Her vehicle was keyed from the passenger's side door all the way around the back to the driver's side door. A large X was also keyed on the top of her trunk. Vega also noticed a large amount of nails placed in front of both her front tires. These nails did not cause any damage that Vega noticed, however, she did state that her tires have had nails placed into them in the past. Vega believes that the nails were an attempt to deflate her tires as she drove away. Vega stated that she has had issues with an ex-boyfriend, identified as Karl Schuman DOB 01/05/65, who has keyed her vehicle in the past. Vega has an open investigation with MCSO, and a closed investigation with this agency where Schuman is the suspect. Schuman is uncooperative at this time. Vega did state that she has set up a camera in her vehicle to video record Schuman committing these acts. Vega was unable to access this video during the time of this report. She believes her battery was drained, however, she advised me that she would notify me if she is able to obtain video surveillance of this incident. Vega estimates the damage done to her vehicle to be approximately \$2,000. This case is pending further evidence and follow up investigation. On 10/14/2015 I conducted a follow up investigation into this case.
