# D.U.I. PROBABLE CAUSE AFFIDAVIT

ON THE 20th DAY OF April, 20 17, AT 2352 AM ☒ PM

SUBJECT: Boraiko, Stephanie Marie CASE NUMBER: 17067227

AGENCY: PALM BEACH COUNTY SHERIFF'S OFFICE ARRESTING OFFICER: Inv. Christopher Ficarra

## PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

On 04/21/2017 at approximately 0004 hours I responded to the Gator Shack bar and restaurant located at 5088 Seminole Pratt Whitney Road, in unincorporated Palm Beach County, in reference to a possible DUI crash investigation. Upon my arrival I observed a blue Ford F150 bearing Florida tag HTUP94, crashed in between two concrete pillars at the front of Gator Shack. The Ford was stopped approximately one foot from the glass windows of the bar. The airbag had deployed and there was heavy front end and side damage done to the Ford. I observed a white female, later identified as the registered owner of the Ford, Stephanie Marie Boraiko sitting on the ground near Gator Shack with Palm Beach County Fire Rescue. Fire Rescue was called due to a left arm injury sustained by Stephanie during the crash (reference run number 17043984). As soon as I approached the area around Stephanie I immediately could smell the obvious odor of an unknown alcoholic beverage coming from the area. I observed that she had a flushed, droopy face and her eyes appeared red, glassy, and droopy. She was wearing a black shirt, gray pants, and black and tan wedges. Prior to speaking with Stephanie about the crash I spoke with a responding Deputy, D/S Jameson ID: 16027, who conducted the crash investigation (crash case number 17067204). D/S Jameson was speaking with a witness to the incident, Joe Edwin Moore, who stated that he wanted to give a taped/video recorded statement regarding the incident.

## OBSERVATION OF DRIVER:

I brought Joe to the front of my marked PBSO patrol vehicle where I conducted a sworn video statement in which Joe stated the following: he was sitting outside of Gator Shack when he observed a couple of vehicles leaving out of the parking lot at a high rate of speed one being the blue truck which crashed. Joe stated that the blue truck was in a "drift" (rear end sliding out, rear tires broke loose). Joe confirmed that the blue Ford which crashed was the same truck. The truck went out toward the exit but made a sharp left into the Gator Shack hitting the pylons. He was outside the bar and observed the entire incident. Joe stated he observed the driver get out of the vehicle and described her as a thin, mid 20s, brown hair young female. Joe did not observe anyone else in the vehicle at that time and confirmed that the female was the only occupant. He did not observe any signs of impairment on the female but stated that she was dazed. Joe stated that the white female with Fire Rescue (Stephanie) was the same female that was driving the Ford.

I then observed the interior of the Ford. I did not observe any open alcoholic beverage containers in the vehicle. I then made contact with Stephanie who was still with Fire Rescue. I was advised that Stephanie was going to be transported to Palms West Hospital due to her arm injury. I attempted to speak to Stephanie about the crash at that time. As she spoke I observed that her speech was slurred, slow, unclear, and mumbled. I could more clearly smell the obvious odor of an unknown alcoholic beverage coming from her mouth as she spoke. I noticed that Stephanie became increasingly nervous and worried as she spoke, stuttering and shaking. After giving crash statements she was transported to Palms West by Fire Rescue. Upon arrival at Palms West Hospital at approximately 0040 hours I observed that Stephanie was placed into ER room 4. I maintained visual contact of her the entire time and observed that no medication was given to her upon her immediate arrival. No medication was given by Fire Rescue to Stephanie either. I asked the nurse attending to Stephanie, Gary Millett, if he had any time for possible discharge of Stephanie from the ER. Gary stated that Stephanie would most likely be cleared within an hour to an hour and a half once she was checked out by a doctor and had x-rays taken. At that time I informed Stephanie that the crash investigation was completed and I was conducting a DUI investigation which she stated she understood.

