PROBABLE CAUSE STATEMENT

Navarro was given multiple tries to attempt the task, and then refused to participate, stating that she knew she was not doing it correctly and did not want to look stupid. I then explained to Navarro her Taylor Warnings about not participating, to which she stated that she understood.

After explaining Navarro's Taylor Warnings, I offered her to move on to another task, to be sure that she did not just have an issue with the walk and turn task. Navarro stated that she would participate, and I moved on to the one legged stand task. After explaining the task and demonstrating it, Navarro stated that she understood, and would attempt to participate. Once she was instructed to begin, Navarro raised her foot, and immediately dropped it. She did not count out loud, she lost her balance, and could not stay in the starting position, or keep her foot raised for more than a second. Navarro attempted to raise her foot multiple times, but was not able to complete the task as instructed. It should be noted that during the instructional phase of the task, Navarro swayed from side to side and back to front greater than two inches.

Upon completion of the one legged stand task, I instructed Navarro on how to perform the finger to nose task. Navarro started by stating that she knew her left from her right, and immediately raised her left hand stating, "Left." Navarro stated that she understood the instructions, and was told to begin the task. The order used was, L,R. As Navarro attempted to begin the task, she did not put her head back as instructed. On the first side, Navarro raised the correct hand, and missed the tip of her nose. She did not place her hand back to her side as instructed and had to be reminded. On the second side, Navarro missed her nose again, and then stopped, opened her eyes, and stopped participating in the task. I informed her that she was in the middle of the task, and instructed her to go back to the position that was explained to her. Navarro refused. At this time I took Navarro's actions to be that she was no longer going to attempt any participation in the road side tasks. Navarro responded by me asking if she was going to participate at all, by stating to put her handcuffs, and turned away from me, putting her hands behind her back.

Due to the above listed investigation, I found Probable Cause to charge and arrest Navarro for Driving Under the Influence. Navarro was placed into handcuffs which were stacked, double locked, and checked for proper fit. Navarro was then transported to the Palm Beach County BAT Facility, and offered a chance to provide a breath sample, to which she refused. It should be noted that Navarro's vehicle was later towed from the scene, and an open bottle of Corona beer was located on the passenger side floor. After Navarro refused to provide a breath sample, she was read her Miranda Warnings, and questioned about the above listed incident. Navarro admited to not knowing where she was, and that she drank six Corona beers.

Navarro was later transported to the PBC Jail, and turned over to jail staff without further incident. This case is cleared by arrest.

SUBJECT: NAVARRO, SUSANA, SILVA CASE NUMBER: 18113742

AGENCY: PALM BEACH COUNTY SHERIFF'S OFFICE ARRESTING OFFICER: D/S D. BOORAS 27529

PERSONAL CONTACT

DRIVING PATTERN: ACTUAL PHYSICAL CONTROL (PHYSICAL EVIDENCE OR STATEMENTS PUTTING DEF. BEHIND WHEEL OF VEHICLE)

See Sgt. Rubino's 7301, supplemental Probable Cause Affidavit for initial contact, as well as Sworn Written Statements provided by the witness in this case for driving pattern.

On the above date and time I was dispatched to the area of Caloosa Blvd. and Beeline Hwy. in unincorporated West Palm Beach in reference to a reckless driver, driving into on coming lanes of travel, East on Beeline Hwy. While I was en route to this incident, the witness in this case, who was later identified as, Derek Johnson W/M 5/18/72, continued to provide updates about the vehicle, and advised that it was driving into on coming traffic, forcing traffic to swerve out of the way. Derek also described the vehicle accurately, and described the speeds of the vehicle to be over 80, and up to 100 miles per hour. Derek stated that he followed the vehicle, which was later discovered to be a dark blue Chevy Malibu with Florida License Plate 469NRB, all the way East until he reached Beeline Hwy. and N. Military Trl., where he made several attempts to flag the vehicle down, and get her to stop. Derek stated that the vehicle continued South onto N. Military Trl., and stated the vehicle made six to eight swerves almost striking the median. Derek stated that at one point he attempted to get out and check on the driver, but that the driver sped off continuing South.

