	<p>On the above date and time I was backing-up several PBSO deputies at a car wash located in the 3000 Blk. of South Military Trail. As I assisted the other deputies I was standing outside of my vehicle in the parking lot of the car wash at this location. As I stood in the parking lot I heard a vehicle coming towards my location from the north that was being driven southbound on Military Trail. The vehicle sounded like it was being driven extremely hard and fast as the engine was very loud. I diverted my attention to the road-way and saw a red Jeep SUV traveling at a high rate of speed southbound on Military Trail coming towards my location at the car wash. I watched as the vehicle slowed rapidly as the driver braked extremely hard and then made a U-turn just south of my location. As the vehicle made its U-turn the tires on the vehicle squealed on the pavement from the aggressive and sharp turn the driver made. The vehicle then accelerated at a high rate of speed back northbound on Military Trail. The red Jeep then entered a parking lot in front of the El Flacco Bar that is located in the plaza at 3040 North Military Trail. This location was just north of where I was standing.</p> <p>Based on my training and experience to include 26 1/2 years of law enforcement employment, being both radar and laser certified and having conducted thousands of traffic stops for unlawful speed violations, I visually estimated the speed of the red Jeep at approximately 65 to 70 mph when I first observed it southbound on Military Trail. Based on the driving pattern I witnessed it was obvious that the vehicle was being driven in a reckless manner and well above the posted 40 mph speed limit. Concerned with the reckless and unlawful driving pattern that I witnessed I left the car wash and pulled in behind the red jeep that was now parked facing north in front of the plaza. I made contact with the driver who was still sitting in his vehicle behind the wheel with the engine running. I did not activate any emergency lights or sirens. As I approached the vehicle I noticed that smoke was coming from the front wheels and I could smell the distinct odor of over-heated brakes.</p> <p>Upon making contact with the driver I asked him for his drivers license and vehicle documents which he provided. As I spoke with the driver he appeared overly excited and was speaking very loudly towards me. I also smelled the odor of an unknown alcoholic beverage coming from the interior of the vehicle.</p> <p>I asked the driver if he had consumed any alcoholic beverages prior to my making contact with him and he stated "Yes, three wines". Based on the totality of my observations I felt that the driver was possibly operating his vehicle while under the influence of alcoholic beverages. I requested that a PBSO DUI unit respond to my location to conduct a DUI investigation. A short time later D/S Ficarra #8368 arrived on scene.</p> <p>D/S Ficarra conducted a DUI investigation and based on his observations he placed the driver into custody for DUI.</p> <p>At this time the driver was turned over to D/S Ficarra and I took no further action.</p>

D.U.I. PROBABLE CAUSE AFFIDAVIT

ON THE 29th DAY OF August, 2016, AT 0233 AM PM

SUBJECT: Irias, Iran I CASE NUMBER: 16120354

AGENCY: PALM BEACH COUNTY SHERIFF'S OFFICE ARRESTING OFFICER: Inv. Christopher Ficarra

PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

On 08/29/2016 at approximately 0247 hours I responded to 3040 South Military Trail, in unincorporated Palm Beach County, in reference to a DUI investigation. Upon my arrival I met with the stopping Deputy, Captain L. Poston ID: 4619, who stated to me the following: He observed a red Jeep Grand Cherokee traveling at a high rate of speed southbound on Military Trail toward his position. He estimated the speed of the Jeep to be approximately 65 to 70 miles per hour. He observed the vehicle slow rapidly as the vehicle appeared to brake hard. The vehicle then made a U-turn to travel back northbound on Military. The vehicle's tires screeched as it made the U-turn. The Jeep then traveled at a high rate of speed back north bound. The Jeep then entered a parking lot in front of El Flacco Bar. Capt. Poston then made contact with the driver, who was identified by his Florida driver's license as Iran Irias. He was sitting in the driver's seat when Capt. Poston made contact with him. As Iran spoke Capt. Poston observed the obvious odor of an unknown alcoholic beverage coming from his breath. Capt. Poston later filled out a supplemental probable cause affidavit. ****SEE ATTACHED SUPP PC FOR FURTHER****

OBSERVATION OF DRIVER:

A records check of Iran showed that he was the registered owner of the Jeep which he was driving. I observed that the Jeep was parked in a parking spot in front of the bar (bearing Florida tag 342RFZ). I then repositioned my marked PBSO patrol vehicle and made contact with Iran through the open driver's side front window. Upon making contact with him I observed that his eyes were red, blood shot, glassy, and droopy. His face appeared flush and sweaty. I immediately observed the obvious odor of an unknown alcoholic beverage coming from the vehicle. I observed another male in the passenger seat, who was identified as Jayson Ramirez Centeno. I observed that Iran was wearing a black t-shirt with blue jeans and a hat. Upon making contact with Iran I identified myself to him and asked him if he was okay and if he needed medical attention. Iran stated that he was okay and did not need medical attention or Fire Rescue. I asked Iran if Capt. Poston had informed him why he was stopped to which he replied he was not told. Iran stated that he, "Was going fast maybe?" I explained the reason for the stop to Iran. Iran stated that he had no reason for driving erratically and was not trying to get anywhere. I asked him if he was trying to get to the bar to which he stated he was. I asked Iran if he had any medical issues to which he stated he did not.

