# D.U.I. PROBABLE CAUSE AFFIDAVIT

ON THE 5th DAY OF December 20 18, AT 8:54 AM ✓ PM

SUBJECT: Holmes Heather N CASE NUMBER: 18-005865

AGENCY: Jupiter Police Department ARRESTING OFFICER: Craig Yochum # 383

## PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

**On the aforementioned date at approximately 2050 hours, I was conducting routine patrols in the area of S.R. 706 (W Indiantown Rd.) and S.R. 811 (S Alternate A1A) in the Town of Jupiter, Palm Beach County, FL. At the time, I was driving a fully-marked Jupiter Police Department patrol vehicle, I was wearing a JPD uniform clearly identifying myself as a Jupiter Police Officer, and I was wearing my department-issued Axon body camera. I observed a gray 2006 Infiniti sedan bearing NY tag # DRG4828 traveling westbound on S.R. 706 turning south onto S.R. 811, into the inside southbound lane. I observed the vehicle weaving within its lane. I followed the vehicle south on S.R. 811 and began pacing it with my vehicle's certified speedometer. I paced the vehicle for approximately one and one-half miles and noted the Infinity was varying its speed between 43 and 58 MPH. The vehicle would accelerate, then slow and continued this behavior of varied speed and weaving within its lane for the complete duration of my observation. I followed the vehicle as it neared the intersection of W Frederick Small Rd. in the outside southbound lane of S.R. 811. The vehicle's right turn signal activated and I observed it execute a lane change into the southbound right turn lane to turn west on W Frederick Small Rd. As the vehicle changed lanes, it crossed over both solid white lane dividers separating the bicycle lane from the southbound lane of S.R. 811, and the lane change was conducted within approximately 50 feet of the intersection. As the vehicle turned right (west) onto W Frederick Small Rd., I observed both driver side tires of the vehicle touch the center double-yellow lane divider, but the vehicle did not travel over it. I activated my overhead emergency lights and siren to conduct a traffic stop and the vehicle appeared to be stopping in the middle of W Frederick Small Rd, as it slowed to a near crawl before pulling into the right turn lane just east of Military Trl.**

OBSERVATION OF DRIVER:

**I exited my patrol vehicle and observed the driver of the Infiniti had opened the door. I drew my department-issued Glock handgun and approached the vehicle with my firearm concealed behind my right leg. As I approached the vehicle, I observed one white female occupant, later identified as Heather Holmes (07/22/1987) by her valid Class E Florida driver license, sitting in the driver seat. I observed Holmes was the sole occupant of the vehicle at the time. I asked Holmes if her windows rolled down and she stated the driver window did, and she rolled it down. I could immediately detect the odor of an unknown alcoholic beverage coming from inside the vehicle and later confirmed that the odor intensified as Holmes was speaking. I closed Holmes' door and spoke to her through the open driver window. I advised Holmes of the reason for the traffic stop and immediately holstered my firearm, out of sight of Holmes (as I had determined there was no immediate observable need to keep it unholstered). I observed Holmes had glassy eyes and slurred speech. I requested Holmes provide me with her driver license, registration, and proof of insurance. Holmes provided me with her driver license and began searching for the other two documents. Holmes appeared to be easily distracted and had to be reminded to provide her registration twice, as she sat with multiple papers in her lap for several seconds without providing me any additional documents.**

DRIVER'S STATEMENTS:

**Holmes advised she was coming from Duffy's where she consumed 2 mixed alcoholic drinks. Holmes advised she did not have anything to eat at Duffy's. Holmes advised her father pays for her registration and that she has lived in Florida for the past 16 years. After having Holmes exit her vehicle, her apparent short attention span continued throughout my contact with her. Holmes continually advised that she was supposed to receive a phone call from a detective with the Jupiter Police Department in reference to a sexual battery that occurred over one year prior. Holmes returned to this subject several times during my contact with her. Holmes advised she suffered a Traumatic Brain Injury (TBI) as a result of a car crash approximately 5 years prior which I determined could affect her balance, compromising the traditional NHTSA validated Standardized Field Sobriety Tasks.**

ODORS:

**Strong odor of unknown alcoholic beverage inside the vehicle and on Holmes' breath.**

## GENERAL OBSERVATIONS

SPEECH: **Slurred**

ATTITUDE: **Calm, Cooperative, Mood Swings, Crying, Talkative**

CLOTHING: **Gray shirt, Blue jeans, White shoes.**

MEDICAL/OTHER: **Holmes stated she suffered a TBI (Traumatic Brain Injury) approximately 5 years ago. Holmes advised she does not take any prescription medications.**

## ROADSIDE TASKS

### HORIZONTAL GAZE NYSTAGMUS:

- ☐ LT EYE-LACK OF SMOOTH PURSUIT
- ☐ RT EYE-LACK OF SMOOTH PURSUIT
- ☐ LT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION
- ☐ RT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION
- ☐ LT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES
- ☐ RT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES

**Other Observations:**

**Due to Holmes stating she suffered a TBI, the Horizontal Gaze Nystagmus Task was not conducted.**

### HAND COORDINATION:

**While explaining the instructions to Holmes, she practiced the exercise as I was demonstrating (started task early)although she advised she understood to stay in the starting position while I explained the tasks. When told to begin, Holmes was apparently unable to follow my instructions, as she began taking steps away from her seated position as she was moving her fists away from her chest. Due to the possibility that Holmes advised her TBI affected her balance earlier, I advised her not to walk and to complete the task from the seated position.**
**While evaluating my body camera-video at the Breath Alcohol Testing Facility, my equipment experienced a mechanical issue which did not allow me to view the full video. Complete clues will be recorded in the incident report narrative.**

### PALM PAT:

**While explaining the instructions to Holmes, she again practiced this exercise before being told to begin, although she advised she understood to remain in the starting position until told to begin. While completing the task, Holmes counted "one" but then did not count after that. Holmes did not increase the speed at which she was conducting the task and had to be reminded. Holmes performed incorrect pats towards the end of the exercise, turning her hand over (palm up) and "patting" it on an imaginary hand to the left of her other hand. I observed 3 total clues during this exercise.**

### FINGER TO NOSE:

**During the instructions, Holmes was practicing what I was instructing, before being told to begin the task. When told to begin, Holmes did not tilt her head back or close her eyes until I told her to. On the first call of left, Holmes touched the tip of her finger to the left of the tip of her nose, touching the outside of her left nostril and did not return her hand to her side. On the first call of right, Holmes touched the tip of her right finger to the outside of her right nostril, approximately one centimeter above her nostril and did not return her hand to her side. On the second call of left, Holmes touched the pad of her left finger to the to the bridge of her nose, slightly above the tip of her nose and did not return her hand to her side. On the second call of right, Holmes touched the tip of her right finger to the outside of her right nostril approximately one centimeter above her nostril and did not return her hand to her side. On the final call of right, Holmes raised her left hand almost all the way to her face before correcting herself and touching the pad of her right finger to the tip of her nose. On the final call of left, Holmes touched the tip of her finger to the outside of her left nostril, slightly above and slightly to the left of center of her nose. I observed 16 clues during this task.**

### ROMBERG ALPHABET:

**During this task, Holmes recited the alphabet in a rhythmic manner, grouping letters together at the end. Holmes incorrectly recited the alphabet and ended with the letter "V." Holmes also repeated letters towards the end of her recitation. Holmes recited the following: ABCDEFG (short pause) HIJK LOMOPQRSTUV QRSTUV When it appeared as though Holmes had finished, I asked if she was complete and she advised she could do it again, giving me the indication that she believed she had finished the exercise.**
