The victim reported that the silver car fled northbound on Powerline Road from Palmetto Park Road. I was close by and I went northbound on Powerline to look for the vehicle. I pulled over in to a turn lane just to gather more information from my computer. A car pulled along side of my vehicle and the driver alerted me to the possible hit and run vehicle driving northbound on Powerline road just in front of my car. I immediately pulled in behind the car and the tag number was 054 VJL, one digit off of the original report of the hit and run vehicle. I activated my video camera and continued to follow the vehicle northbound on Powerline Road. The car was traveling at a slow speed, approximately 20-25 mph even though the speed limit was 45 MPH. The car had its flashers on. I could smell a strong odor of radiator fluid in the air with my window still open. The vehicle was swerving in the lane and crossed over the lines. In my opinion, the driver had difficulty maintaining a single lane and he was swerving back to the center in an abrupt manner. I continued to follow the vehicle up to the intersection of Glades Road. I did not want the driver to enter a main roadway with heavy traffic. I turned on my blue lights and stopped the vehicle in the northbound left turn lane (#2). I called in the stop on the radio and confirmed the tag as Florida 054VJL. I approached the car and I saw significant fresh front end damage consistent with a recent crash. I asked the driver for his drivers license. His name was Gregory M. Schatz. While speaking to him, I noticed his speech was slurred and his body and hand motions were lethargic. His eyes were glassy. The airbag had been deployed and the car interior was filled with white powder smoke still in the air as he opened the window. He denied being involved in a crash but he said he was not injured. While speaking to Mr. Schatz, his car suddenly started to roll backwards. I yelled to him to hit the brake. He just looked at me with a lost stare and his car rolled back and bumped in to my patrol car. I had reason to believe that because of his slurred speech, his glazed glassy eyes, and lethargic body motion, Mr. Schatz's faculties may be impaired. I asked for a DUI Deputy to respond to the scene. DS Schneider #8501 arrived at the scene to take over the investigation.</p>

D.U.I. PROBABLE CAUSE AFFIDAVIT

ON THE 10 DAY OF JUNE 20 17, AT 22:04 AM ☒ PM
SUBJECT: Schatz Jr Gregory M CASE NUMBER: 17088296

AGENCY: PALM BEACH COUNTY SHERIFF'S OFFICE ARRESTING OFFICER: INV. J. SCHNEIDER

PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

Was involved in a motor vehicle collision (see case 17088295) at the intersection of Powerline Rd and Palmetto Parkway. The vehicle failed to stay on scene and a BOLO was given over the air with a possible tag. While attempting to locate the vehicle Deputy Jensen #9582 observed a silver Chevy and stated the following in a sworn affidavit:
On Friday, June 9th, 2017 at 2211 hours, I responded to the area of Palmetto Park Road at the intersection of Powerline to look for a suspected hit and run vehicle. This is in the unincorporated area of Boca Raton in Palm Beach County Florida. The victim of the crash reported that his vehicle was struck by a silver two door car with a possible tag of Q54EJL. The victim reported that the silver car fled northbound on Powerline Road from Palmetto Park Road. I was close by and I went northbound on Powerline to look for the vehicle. I activated my video camera and continued to follow the vehicle northbound on Powerline Road. The car was traveling at a slow speed, approximately 20-25 mph even though the speed limit was 45 MPH. The car had its flashers on. I could smell a strong odor of radiator fluid in the air with my window still open. The vehicle was swerving in the lane and crossed over the lines. In my opinion, the driver had difficulty maintaining a single lane and he was swerving back to the center in an abrupt manner. I continued to follow the vehicle up to the intersection of Glades Road. I did not want the driver to enter a main roadway with heavy traffic. I turned on my blue lights and stopped the vehicle in the northbound left turn lane (#2). I called in the stop on the radio and confirmed the tag as Florida 054VJL. I approached the car and I saw significant fresh front end damage consistent with a recent crash. I asked the driver for his drivers license. His name was Gregory M. Schatz. While speaking to him, I noticed his speech was slurred and his body and hand motions were lethargic. His eyes were glassy. The airbag had been deployed and the car interior was filled with white powder smoke still in the air as he opened the window. He denied being involved in a crash but he said he was not injured. While speaking to Mr. Schatz, his car suddenly started to roll backwards. I yelled to him to hit the brake. He just looked at me with a lost stare and his car rolled back and bumped in to my patrol car. I had reason to believe that because of his slurred speech, his glazed glassy eyes, and lethargic body motion, Mr. Schatz's faculties may be impaired. I asked for a DUI Deputy to respond to the scene. DS Schneider #8501 arrived at the scene to take over the investigation.

OBSERVATION OF DRIVER:

Approaching the driver I began to engage him in conversation however upon replying he covered his mouth with his hand. Leaning down towards the window I smelled the odor of a unknown alcoholic beverage coming from within the vehicle. Asking the driver if he was involved in a crash he stated no. Asking how the vehicle came to have collision damage to the front he stated he did not know. Asking how I came to be in contact with him he could not provide any answers as to why he was there. It appeared as if the driver was having difficulty in following along with any information I was asking for. Further I observed his eyes were red, bloodshot, and glossy. His speech was slow, low, and slurred.

DRIVER'S STATEMENTS:

ODORS:

Distinct odor of a unknown alcoholic beverage coming from his person. This odor was very pungent while within the prisoner are of my vehicle.

Other Observations:

Schatz stated he understood the instructions. While moving the stimulus Schatz was unable to properly follow the stimulus. He was re-instructed several times on how to perform this task but failed to do so. At times he would only follow the stimulus for a short time and then look at me and others he failed to follow it at all. During the task Schatz displayed a significant sway while standing stationary. He failed to stand in the designated position stumbling several times.

HAND COORDINATION:

After providing the instructions on two occasions Schatz stated he understood. Performing the task he moved his hands the first four as instructed however failed to memorize the position of his hands, failed to clap, failed to return his hands to the memorized position, and then moved his hands back counting five, six and seven but not eight. I also observed he failed to stay within the designated position continuing to spread his feet apart for balance and swayed heavily.

FINGER TO NOSE:

Schatz stated he understood the instructions. Stating start he failed to tilt his head back and moved his hands absent any instruction. I provided Schatz the instructions again and he stated he understood. Starting a second time he failed to tilt his head back and close his eyes. The first left he touched his fingertip to the bridge of nose. The first right he touched the tip of his finger to the tip of his nose but opened his eyes and continued with his head tilted forward. The second left he touched the tip of his finger to the tip of his nose, held it in place, opened his eyes with his head tilted forward. The second right he touched the pad of his finger to the tip of his nose, held it in place and continued with his head tilted forward. The third right I reminded him to tilt his head back and close his eyes. He touched the pad of his finger to the tip of his nose, held it in place, and opened his eyes. The third left he touched the pad of his finger to the tip of his nose and his eyes were opened. I also observed he failed to stay within the designated position continuing to spread his feet apart for balance and swayed heavily.

ROMBERG ALPHABET:

Schatz stated he understood the instructions. Starting he spoke so low it was barely inaudible. I did hear him singing the alphabet but approximately half way through I was no longer able to hear him. I also observed he failed to stay within the designated position continuing to spread his feet apart for balance and swayed heavily.

ONE LEG STAND:

Not performed due to pre-existing physical limitations.
