassy red eyes.

Walk and Turn Exercise

The area was level and free of debris. Mr. Christensen verbally indicated that he saw the line on the ground. Mr. Christensen was instructed to put his left foot on the line, then place his right foot on the line ahead of the left foot in a heel to toe manner. I then demonstrated this position. Mr. Christensen was instructed not to begin until told to do so. Mr. Christensen verbally indicated that he has understood all instructions up to this point. Mr. Christensen was then instructed to take 9 heel to toe steps on the line when told to do so. I then demonstrated this. Mr. Christensen was then instructed to turn on the ninth step and to keep the front foot on the line and to take a series of small steps with the foot on the line. I then demonstrated this for Mr. Christensen. Mr. Christensen was also instructed to keep his arms at his sides and to watch his feet during the exercise. Mr. Christensen was also instructed to count aloud and to not stop once he begins the exercise. He was also instructed to keep his arms at his sides at all times.

He took 9 steps forward and 9 steps back. Mr. Christensen showed difficulty keeping balance during the instructions and the exercise. He completed the turn incorrectly, and did not touch heel to toe. He also raised his arms more than 6 inches away from his body. He also had a sway while he walked down the line.

One Leg Stand Exercise

Mr. Christensen was instructed to stand with his feet together and to place his arms down at his side. Mr. Christensen was instructed to maintain that position until told to do so. Once told to do so, Mr. Christensen was instructed to raise one foot approximately 6 inches off the ground and to keep both legs straight with both arms at his side. He was also instructed to look at the elevated foot and count aloud in the manner of one thousand-one, one thousand-two and so on until told to stop. Mr. Christensen verbally indicated that he understood the instructions after I demonstrated to him.

Mr. Christensen was told to begin and raised his left foot. During the exercise Mr. Christensen displayed an orbital sway. He placed his foot down. Mr. Christensen also did not count aloud properly as instructed. He had to hop while trying to maintain balance. Mr. Christensen did not look down at his foot during the exercise and had to be told to do so and had to be told to straighten his leg. He also raised his arms more than 6 inches away from his body.

Finger To Nose

Mr. Christensen was instructed stand with his feet together and arms at his side and to have his index fingers pointed out. He was instructed to not start and stay in that position until told to do so. He stated that he understood. I then demonstrated the position. Mr. Christensen was then instructed to when told to start to close both eyes and tilt his head back. When told to do so he was instructed to bring the hand I directed upward, touching the tip of your finger to the tip of his nose. I then demonstrated this. He was then instructed to after touching the tip of the nose to immediately bring his hand down to his side. He stated that he understood. I then demonstrated and he stated that he understood. He was instructed to raise his hand in the following order, left, right, left, right, and right, left.

- Left: Correct
- Right: Didn't return down immediately.
- Left: Correct
- Right: Didn't return down immediately.
- Right: Correct
- Left: Correct

At 0256 he was placed under arrest and in handcuffs. He was then searched and no contraband was found. He was then secured inside of my patrol car. While searching the vehicle incident to inventory, I found an open and Fireball liquor container inside off the vehicle on the passenger side. No other contraband was found. He was then transported to the County Jail. Once we arrived at the testing facility I conducted a 20 minute observation of Mr. Christensen. At no time did he regurgitate or take anything by mouth. I then requested that he provide a lawful sample of his breath and he refused. Implied consent was read and he stated that he understood. He then refused again. He was then booked into the Palm Beach County Jail.
