CASE #: 18-065584 **DEFENDANT:** Millar, James

PERSONAL CONTACT/DRIVING PATTERN/OBSERVATION OF DRIVER:

On Saturday, December 15, 2018 at approximately 2357 hours, I responded to Cinemark located at 1151 North Congress Avenue, Boynton Beach, Palm Beach County, Florida, 33435 in the request of Officer Davis.

As I arrived at the scene, I made contact with Officer Davis who advised the following: he was handling a medical call in the parking lot north of the Cinemark when a grey 2012 Kia Soul bearing Florida tag Z75IJQ pulled up to the scene to ask for directions. Driver, W/M Millar, James (05/24/1942) stated that he needed to know how to get to Lawrence Road. Officer Davis advised that as he approached the vehicle he could smell the odor of an unknown alcoholic beverage emanating from the vehicle. Officer Davis advised that Millar's eyes were bloodshot and glassy, and that he was heavily slurring his speech to the point that he could not understand Millar as they spoke. When asked if he had consumed any alcoholic beverages, Millar advised that he had 1 or 2 beers. Officer Davis stated that due to Millar's condition he believed that he may be under the influence of an alcoholic beverage while operating a motor vehicle therefore he contacted me to assistance with the investigation.

I then made contact with Millar, who advised that he was trying to go home. I asked Millar where he was coming from, to which he stated that he had 1 or 2 beers at Bru's Room. I asked Millar how he ended up at the mall, and he began to give me instructions on how to get home. I smelled an odor of an unknown alcoholic beverage emitting from Millar's person as he spoke. Millar's eyes were glassy and bloodshot, he was waving his hands around as he spoke, and his face was flush. I had a difficult time understanding Millar as he was heavily slurring his speech and had to repeat himself multiple times.

At this time, I asked Millar to step out of the vehicle. As he stepped out he lost his balance and stumbled. Millar advised that he has a heart condition, but no other conditions that would inhibit him from walking. Millar continued to stumble forward, so I moved closer to attempt to assist him, where I smelled an odor of an unknown alcoholic beverage emitting from Millar's person. Millar denied my attempt to assist him in walking. I instructed Millar to stand in front of the patrol vehicle, to which he understood.

I asked Millar again if he had any medical conditions, to which he again advised that he had a heart condition and nothing else. I asked Millar how many beers he had once again, to which he stated that he only had two about a half an hour prior. I advised Millar that an investigation was taking place due to the suspicion that he may be under the influence of alcohol. Millar then stated that he was deaf in one ear, as he pointed to his left ear. I asked Millar if he could hear me, and he stated that he could. I asked Millar to submit to Roadside tasks to which he advised that he would. Millar advised that he had a hip replacement while holding his right hip but he would try to do the tasks. See the Following:

During the Pen Task: Millar moved his head during the exercise, after instructed not to. Millar looked away from the pen numerous times while looking straight at me. Millar swayed side to side during the exercise.

HORIZONTAL GAZE NYSTAGMUS:

- ☐ Left eye does not follow smoothly
- ☐ Left eye prior to 45 degrees
- ☐ Distinct jerking in left eye at maximum deviation
- ☐ Vertical Nystagmus in left eye
- ☐ Right eye does not follow smoothly
- ☐ Right eye prior to 45 degrees
- ☐ Distinct jerking in right eye at maximum deviation
- ☐ Vertical Nystagmus in right eye

WALK AND TURN:

The task was explained and demonstrated to Millar, to which he first stated that he understood. During the instructional phase, Millar was unable to place his right foot in front of his left foot in a heel to toe position. The lines in the parking lot were used for the Walk and Turn Task. Millar repeatedly placed his left foot on one line and his right foot on a line that was spaced approximately one foot away. Millar continuously moved his hands from his sides, swayed back and forth, and stumbled when he tried to assume the explained stance. I asked Millar if he was able to stand in the correct position, to which he responded that he could not. I then advised Millar that he could stand normally until I advised him to begin the task. As I explained, Millar explained that he felt that he may have a heart attack then stated never mind and denied medical attention. As I demonstrated the task, Millar began to walk forward and started too soon. Millar then stated that he did not understand the task and that he could not complete the task because he could not remember the directions. I explained the instructions again, when Millar advised that he was done. I explained the Tailor Warnings to Millar, and he advised that he would continue the Roadside Tasks. Millar continued to show signs that he was unable to understand or complete the task when he advised that his brain was not working, so I then moved onto the next task.

