D.U.I. PROBABLE CAUSE AFFIDAVIT

ON THE 23 DAY OF February 2017 AT 08:49 ☐ A.M ☒ P.M.

CASE #: 17-010224 DEFENDANT: SANDHU, MUSTAFA YUSAF

PERSONAL CONTACT/DRIVING PATTERN/OBSERVATION OF DRIVER:

On the above date and approximate time, I responded to the 2500 block of S. CR 807, in reference to a Vehicular Crash. Let it be noted that this incident occurred within the City of Boynton Beach, Palm Beach County, Florida. Upon arrival I observed a Black Cadillac SRX bearing Florida tag HRMJ03, in the inside northbound lanes of S. CR 807; just north of the SE 25th Place intersection. The Cadillac had front right damage, to include the right front fender and right front wheel damage. The later identified as At- Fault vehicle, a Lincoln MKZ bearing Florida tag BUGP67, was moved to the northeast corner of the SE 25th Place and S. CR 807 intersection. The Lincoln had left rear damage, to include left rear quarter panel and left rear wheel. Neither involved parties appeared to be injured, as they both were walking around on scene. I then made contact with Officer Donnino who advised based on his crash investigation the Lincoln, driven by W/M Wolfson, Kenneth was traveling westbound on SE 25th Place, approaching the intersection of S. CR 807. The Cadillac, driven by W/M Sandhu, Mustafa (02/16/83), was traveling northbound in the outside lane of S. CR 807, approaching the intersection of SE 25th Place. As both vehicles approached the intersection at the same time, the Lincoln failed to yield the right-of-way of the Cadillac as he made a right turn in the path of the Cadillac to travel north of S. CR 807. Officer Donnino advised while conducting his investigation he detected the odor of an unknown alcoholic beverage emitting for the breath and person, which intensifies as he spoke. Officer Donnino advised that Sandhu speech was thick and slurred and that his eyes were bloodshot/glassy. Officer Donnino advised that based on his investigation and observation at this point he contacted me to assist in the investigation. See Officer Donnino's supplement for further.

I then briefly spoke to Sandhu, who was standing outside of his vehicle, in reference to his welfare and the crash. Well speaking with Sandhu, I detected the odor of any unknown alcoholic beverage emitted from his breath, his eyes were bloodshot/ glassy and his speech was thick and slurred; just as Officer Donnino described to me. Based on my investigation at this point, I properly positioned my vehicle so that I could properly conduct an audio/video recorded investigation. I then asked Sandhu to walk to the front of my fully marked patrol vehicle (4445), which he agreed to. Once in front of my vehicle, I advised Sandhu that the investigation was being audio and video recorded, which he stated that he understood. I then began to inquire the facts of the crash. Sandhu statement was consisted with what Officer Donnino had concluded as his crash investigation. Sandhu further

advised that the crash was not his fault and that was not injured as a result of the crash. At that point I advised Sandhu that I've concluded my Crash Investigation and that I was now conducting a DUI Investigation, which he stated that he understood. I then advised Sandhu his Miranda Warnings, which he stated that he understood. Sandhu then advised that he want to call his lawyer and refused to answer any questions. Therefore, I seized my investigation and requested Sandhu to submit to a series of Road Side Sobriety Task, which he refused. I then advised Sandhu of the Taylor Law, which he stated that he understood. I then requested a second time, which Sandhu advised that he can't do the roadsides. Sandhu further advised that he refused to submit. At that moment Sandhu was placed into custody under suspicion of DUI, which he stated that he understood.

Sandhu was placed into handcuff (D/L and Spaced) and placed in the back seat of my patrol vehicle (#4445). I then transported Sandhu to the Boynton Beach Police Department to continue my investigation. I arrived at BBPD at 2152hrs, started my 20 minutes observation at 2153hrs and completed at 2213hrs. Upon completion I requested Sandhu to provide a sample of his breath to determine the alcohol content, which he agreed. The proper way to provide a breath sample was explained to Sandhu, which he stated that he understood. While attempting to obtain the first sample, Sandhu failed to blow hard enough into the instrument. 1 litter of consisted air is one of the requirements needed to provide an acceptable breath sample. Sandhu was not taking a deep breath in and was not blowing hard enough into the instrument. Sandhu argued that she was doing it correct, but she was not. After the allotted 3 minutes was over and an adequate breath sample was not provided, the instrument received a Volume Not Met reading. On the second attempt, Sandhu provided sample of .174 at 2221hrs and on the third attempt provided a sample of .175 at 2224hrs. I then reassured that Sandhu recalled me reading his Miranda Warnings to him on scene, which he stated he did. I then asked Sandhu if he wanted to answer the question attached to this packet, which he agreed to.
