PROBABLE CAUSE

On October 29, 2017 I was on routine patrol in my marked patrol vehicle in Palm Beach County. I was traveling southbound on I-95 (State Road 9) in the center lane north of Northlake Blvd. I observed a black four door vehicle in the right lane traveling at a high rate of speed. The vehicle was passing other cars on the left. I attempted to overtake the vehicle and obtained a vehicle pace of 100mph in a 65 mph zone. I then positioned myself behind the vehicle and observed that it was a black Lexus with a Florida tag of BAHJ93. I observed that the vehicle was serving to the left and the right of the roadway and was unable to maintain a single lane. I continued to observe the vehicle as it exited onto the southbound exit ramp of Northlake Blvd. I then activated my emergency equipment to initiate a traffic stop on the vehicle. The vehicle stopped in the center lane of the roadway. I then approached the vehicle on the driver's side and introduced myself. I observed that the driver was the sole occupant of the vehicle and was a female wearing a black shirt and black pants. I requested that the driver provide a driver's license, vehicle registration and proof of insurance. The driver provided a FL DL and was identified as Risala Sangouthai. She was unable to provide a registration or proof of insurance. As I was talking to the driver I observed the odor of an unknown alcoholic substance emitting from her breath. I also observed that she had glassy bloodshot eyes. I then requested that the driver step out of the vehicle and walk towards my patrol vehicle. As she stood in front of my patrol vehicle I observed that she had orbital sway and the odor of an unknown alcoholic beverage was emitting from her breath. I requested that she conduct field sobriety exercises and she stated that she would.

Horizontal Gaze Nystagmus

Before beginning the exercises, I checked to see if Ms. Sangouthai was wearing glasses or contact lenses. It was determined that Ms. Sangouthai was not wearing glasses but was wearing contacts. I then checked her eyes and observed equal tracking and equal pupil size. She was instructed to place her feet together and place her hands down at her side. She then was instructed to keep her head still and follow the stimulus with her eyes and her eyes only. She was also instructed to keep looking at the stimulus until told not to. She verbally indicated that she understood. During the exercise I observed 6 of the 6 possible clues.

- Lack of smooth pursuit, left eye
- Lack of smooth pursuit, right eye
- A distinct and sustained nystagmus at maximum deviation in the left eye
- A distinct and sustained nystagmus at maximum deviation in the right eye
- An onset of nystagmus prior to 45 degrees in the left eye
- An onset of nystagmus prior to 45 degrees in the right eye

I observed vertical nystagmus.

During the exercise Ms. Sangouthai had to be told to stay in the proper position and not to move her head during the exercise. She tried to anticipate the position of the stimulus. I also observed Ms. Sangouthai to have orbital sway. I again observed the odor of an unknown alcoholic substance emitting from her breath.

Walk and Turn Exercise

The area was level and free of debris. Ms. Sangouthai indicated that she observed the white line on the ground. Ms. Sangouthai was instructed to put her left foot on the line, then place her right foot on the line ahead of the left foot in a heel to toe manner. I then demonstrated this position. She was instructed not to begin until told to do so. Ms. Sangouthai verbally indicated that she has understood all instructions up to this point. Ms. Sangouthai was then instructed to take 9 heel to toe steps on the line when told to do so. I then demonstrated this. Ms. Sangouthai was then instructed to turn on the ninth step and to keep the front foot on the line and to take a series of small steps with the foot on the line. I then demonstrated this. Ms. Sangouthai was also instructed to keep her arms at her sides and to watch her feet during the exercise. Ms. Sangouthai was also instructed to count aloud and to not stop once she begins the exercise. She was also instructed to keep her arms at her sides at all times.

Ms. Sangouthai began the exercise too soon and had to be told to wait and to get back into the starting position multiple times. She began the exercise and stepped off the line on multiple steps. Ms. Sangouthai also did not count aloud and showed difficulty keeping balance. She used her arms for balance and raised them higher than 6 inches. While completing the turn Ms. Sangouthai took both feet off the line and incorrectly completed the turn. She also did not touch heel to toe on all steps. Ms. Sangouthai took 10 steps forward and 10 steps back.

One Leg Stand Exercise

Ms. Sangouthai was instructed to stand with her feet together and to place her arms down at her side. Ms. Sangouthai was instructed to maintain that position until told to do so. Once told to do so, she was instructed to raise one leg approximately 6 inches off the ground and to keep both legs straight with both arms at her side. She was also instructed to look at the elevated foot and count aloud in the manner of one thousand-one, one thousand-two and so on until told to stop. Ms. Sangouthai verbally indicated that she understood the instructions after I demonstrated to her.

Ms. Sangouthai was told to begin and raised her right foot. During the exercise Ms. Sangouthai displayed an orbital sway and had to use her arms multiple times to keep from losing balance. She raised her arm approximately 6-7 inches away from her body. She also did not raise her foot six inches off the ground or keep both legs straight. She raised her foot approximately 8 inches. Ms. Sangouthai placed her foot down during the exercise multiple times and stopped the exercise as well as hopped. She almost fell over while completing the exercise. She did not look down at her foot during the exercise and count aloud as

Instructed.

Finger To Nose

Ms. Sangouthai was instructed stand with her feet together and arms at her side and to have her index fingers pointed out. She was instructed t not start and stay in that position until told to do so. She stated that she understood. I then demonstrated the position. Ms. Sangouthai was then instructed to when told to start to close both eyes and tilt her head back. When told to do so she was instructed to bring the hand I directed upward, touching the tip of your finger to the tip of her nose. I then demonstrated this. She was then instructed to after touching the tip of the nose to immediately bring her hand down to her side. She stated that she understood. I then demonstrated and she stated that she understood. She was instructed to raise her hand in the following order, left, right, left, right, and right, left.

- Left: Did not return immediately to side. Missed nose.
- Right: Missed nose. Did not return immediately to side
- Left: Missed nose. Did not return immediately to side
- Right: Missed nose. Did not return immediately to side
- Right: Missed nose. Did not return immediately to side
- Left: Missed nose. Did not return immediately to side

While conducting the exercise I observed an orbital sway. She also did not tilt her head back and kept opening her eyes. She had to be told multiple times to get back into the proper position.

At approximately 11:47pm she was placed in handcuffs and under arrest for DUI. While attempting to secure her in my patrol vehicle she kept pulling away from me and was resisting getting into the vehicle. She repeatedly used vulgar language towards me and called me a, "nigger." She was then secured in my patrol vehicle and taken to the Palm Beach County Jail. Once I arrived at the testing center I conducted a 20 minute observation of Ms. Sangouthai. At no time did she regurgitate or take anything by mouth. While conducting the observation period she was using explicit language and repeatedly called me a "nigger." At approximately 12:44am I requested that he provide a lawful sample of her breath and she refused. Implied consent was read and she stated that she wants a lawyer. I asked multiple times and she continued to ask for a lawyer. It was explained to her that anything other than yes or no when asked if she understood will be taken as a refusal. She then stated that she wants a lawyer when asked again. She was then booked into the Palm Beach County Jail. The above incident occurred in Palm Beach County.
