PROBABLE CAUSE

On the above date and time I was in service in Palm Beach County, FL. The weather was clear and traffic was moderate. I was traveling southbound on Interstate 95 (State Road 9) when a crash was called in at approximately 10:00 PM located on the northbound Interstate 95 (State Road 9) exit ramp to Gateway Blvd. When I arrived on scene I observed a black in color Ford SUV in the center left turn lane with a white female in the driver seat, behind a black in color Toyota with its two female occupants outside of the vehicle. After making contact with both drivers involved in the crash and determining the at fault driver I then concluded my crash investigation. (See Crash Report) I then made my way back to the white female driver who was in the black Ford SUV. The white female driver was later identified as Marcela A. Montoya 11/06/1978. Throughout the duration of my crash investigation involving Ms. Montoya I could smell the odor commonly associated with the smell of an unknown alcoholic beverage emitting from her breath only as she would speak to me. Along with Ms. Montoya's slurred speech, glossy red eyes and inability to follow simple instruction I had reason to believe Ms. Montoya was driving under the influence of alcohol and / or a controlled substance. Ms. Montoya was then read Miranda and asked if she understood her rights. Ms. Montoya then decided to try and be difficult and not give me a yes or no answer so that I was aware that she understood her rights so that there was no future misunderstanding. I asked Ms. Montoya several times if she understood her rights of which I had just read to her. Ms. Montoya continued to advise me she wasn't going to answer me and that she would make me read it over to her five (5) times. I then advised Ms. Montoya if she did not comply with the simple instructions that were being provided to her that I would place her under arrest based off my observations and reason to believe that she was driving under the influence of alcohol and / or a controlled substance. I then asked Ms. Montoya again if she needed me to re read Miranda or if she understood her rights. Ms. Montoya then advised me that yes, she understood. I then advised Ms. Montoya where she was coming from and if she had anything to drink prior to driving her vehicle. Ms. Montoya then advised me that she was at a friends house and that she did not have anything to drink. Ms. Montoya was then asked if she had taken any prescription medication or if she had any medical issues. Ms. Montoya then advised me that she hasn't taken any medication in months and does not have any issues. I then advised Ms. Montoya that I would now be requesting for her to perform a series of roadside exercises. Ms. Montoya then agreed and consented to perform the exercises that were requested of her to perform. (See Roadside Tasks Sheet / Video)

The area for the following roadside exercises was level and free of debris. Subject agreed to use a solid straight white line provided by the roadway to perform the walk and turn. Subject was then asked if she had any problems with her eyes aside from corrective vision, or injuries that would prevent her from performing any of the exercises that will be requested of her to perform. Subject then advised me that she did not have either eye or physical body injuries or limitations and would be able to perform the exercises.

Horizontal Gaze Nystagmus:

- LT EYE-LACK OF SMOOTH PURSUIT
- RT EYE-LACK OF SMOOTH PURSUIT
- LT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION
- RT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION
- LT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES
- RT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES

- Subject continuously stopped exercise on her behalf and was not following the instructions provided to her. Subject was choosing not to abide by the instructions provided to her.

Walk and Turn Exercise:

Interaction Phase:

- Subject had a hard time remaining in starting position. Subject continued to get out of starting position in which she was instructed to stay in until further instruction to start exercise. Subject swayed in starting position. Subject would keep speaking over me during instruction. The exercise was demonstrated and explained to the Subject. Subject advised she understood instructions and did not have any questions. Subject continued to speak over me and not allow me to finish instructing her on the exercise. Subject advised she understood instructions and did not have any questions. Subject did not take heel to toe steps on either step. Subject used arms for balance. Subject stepped off line. Subject did not turn around as instructed.

One Leg Stand Exercise:

Interaction Phase:

- Subject was swaying while in starting position.
- Subject continued to argue with me on having to perform multiple exercises and was choosing not to listen or comply with any of my instructions. Subject continued to refuse to cooperate and due to the excessive time on the roadway and not getting any cooperation the subject was then placed under arrest.

Finger to Nose:
- Refused

Romberg Balance:
- Refused

Based on the totality of circumstances, Ms. Montoya was placed under arrest for DUI pursuant to Florida Statute 316.193.1 at 10:52 PM. Ms. Montoya was then placed in the back of my patrol vehicle and transported to the Palm Beach County Jail in which she arrived at 11:40 PM. After the defendants 20 min. observation she was then asked to provide a sample of her breath and urine in which she refused to provide at approximately 12:08 AM.

Video of the DUI Investigation, roadside exercises and transport to the Palm Beach County Jail can be obtained through the FHP custodian. Video of the BAT facility can be obtained through the PBSO records department.
