On 4/5/19 while on routine patrol in Palm Beach County I observed a vehicle, a black Honda Accord bearing FL tag GNVP42, traveling west on Lucerne Ave. The Honda was stopped at a green light at Dixie Hwy, in the straight through lane with its' left turn signal activated. As I approached the Honda made a left turn from the straight through lane traveling south on S Dixie Hwy. As the Honda traveled south it drifted to the extreme left and right, within the lane of travel, touching left lane line. The Honda then made a wide right turn onto 6th Ave S, traveling west. While driving west the Honda continued to drift left and right touching both the left and right lane marker lines and crossing over the right lane marker line. I activated my emergency lights and conducted a traffic stop for the infractions at 6th Ave S/ Interstate 95 (I95), east of the intersection. The Honda continued to drive and turned southbound onto I95. I briefly activated my siren several times to alert the driver but the Honda continued southbound on I95. The Honda finally pulled over to the right shoulder approximately 3/4 of a mile south of 6th Ave S. I made contact with the driver, Deborah D'amaro, the sole occupant of the car. I had to knock on the passenger window 3 times before Deborah acknowledged my presence. I noticed that Deborah's movements were slow/ lethargic. Deborah's responses to my questions were slow and her eyes were glassy. Based on my training and experience I found probable cause to believe that Deborah was under the influence of drugs or alcohol. D/S LaBoy ID 27289 and Cpl. Soriano ID 9418 responded to the scene to conduct a DUI investigation.

D.U.I. PROBABLE CAUSE AFFIDAVIT

ON THE 4th DAY OF April 20 19 AT 00:47 ☒ AM ☐ PM
SUBJECT: D'amaro Deborah Patricia CASE NUMBER: 19055967
AGENCY: PALM BEACH COUNTY SHERIFF'S OFFICE ARRESTING OFFICER: D/S R. LaBoy

PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

On Thursday April 5, 2019 at approximately 00:47 hours Corporal Soriano and I responded to a traffic stop located at 6th Ave S/195 located in the city of Lake Worth Fl, 33461. Upon arrival, I observed a Black Honda Accord in the right shoulder bearing Florida tag (GNVP42). Directly behind the vehicle there was a unmarked Palm Beach County Sheriff's Office vehicle with their lights activated. I exited my vehicle and made contact with Investigator G. Lynch #8568. Investigator Lynch stated he observed the white female later identified as Deborah Patricia D'amaro traveling west on Lucerne avenue. Investigator Lynch advised the Honda was stopped at a green light at Dixie highway in the straight through lane with her left turn signal activated. Investigator Lynch stated as the Honda traveled south it drifted to the left and right, within the lane of travel touching the left lane line and continued to drift and touch the left and right lane marker lines, crossing over the right lane marker. Investigator Lynch stated D'amaro was weaving inside the lane. Investigator Lynch advised the vehicle was driving erratically and failed to drive safely in it's designated lane. Investigator Lynch also advised when he activated his emergency lights and siren to make a traffic stop, D'amaro continued for approximately three quarters of a mile before finally making a complete stop. Based on the driving pattern and infractions Investigator Lynch conducted a traffic stop on the black Honda Accord. Investigator Lynch stated he approached the Honda from the passenger side and noticed a white female in the driver seat. Upon making contact with the driver who identified herself as Deborah Patricia D'amaro by her Florida driver license. Upon speaking with D'amaro, Investigator Lynch detected slurring her speech and noticed she had red glossy eyes. As he spoke to D'amaro he noticed that D'amaro movements were slow and lethargic. At that time he requested Corporal Soriano and I respond to conduct a DUI investigation. (See Investigator Lynch supplemental PC)

OBSERVATION OF DRIVER:

Corporal Soriano and I approached the vehicle on the driver side and met with D'amaro. I observed D'amaro was wearing black pants and black shirt. While speaking with D'amaro, I asked her if she know why she had been stopped. At this time she stated she was unsure. I observed D'amaro eyes appeared red and glossy. I detected a strong odor of an unknown alcoholic beverage coming from D'amaro breath. I detected D'amaro was slurring her words. At this time I asked D'amaro to exit the vehicle to perform field sobriety tasks which she agreed to. While exiting the vehicle, D'amaro appeared to be shaky on her feet. I observed D'amaro had difficulty walking.

