D.U.I. PROBABLE CAUSE AFFIDAVIT

ON THE 1st DAY OF April 20 19, AT 11:30 AM ✓ PM

SUBJECT: Palazzolo Robert C CASE NUMBER: 19-001571

AGENCY: Jupiter Police Department ARRESTING OFFICER: Craig Yochum # 383

PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

On the aforementioned date and time, I was traveling northbound on S US Highway 1 (S.R. 5), approaching the entrance/exit driveway access to the parking lot of 251 S US Highway 1 (Sunset Tobacco), in the Town of Jupiter, Palm Beach County, FL. At the time, I was driving a fully-marked Jupiter Police Department patrol vehicle (vehicle 1202), I was wearing a JPD uniform clearly identifying myself as a Jupiter Police Officer, and I was wearing my department-issued Axon body camera. It should be noted that, at the time of the traffic stop, the patrol vehicle I was driving was a spare vehicle and was not equipped with a vehicle-mounted dash camera. I observed a gray 2013 BMW X1 SUV bearing FL tag # ECI6Y stopped (facing west) for the stop sign at the exit to the aforementioned parking lot. As I neared the driveway access, the vehicle slowly proceeded from a stop, completely blocking both northbound lanes of S US Highway 1, and causing me to slam on my patrol vehicle's brakes to avoid crashing into it. The vehicle continued slowly turning south onto S US Highway 1. I made a u-turn and began to follow the vehicle. I activated my vehicle's equipped emergency lights and siren behind the violator's vehicle and observed the driver made no immediate indication of knowledge of my patrol vehicle behind it (brake lights/turn signal indicating pulling over) for several seconds. The vehicle ultimately pulled into the southbound right turn lane of S US Highway 1 to turn into the Merrill Lynch Wealth Management parking lot (900 S US Highway 1) and came to a stop.

OBSERVATION OF DRIVER:

I approached the violator's vehicle on the driver side and made contact with the driver and sole-occupant of the vehicle. I noted the driver had the front driver window rolled approximately halfway down. I identified the driver to be Robert Palazzolo by his valid Class E Florida driver license. When I initially requested Palazzolo's driver license, registration, and insurance information, Palazzolo only provided me with his driver license, apparently forgetting the other requested documentation I asked for. I requested Palazzolo's registration and insurance information and he provided me with his registration, again forgetting to gather his insurance until asked a third time. During my contact with Palazzolo, I observed his eyes ere slightly bloodshot/glassy but Palazzolo was generally avoiding eye contact with me for the duration of the traffic stop.

DRIVER'S STATEMENTS:

Palazzolo advised he was coming from Sunset Tobacco (local bar in Jupiter), where he consumed one drink. Palazzolo advised he did not eat anything at the bar, as they did not serve food. Palazzolo estimated his level of intoxication, when asked, to be a 2 on a scale of 1 to 10 (1 being completely sober and 10 being the most intoxicated he had ever been in his life). Palazzolo initially advised he was a 0 on a scale of 1 to 10 but later revised his answer to 2.

ODORS:

Odor of unknown alcoholic beverage on Palazzolo's breath which intensified as he spoke. Cover-up odor of cigarette smoke.

- [ ] LT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES
- [ ] RT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES

Other Observations:

Palazzolo had to be reminded to follow the stimulus with his eyes after checking for equal tracking and lack of smooth pursuit. I observed Lack of Smooth Pursuit in both Palazzolo's left and right eyes as well as Distinct and Sustained Nystagmus at Maximum Deviation in both Palazzolo's left and right eyes.

WALK & TURN:

The Walk and Turn and remainder of SFSTs were performed in the parking lot of Merryl Lynch, approximately 30 feet away from the location of the traffic stop. The WAT was conducted on a double-yellow solid lane divider in the parking lot with both lines being approximately 4 inches wide, each. Prior to beginning the exercise, Palazzolo removed his sandals. The starting position had to be explained to Palazzolo several times, as it appeared as though he was having difficulty understanding simple instructions. Palazzolo started walking before being told to begin the task. On the first leg of the walk, Palazzolo missed heel-to-toe on step 2, stepping too short. Palazzolo also missed heel-to-toe by leaving gaps of more than one inch between steps on step 4, 7, and 9. Palazzolo raised his arms for balance on step 2 and left his arms more than six inches from his sides to maintain balance throughout the duration of the exercise. Palazzolo took a total of 9 steps down the line. Palazzolo turned properly however, switched lines he was walking on for the return leg. On the return leg, Palazzolo missed heel-to-toe on step 2, 3, 4, 5, 6, and 7. Palazzolo stepped off the line (to the right) on step 5. Palazzolo took a total of 7 steps down the line.

ONE LEG STAND:

Prior to starting the exercise, Palazzolo advised he has never completed this task before and the instructions were explained to him twice. Palazzolo initially elected to raise his right leg off the ground, standing planted on his left. Palazzolo almost immediately placed his foot on the ground, advising the task was difficult, but continued. Palazzolo raised his foot off the ground and swayed, to his left, using his arms to maintain his balance. Palazzolo raised his right leg off the ground a third time and placed it on the ground again shortly after. Palazzolo then raised his left leg off the ground, swayed and almost immediately placed his foot on the ground before being told to stop. Throughout the duration of the exercise, Palazzolo had an apparently difficult time counting, as he did not continue counting after placing his foot on the ground and I was unable do decipher an exact pattern to his counting sequence, as it appeared to be random, albeit inconsistent with my instructions.

FINGER TO NOSE:

On the first call of left, Palazzolo touched the pad of his left finger to the tip of his nose and opened his eyes to locate his finger. On the first call of right, Palazzolo touched the pad of his right finger to the tip of his nose, again opening his eyes to locate his finger. On the second call of left, Palazzolo repeated the exact sequence explained during the first call of left. On the second call of right, Palazzolo repeated the exact sequence explained during the first call of right. On the final call of right, Palazzolo touched the pad of his right finger to the tip of his nose. On the final call of left, Palazzolo initially raised his right hand but quickly adjusted and touched the pad of his left finger to the tip of his nose.

ROMBERG ALPHABET:

Palazzolo advised he has a Master's degree but was not as familiar with the alphabet as when he was in school. Palazzolo advised he would be able to count any numbers between 1 and 100. I instructed Palazzolo to count from 2 to 29. I mistakenly advised Palazzolo not to rhyme, group, or sing any "letters" (instead of "numbers") however, this did not appear to adversely affect Palazzolo's understanding or performance. After counting to 12, Palazzolo opened his eyes and asked me if he was performing the task correctly. Palazzolo continued on and opened his eyes on his count of 19, 24, and 25. Palazzolo remembered to stop counting when he reached 29.
