D.U.I. PROBABLE CAUSE AFFIDAVIT

ON THE 28TH DAY OF NOVEMBER 20 19, AT 19:43 AM PM
SUBJECT: BORNSTEIN JOYCE M CASE NUMBER: 19142532

AGENCY: PALM BEACH COUNTY SHERIFF'S OFFICE ARRESTING OFFICER: Corporal R Soriano

PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

On Thursday, November 28, 2019 at approximately 19:43 hours, I responded to the intersection of Lake Worth Road and South State Road 7 in unincorporated Palm Beach County in regards to a traffic crash involving a possible impaired driver. Upon my arrival, I observed that community service aide (CSA) Levey had all vehicle's involved moved off the roadway and into the parking lot of the Chevron gas station located at 4213 S SR7. Upon my arrival, I observed a white Lexus bearing Florida tag "AMNZ12" facing southbound in the parking lot with heavy front end damage. Parked next to it was a black Chevy utility vehicle bearing Florida tag "IJ68MY" which also had rear end damage. I exited my vehicle and met with CSA Levey who stated, the driver had not exited the vehicle the entire time. She handed me her drivers license which I positively identified the driver as Joyce Merle Bornstein and directed my attention to Allan Alkes, the driver of the black Chevy utility. Alkes provided me with a sworn witness statement indicating he was struck by Bornstein's vehicle while waiting at a red light in the northbound inner left turn lane. After being struck, he exited his vehicle and checked on Bornstein. While doing so, he noticed she never exited her vehicle and appeared impaired. He observed she was not injured and stood by while he called 911. (Refer to sworn written statement.)

OBSERVATION OF DRIVER:

I approached the white Lexus and observed Bornstein, still seated in the on the driver seat. As I approached, before I could speak, Bornstein looked at me and spontaneously stated "I fucked up." I asked Bornstein, her full name and confirmed her current address. I asked her to step out of the vehicle and to walk to the front of my patrol car. Once in front of my patrol car, I proceeded to ask Bornstein, if she was aware of what was taking place. Bornstein stated "no" and at this time, I had her turn around and point out her vehicle. I asked her if the white Lexus was hers and she stated "yes." I asked her if her vehicle had the heavy front end damage and she answered "no." Bornstein stated she hit a car at the traffic light. She stated she tried to stop and was unable to. I observed Bornstein was wearing black pants, black shirt and black slippers. While speaking with Bornstein, I detected a strong odor of an unknown alcoholic beverage. I observed Bornstein's eyes appeared red and glossy. I observed that she was slurring her words and was told that CSA Levey and I were under the suspicion that she may have consumed an unspecified amount of an unknown alcoholic beverage, which may have impaired her ability to operate a motor vehicle safely. I asked Bornstein, to perform standardized field sobriety tasks which she agreed to.

DRIVER'S STATEMENTS:

I asked Bornstein, if she had been drinking or used any drugs. Bornstein, stated she was on her way home from Stonebridge country club and had a few drinks. Bornstein, was unable to recall what she drank and stated she does not do drugs. I asked Bornstein if she had any medical problems and/or previous injuries and she answered "no." I asked Bornstein if she wore any glasses or contacts to correct her vision and she answered "no" and informed me she has cataracts. I asked Bornstein if she takes any medications and she answered yes, however did not know the names of her medications.

ODORS:

Obvious odor of an unknown alcoholic beverage

Other Observations:

HGN: Once positioned in the front of my vehicle, I continued my investigation. I instructed Bornstein to keep her hands by her side, stand with her feet together, and follow a blue light stimulus with his eyes not turning her head. I asked her if she understood my instructions. Once Bornstein verbally stated she understood my instructions, the task was performed. I observed both eyes to be red, bloodshot, and glossy. Her left and right eye displayed equal pupil size, equal tracking, and a lack of smooth pursuit. I observed distinct and sustained nystagmus was present in both her left and right eye at maximum deviation during two separate four second evaluations. The onset of nystagmus was prior to a 45 degree angle in both her left and right eye during two separate four second evaluations. Vertical nystagmus was not present in both the left and right eye during two separate four second evaluations. While conducting the task, I had to remind her to keep hands by her side, not turn her head and follow the stimulus multiple times.

WALK & TURN:

I positioned Bornstein on a yellow line created using yellow duct tape, which was on a smooth and level surface, free of any debris and well lit by the headlights on my vehicle and nearby street lighting. I instructed Bornstein to place her left foot on the line and her right foot in front of the left touching heel to toe. I instructed her that she was to keep her hands at her side and stay in this position until I instructed her to do otherwise. Bornstein was unable to maintain the instructed position. After several attempts of attempting to place her in the instructed position, I continued with the rest of the instructions. During the demonstrations, I observed Bornstein swayed while balancing, started too soon, stopped walking to steady self, did not touch heel to toe, stepped off the line several times, and used arms to maintain balance (+6"). Bornstein did not turn properly and lost her balance while turning. Bornstein took incorrect number of steps.

PALM PAT:

I instructed Bornstein to have a seat on the front of my vehicle on the push bumper and sit straight up, I explained the following, I instructed Bornstein to place her hands palm to the palm with one hand up and one hand down. I explained to remain in this position until given further instruction. When I tell you to begin you will turn the top hand over and count out loud "one" then turn the hand back over and count out loud "two", counting only when the hands make contact. I demonstrated and Bornstein stated she understood. Once he performed the task, I observed that she was unable to follow instructions, she started at wrong time, did not count as instructed, rolled hands and rotated hands.

FINGER TO NOSE:

I instructed Bornstein to stand with her feet together, make each hand into a fist keeping, extended her index fingers and to place her palms facing up. She was instructed to lower her arms by her side. I instructed and demonstrated the proper hand and arm position and for her to remain in this position, while I demonstrated the rest of the task. I instructed and demonstrated to her how to tilt her head back approximately 45 degrees and close her eyes while waiting for a verbal command of left or right. On the command of "left" or "right", she would raise the requested hand, touch the tip of his finger to the tip of her nose, then bring her hand immediately back down to her side. During the instruction and demonstration of the task she swayed heavily while standing in the instructional position. I asked her if she understood the instructions I provided and she verbally stated she understood. I instructed her to start the task as explained. During the task, I observed Bornstein did not keep eyes closed, failed to return arms to side, correct finger did not touch tip of nose on every command and she used wrong hand.

ROMBERG ALPHABET:

I verbally inquired if Bornstein could recite the entire English alphabet. She stated she was able to recite the English alphabet and I instructed her to place her feet together with her arms at her side and stay in this position until told to do otherwise. I instructed her that upon starting she was to tilt her head back approximately 45 degrees and close her eyes. She would begin to state the alphabet in a slow and methodical manner without singing or rhyming it. I asked her if she understood the instructions and she verbally replied she understood. During the instructions she continued to sway while standing stationary. I instructed Bornstein to start the task as explained. During the task, I observed Bornstein did not keep eyes closed, swayed more than (+2") from side to side, from front to back and used arms for balancing.