## DRIVER'S STATEMENTS:

I read and explained to Stephanie her Constitutional Warnings at approximately 0100 hours which she also stated she understood. Stephanie also signed the Constitutional Warning page acknowledging they were read and she understood them. Post-Constitutional Warnings Stephanie stated the following: She thought drinking would help that she was having a bad day at work. She met three people at Gator Shack and didn't think was that intoxicated. Stephanie stated that she lost control of the Ford which she was driving, she stepped on accelerator, and crashed. She stated that she was alone in vehicle and was drinking. Stephanie stated that she came from another bar (the Snuggery in Palm Beach Gardens) and had at least 5 shots and four beers which started at 2015 hours and stopped just prior to the crash. She stated she had no medical issues other than bipolar, she takes herpes medication but no other prescription medication, she did not have any physical defects or injuries prior to the crash, and she wore glasses for distance. Stephanie stated she did not have diabetes or seizures and had no illegal drugs or smoked any marijuana that night. Based on my above observations I asked Stephanie if she would submit to standardized field sobriety tasks which she stated she would. At approximately 0121 hours x-rays were taken of Stephanie's arm revealing she had not broken bones or issues that would keep her in the hospital. At approximately 0202 hours Stephanie was discharged from the hospital. I then escorted her to the parking lot of the hospital and observed that she was unsteady on her feet. She walked with a side to side sway. Once in front of my patrol vehicle Stephanie confirmed that she remembered being read her Constitutional Warnings and stated that she would submit to standardized field sobriety tasks. She decided to keep her wedges on for the tasks initially.

## ODORS:

Obvious odor of an unknown alcoholic beverage on breath as she spoke

## GENERAL OBSERVATIONS

SPEECH: Slurred, slow, unclear, mumbled

ATTITUDE: Calm, compliant, crying

CLOTHING: Black shirt, gray long pants, black and tan wedges

MEDICAL/OTHER: No medical issues other than bipolar (no diabetes or seizures), takes herpes medication, no other prescription medication taken, no illegal drugs taken or marijuana smoked, no physical defects or injuries prior to crash (left arm sore from air bag impact), wears glasses for distance (nearsighted), removed shoes for tasks after HCN, given zofran for nausea by hospital

## ROADSIDE TASKS

### HORIZONTAL GAZE NYSTAGMUS:

☒ LT EYE-LACK OF SMOOTH PURSUIT ☒ RT EYE-LACK OF SMOOTH PURSUIT

☒ LT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION ☒ RT EYE-DISTINCT & SUSTAINED NYSTAGMUS AT MAX. DEVIATION

☒ LT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES ☒ RT- EYE-ONSET OF NYSTAGMUS PRIOR TO 45 DEGREES

### Other Observations:

A white tape line was placed in the parking lot to be used for the tasks. Stephanie kept her shoes on during HGN. The overhead blue police lights were turned off prior to the tasks. Stephanie's eyes tracked equally, the pupils were the same size and appropriate for the lighting conditions, and no resting nystagmus was observed. Vertical gaze nystagmus was administered and was observed. Lack of convergence was administered and was observed. Both eyes began to converge but both shot outward to each side. Stephanie swayed while balancing during the task.

### WALK & TURN:

I explained and demonstrated the instructions for the walk and turn task to Stephanie who stated that she understood. Stephanie decided to remove her shoes after the instructions of the task but almost fell in the process. During the task I observed that Stephanie had the following cues: couldn't keep balance while listening to instructions; paused walking during the task to regain balance multiple times; missed heel-to-toe on each step; stepped off the line on steps: 1, 2, 6, and 8 on first set then on 1, 3, 4, and 5 on return; used arms for balance (raises arms over six inches) throughout task; improper turn (lifted feet off ground, did not keep front foot planted); took incorrect number of steps: 10 on the first set and then 12 on return; did not count as instructed; looked up from feet during task multiple times.

### ONE LEG STAND:

I explained and demonstrated the instructions for the one leg stand task to Stephanie who stated that she understood. During the task I observed that Stephanie had the following cues: swayed while balancing; used arms for balance (raises arms over six inches); swayed in instructed position; as she counted she double counted numbers multiple times; had to be reminded to look at raised foot multiple times; put foot down three times before 30 seconds elapsed.

### FINGER TO NOSE:

I explained and demonstrated the instructions for the finger to nose task to Stephanie. I explained what is considered the tip of the finger and tip of the nose to Stephanie who stated that she understood. She also knew her left from her right. During the task I observed that Stephanie had the following cues: swayed while in instructed position; failed to return arms to the side on each instructed hand; touched bottom of nose then brought to tip on 1st, 2nd, 3rd, 5th, and 6th instructed hand; used wrong hand for task (when called for right on 5th instructed hand she raised her left before raising her right);

### ROMBERG ALPHABET:

I explained and demonstrated the instructions for the Romberg with recitation task to Stephanie who stated that she understood. I asked her to say her ABCs from A to Z without stopping and without singing which she stated she could. During the task I observed that Stephanie had the following cues: swayed in a circular motion while balancing; tilted head back before being told to do so. The modified Romberg balance was explained and demonstrated to Stephanie who stated that she understood. Stephanie was asked to estimate the passage of 30 seconds in their head. Stephanie showed the following cues: estimated 24 seconds as 30; stated she reached that number by counting "normally;" tilted head back before being told to do so; swayed in a circular motion during task.
