Charge Description
DUI DAMAGE TO PROPERTY OR PERSON OF ANOTHER

Probable Cause

On November 17, 2018, I was on duty in my marked patrol vehicle in Palm Beach County, Florida. I was dispatched to a crash via radio located on Interstate 95 (State Road 9) northbound exit ramp to Palm Beach Lakes Boulevard involving a Blue Toyota Scion and Silver Infiniti Q50. Upon my arrival, I made contact with the driver of the Infiniti who was later identified through his driver license as Keith Coleman. While speaking with Mr. Coleman about the sequence of events from the crash , I observed a strong odor of an unknown alcoholic beverage emitting from his mouth area. His eyes were red in color and glassy. His face was pale and flushed. His speech was heavily slurred. I observed Mr. Coleman stumble to his car to look for his registration and proof of insurance. Due to his safety, I had Mr. Coleman sit down on the left shoulder while I conducted my crash investigation. I spoke with the other driver who was identified through her driver license as Emely Zuluaga. Ms. Zuluaga stated that she observed Mr. Coleman exited from behind the wheel of his motor vehicle, and stumble over to her to check if she was ok after rear ending her. I obtain Ms. Zuluaga's registration, driver license, and proof of insurance. I proceeded back to my marked patrol vehicle, and conducted my crash investigation. After finishing conducting my crash

NOT A CERTIFIED COPY

investigation, I exited my marked patrol vehicle, and approached Mr. Coleman. I advised Mr. Coleman that I was done conducting my crash investigation and was now conducting a criminal investigation in reference to him possibly being impaired to which he stated he understood. I read Mr. Coleman his Miranda rights to which he stated he understood. I asked him how much did he have to drink to which he stated five drinks. He stated he had two beers, and three gin and tonics. He advised that he had the drinks three hours ago. He advised that he was coming from a bar, and was headed home. I asked Mr. Coleman if he would be willing to do roadside exercises to which he stated he would. I then proceeded back to my marked patrol vehicle, and prepared an area to conduct roadside exercises.

Horizontal Gaze Nystagmus:

Prior to beginning the exercise, it was determined the subject was wearing contacts lenses at the time. The subject's eyes displayed equal tracking and his pupils were equal sizes. The subject was instructed to follow the stimulus wit his eyes only, keeping his head still. After stating he understood the instructions, the subject started the exercise. The results of this exercise displayed 6 of the 6 possible clues.

- A lack of Smooth Pursuit in his left eye.
- A lack of Smooth Pursuit in his right eye.
- A distinct and sustained nystagmus in the left eye at maximum deviation.
- A distinct and sustained nystagmus in the right eye at maximum deviation.
- An onset of nystagmus in the left eye prior to 45 degrees.
- An onset of nystagmus in the right eye prior to 45 degrees.

Walk and Turn:

The subject was instructed to put his left foot on the line and his right foot in front of it with his right heel touching the toe of his left foot. He was instructed to stand in this manner with his hands to his sides until the instructions were completed and demonstrated. The subject was instructed not to begin until told to start. He was instructed to take nine steps along the line in a heel- to- toe manner. After the nine step, he was advised to stop and turn around keeping his pivot foot on the ground, taking several small steps with the other foot to turn around. After turning around, the subject was instructed to take nine steps in a heel-to-toe manner back along the line in the direction he had come from. The subject was further instructed to watch his feet at all times while walking, keeping his arms down to his side, and to count his steps out loud. After the exercise was demonstrated, the subject stated he understood the instructions, and was instructed to begin the exercise.

After attempting the Walk and Turn, the subject displayed 4 of 8 possible clues

The subject failed to stay in the starting position. The subject failed to make a proper turn. On the second set of steps the subject stepped off the line on steps 7,8, and 9. The subject started before told to do so.

One Leg Stand:

Prior to attempting this exercise, the subject indicated he did not have any medical problems that would have prevented him from performing the exercise. The subject was instructed to stand with his heels together and hands down at his sides while the instructions were given. The subject was instructed not to begin until told to do so. The subject was advised to raise either foot of his choice off the ground approximately 6 inches keeping his foot paralle with the ground. While his leg was raised, the subject was advised to keep his leg straight, watch his raised foot, and to count out loud by thousands (one thousand one, one thousand two, one thousand three...) and to continue until told to stop. After the exercise was demonstrated, the subject was advised if he understood the instructions to which he replied yes. I advised the subject if he didn't have any questions, he may begin the exercise. When the subject attempted the exercise, he raised his right foot. During the exercise, the subject displayed 4 of the 4 clues. The subject put foot his down. The subject used arms to balance himself. The subject swayed while performing the exercise. The subject hopped while performing the exercise. Due to the subject's safety, I stopped the exercise. I then advised the subject as well as dispatch at 12:55 AM, that he was being placed under arrest for operating a

motor vehicle under the influence of alcohol and or a controlled substance pursuant to Chapter 316.193 of the Florida State Statutes. The subject was properly searched by, and placed in the front seat of my marked patrol vehicle. The subject was transported to the Palm Beach County Jail. Upon arrival to the county jail, the subject was escorted to the Breath and Alcohol testing center, and a 20-minute observation was conducted to ensure the subject did not take anything by mouth or regurgitate. After the 20-minute observation, the subject was taken into the testing room. The subject was asked to submit to a breath test to determine the alcohol content to which he stated no. I read the implied consent to the subject to which he still stated no. The subject was transported over to the booking side without any incident to himself. Video of roadside exercises and transport to the county jail are available upon request from the FHP custodian.

Vehicle 01 (V01) was traveling on Interstate 95 (State Road 9) in the inside left turn lane approaching Palm Beach Lakes Boulevard. Vehicle 02 (V02) was stopped at a steady red trafffic signal on Interstate 95 northbound exit ramp in the inside left turn lane at Palm Beach Lakes Boulevard. V01 was directly behind V02. The driver of V01 failed to maintain a safe distance from V02. As a result, the front left of V01 collided with the right rear quarter panel of V02. Both vehicles were moved from final rest prior to my arrival.

Interview Conducted By:

Identification Produced:

I was stopped at a red light on the south bound exit of Palm Beach Lakes when I got hit from behind. I looked through my rear window and saw that a gentlemen in a Silver Infiniti was behind me. I got out of the car and he proceeded to get out of the car stumbling out. His words were all mumbled asking me if I was okay, I told him I was. Then I called the police, & he proceeded to call his loved ones. I called my parents and we waited for the police to get here