DRIVER'S STATEMENTS:

As Iran spoke I could more clearly smell the obvious odor of an unknown alcoholic beverage on his breath. His speech also appeared slurred and mumbled. I then asked Iran to come out of the vehicle so I could speak to him. I asked Iran if he had any physical injuries to which he stated he did not. I informed Iran of my observations. Iran stated he had three beers recently. He stated he drank them at his friend's house on Military Trail. Iran stated he did not have anything to eat, did not take prescription medications, did not take any drugs, or smoke any marijuana. I again asked Iran if he had any physical defects to which he stated no. Iran stated he had no issues with his eyes besides wearing glasses. He stated that he worked that day. Iran stated that he did not normally slur his words that he knew of but spoke other languages. I observed that Iran had a slight back to front sway while he stood still. Again Iran stated he did not have any medical issues but he may be nervous. I asked Iran to submit to standardized field sobriety tasks so I could see if he could safely operate his vehicle. Iran stated he would do them.

ODORS:

Obvious odor of an unknown alcoholic beverage on breath as he spoke

GENERAL OBSERVATIONS

SPEECH: Slurred, mumbled

ATTITUDE: Calm, Compliant

CLOTHING: Black t-shirt, Blue jeans, Gray shoes

MEDICAL/OTHER: No medical issues, no physical injuries or defects (later stated had swollen ankles), no issues with eyes (wears glasses), does not take prescription medication, does not take drugs or marijuana, okay to walk in shoes

ROADSIDE TASKS

HORIZONTAL GAZE NYSTAGMUS:

☒ LT EYE-LACK OF SMOOTH PURSUIT

☒ RT EYE-LACK OF SMOOTH PURSUIT

☒ LT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION

☒ RT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION

☒ LT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES

☒ RT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES

Other Observations:

No police blue lights were on during the tasks. Iran's eyes tracked equally, the pupils were the same size and appropriate for the lighting conditions, and no resting nystagmus was observed. Vertical gaze nystagmus was administered and was observed. Lack of convergence was administered and was observed. His left eye converged normally but his right eye looped down and out to the side both times. I had to remind Iran to keep his head still multiple times throughout the task. Iran swayed from side to side and front to back during the task. He had to be reminded to keep his feet together during the task as well.

WALK & TURN:

I explained and demonstrated the instructions for the walk and turn task to Iran who stated that he understood. During the task I observed that Iran had the following cues: couldn't keep balance while listening to instructions (moved from instructed position six times); stops walking to steady self/regain balance on steps: 6 on the first set then on 1 and 6 on the return set; missed heel-to-toe on steps: 6 on the first set then on 6 and 10 on the return set; stepped off the line on steps: 6 on both set; used arms for balance (raises arms over six inches); improper turn (turned to his right without keeping front foot on ground as instructed, lifted both feet); took incorrect number of steps: 10 on both sets; did not count on return set of steps.

ONE LEG STAND:

I explained and demonstrated the instructions for the one leg stand task to Iran who stated that he understood. During the instructions Iran stated that his ankles were swollen but had not mentioned that when asked about injuries or defects prior. During the task I observed that Iran had the following cues: swayed while balancing; used arms for balance (raises arms over six inches); put foot down twice before 30 seconds; Iran moved his arms and feet from the instructed position; Iran swayed from side to side during the instructed position; Iran had to be reminded to look at his feet and count during the task.

FINGER TO NOSE:

I explained and demonstrated the instructions for the finger to nose task to Iran. I explained what is considered the tip of the finger and tip of the nose to Iran who stated that he understood. Iran also showed he knew his left from his right. During the task I observed that Iran had the following cues: did not keep eyes closed; failed to return arms to the side on each instructed hand; touched the bottom of his nose on the first instructed hand; touched his nose with the pad of his finger not the tip as instructed; used wrong hand for task: used left on 5th instructed hand when right was called, switched to right after using left; swayed from side to side during task and instructions; had to be reminded to tilt his head back and close his eyes after being told to start; started touching nose during instructions.

ROMBERG ALPHABET:

I explained and demonstrated the instructions for the Romberg with recitation task to Iran who stated that he understood. I asked him to say and not sing his ABCs which he stated he could. During the task I observed that Iran had the following cues: swayed front to back during the task; closed eyes and tilted head back before being told to do so. The modified Romberg balance was explained and demonstrated to Iran who stated that he understood. Iran was asked to estimate the passage of 30 seconds in their head. Iran showed the following cues: estimated 21 seconds as 30; stated he counted normally to reach the 30 seconds; swayed in a circular motion during task; did not bring head forward or open eyes when he finished estimating as instructed.