DRIVER'S STATEMENTS:

I asked D'amaro if she had been drinking or used any drugs. D'amaro stated she didn't drink anything or do any drugs. (Refer to in car video) I asked D'amaro what medical problems and/or previous injuries she had. D'amaro stated she didn't have any injuries or medical problems. I asked D'amaro if she wore any glasses or contacts to correct her vision. D'amaro stated she wears contacts. I asked D'amaro if she takes any medications, D'amaro stated she doesn't take medication.

ODORS:

Obvious odor of an unknown alcoholic beverage

RT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES

Other Observations:

HGN - Once positioned in the front of my vehicle, Corporal Soriano and I continued the investigation. I instructed D'amaro to keep her hands by her side, stand with her feet together, and follow a red light stimulus with her eyes not turning her head. I asked her if she understood my instructions. Once D'amaro verbally stated she understood my instructions, D'amaro swayed while standing stationary. I observed both eyes to be red, bloodshot, and glossy. Her left and right eye displayed equal pupil size, equal tracking, and a lack of smooth pursuit. I observed distinct and sustained nystagmus was present in both her left and right eye at maximum deviation during two separate four second evaluations. The onset of nystagmus was prior to a 45 degree angle in both her left and right eye during two separate four second evaluations. Vertical nystagmus was not present in both the left and right eye during two separate four second evaluations. While conducting the task I had to remind her to keep hands by her side, not turn her head and follow the stimulus multiple times.

WALK & TURN:

I positioned D'amaro on a yellow line created using yellow duct tape, which was on a smooth and level surface, free of any debris and well lit by the headlights on my vehicle and nearby street lighting. I instructed D'amaro place her left foot on the line and her right foot in front of the left touching heel to toe. I instructed her that she was to keep her hands at her side and stay in this position until I instructed her to do otherwise. Once placed into the instructed position, I explained and demonstrated the rest of the task. During the task, I observed D'amaro swayed while balancing, started too soon, stopped walking to steady self, did not touch heel to toe, stepped off the line. Used arms to maintain balance (+6"), did not turn properly. D'amaro took incorrect number of steps.

ONE LEG STAND:

I placed D'amaro with her feet together and arms at her side. Once D'amaro was placed into the instructed position, I explained and demonstrated the rest of the task. Once D'amaro stated she understood, the task was performed. During the task, I observed, D'amaro could not maintain the instructed position. While raising her foot she swayed while balancing, put foot down three times within 30 seconds. D'amaro had her hands out to the side to maintain balance.

FINGER TO NOSE:

I instructed D'amaro to stand with her feet together, make each hand into a fist keeping, extended her index fingers and to place her palms facing up. She was instructed to lower her arms by her side. I instructed and demonstrated the proper hand and arm position and for her to remain in this position while I demonstrated the rest of the task. I instructed and demonstrated her to tilt her head back approximately 45 degrees and close her eyes while waiting for a verbal command of left or right. On the command of "left" or "right", she would raise the requested hand, touch the tip of her finger to the tip of her nose, then bring her hand immediately back down to his side. During the instruction and demonstration of the task she swayed heavily while standing in the instructional position. I asked her if she understood the instructions I provided and she verbally stated she understood. I instructed her to start the task as explained. During the task, I observed the driver did not keep eyes closed and failed to return arms to side. D'amaro did not touch the tip of her nose on every left and right command.

ROMBERG ALPHABET:

I verbally inquired if D'amaro could recite the entire English alphabet. She stated she was able to recite the English alphabet and I instructed her to place their feet together with her arms at their side and stay in this position until told to do otherwise. I instructed her that upon starting she was to tilt her head back approximately 45 degrees and close their eyes. She would begin to state the alphabet in a slow and methodical manner without singing or rhyming it. I asked her if she understood the instructions and she verbally replied she understood. During the instructions she continued to sway while standing stationary. I instructed D'amaro to start the task as explained. During the task, I observed the D'amaro did not keep eyes closed, swayed more than (+2") from side to side, from front to back, used arms for balancing (more than 6"). D'amaro didn't complete the entire alphabet she kept on putting her head forward when I continuously instructed her to keep her head tilted. D'amaro stated she was complete and didn't know where she left off at but insisted she was completed.