ONE LEG STAND:

The task was explained and demonstrated to Millar, to which he stated that he understood. During the instructional phase, Millar had his hands behind his back and then in the air, but not at his sides. Millar began too soon by bending his right leg at the knee and lifting his foot behind him. During the exercise stage, Millar then stated that he was not able to complete the task. I asked Millar if he would be able to complete the task, and he said he could not because of his hip. I then moved onto the next task.

FINGER TO NOSE:

The task was explained and demonstrated to Millar, to which he stated that he understood. During the instructional phase, Millar began too soon by tilting his head back and shutting his eyes. During the exercise phase, when I advised Millar that he were going to begin he kept his head facing forward and looked straight at me. During all commands, Millar lifted his middle fingers to his nose and then placed it back at his side. On the third RIGHT command Millar began to raise both hands before he put his right middle finger to his nose.

ROMBERG/ALPHABET:

The task was explained and demonstrated to Millar, to which he stated that he understood. During the instructional phase, I asked Millar if he knew the alphabet to which he stated "a little bit". Millar advised that he could count from 1-100. I advised Millar that once I advised him to begin, to count from 30 to 56. Millar began too soon, by tilting his head back, closing his eyes, and beginning to count from the number 31. During the exercise phase, once I advised Millar that he could begin, he continued to look at me. I advised Millar once again that he could start. Millar failed to tilt his head back and close his eyes. Millar counted from the number 39 until he reached 53, and then jumped to 60 and counted to 64. Millar was *difficult* to understand as he was slurring his speech while counting. Millar then stopped counting, so I asked him if he was done. Millar stated that he could not remember, so I ended the task.

During the Roadside Tasks, the Boynton Beach Fire Department arrived on scene due to the fact that his behavior was consistent with a possible medical condition. After providing aid to Millar, I was advised that everything appeared to be normal and within levels.

Based on the above facts, Millar was placed under arrest for the suspicion of DUI. Millar was placed in handcuffs, properly spaced, and double locked, and placed in the back of the patrol vehicle 4734. Millar was then transported to the Boynton Beach Police Department for processing. Upon arrival to the Boynton Beach Police Department, I then began my 20-minute observation period starting at 0050 hours. Once completed at 0110 hours, I requested that Millar provide a sample of his breath to determine its alcohol content, to which he complied. I then turned the proceedings over to Breath Technician Officer Castro. Officer

NOT A CERTIFIED COPY

Castro began to explain instructions to Millar to obtain a breath sample, when Millar asked why he had to give a sample of his breath. I then read Millar the Implied Consent warning, to which he stated that he understood. I requested a second time that Millar provide a sample of his breath, which he complied. Millar provided a breath sample of .186 and .183.

I then read Millar his Miranda warnings, and he advised that he understood. While completing the Questions and Answers form, and asking Millar when he had his last drink, he advised that he did not wish to answer any other questions. Investigation was completed at this time.

Record check revealed that on 12/29/2013 Millar was convicted for DUI Refusal.

Based on the above facts, I have established Probable Cause to arrest Millar, James for DUI pursuant to Florida State Statute 316.193 (1). Millar was process and later transported to Palm Beach County Jail.

A copy of the SFST and BAT video were submitted to the Boynton Beach Police Evidence Department. The incident was captured via BWC as well. Millar's vehicle was removed by his son, Millar, James (DOB 02/13/72), who resides at the same address as Millar. Nothing Further.