OBSERVATION OF DRIVER:

Derek stated that he continued to follow the vehicle South on N. Military Trl. until they reached N. Military Trl. and Okeechobee Blvd., where he observed the vehicle turn into a shopping plaza parking lot on the South East Corner of the above listed intersection. As the vehicle turned into the parking lot and attempted to park in a parking space, Sgt. Rubino arrived on scene, and located the described vehicle, as well as Derek, who pointed out the vehicle. Sgt. Rubino informed me that when he arrived on scene, that the vehicle was still running, and mobile, in the process of parking. He also informed me that the only person in the vehicle was the driver, who was actively driving the vehicle upon his arrival. Sgt. Rubino informed me that he activated his in car camera system and attempted to make contact with the driver of the above listed vehicle, who was later identified by her Florida Driver's License as, Susana Navarro W/F 2/6/76, and is the suspect in this case. Due to the comments provided by the witness in this case, through PBSO Communications, units on scene were concerned for Navarro's welfare, and made contact with her at her vehicle. Sgt. Rubino informed me when I arrived on scene later, that as soon as he made contact with Navarro, he noticed that she had slow, lethargic movements while attempting to speak with him, and that her eyes were red and glossy, and her speech was slurred. Sgt. Rubino then advised that he asked Navarro to exit her vehicle and to walk to the rear, and advised that Navarro had to steady herself on the vehicle with her left hand, and swayed as she walked. Navarro advised him that she did not know where she was.

DRIVER'S STATEMENTS:

Upon my arrival at the above listed address, I met with Sgt. Rubino, and observed Navarro, standing by the rear of her vehicle. I observed Navarro holding onto the rear of her vehicle for support, and swaying. I then met with Derek, who advised me of his previously mentioned observations, and driving pattern of Navarro. Derek confirmed that at no time did he lose sight of Navarro while he was following her, observing her reckless and dangerous driving pattern, and observed her still in her car as Deputies arrived on scene. Derek then pointed to Navarro standing by her vehicle, and confirmed that the she was the woman he observed driving the vehicle, and that he was concerned that she was impaired or in need of medical attention. Derek agreed to provide a sworn written statement of his observations, and agreed to participate as a witness in this case.

ODORS:

Other Observations:

After speaking with Derek, I went over and spoke with Navarro at the rear of her vehicle. I asked her what her name was, and to spell it, which she responded speaking low, and had slurred speech which was low, thick, and at times difficult to understand. Navarro had difficulty spelling her name, and had to be asked multiple times.

WALK & TURN:

While speaking with Navarro, I asked her if she was alright, to which she stated that she was fine. I then instructed Navarro to walk to the front of my clearly marked patrol vehicle to continue my investigation. It should be noted that immediately upon making contact with Navarro, I could smell the strong odor of an unknown alcoholic beverage emitting from her breath, which intensified as she spoke. I also observed that her eyes were red and glossy, and that her movements were slow and deliberate. While walking to my patrol vehicle, I observed that Navarro's gate was uneven, and she stumbled as she walked, putting her arms out for support. Once in front of my vehicle, while being recorded on my in car camera system, I asked Navarro if she was having any medical issues, to which she stated that she was not. I then asked her where she was coming from, to which she stated that she was coming from Ft. Lauderdale and heading to her residence near Jog and Lake Worth Rd. I then asked her how she got to Beeline and Caloosa Blvd. which is no where near her destination, and not in between her two points of travel. Navarro could not answer me, and later stated that she was lost. I informed Navarro of my observations and of the 911 call that lead law enforcement to stopping out with her, to which she responded, thank god someone stopped me. I asked Navarro how much she had to drink, to which she admitted that she had five Corona Beers, and began drinking at 1700 hours the day before.

ONE LEG STAND:

Upon observing the above listed signs of impairment, I informed Navarro that I would be conducting a D.U.I investigation, and asked her to participate in road side tasks. Navarro agreed to participate, and I began by illuminating my red pen light. I asked Navarro if she was color blind to which she stated that she was not, and asked her what color my pen light was. Navarro quickly answered in Spanish, and then answered in English that the light was red. I then instructed Navarro to reach out and touch the tip of the light with her finger, to which she began speaking in Spanish, and informed me that she did not understand English. I informed Navarro that we had been speaking in English for over fifteen minutes, and that I felt that we had been communicating without issue. Navarro finally agreed to participate, and attempted to touch the pen light light her pointer finger. Navarro missed the tip of the light pen, but showed that she understood the instructions in English.

FINGER TO NOSE:

I then explained the HGN task to Navarro, who informed me that she understood the instructions, and attempted the task. During the task, Navarro moved her head, and had to be reminded of the instructions multiple times. During the task, I observed a lack of smooth pursuit, Distinct and Sustained Nystagmus at max Deviation, and Onset of Nytagmus prior to 45 degrees in both of Navarro's eyes. During the task Navarro swayed from side to side and back to front greater that two inches.

Upon completion of the HGN task, I conducted the walk and turn task. Navarro was instructed as to how to enter the starting position, and did so as instructed. While in the starting position, Navarro lost her balance multiple times, and stepped out of the starting position.

ROMBERG ALPHABET:

While attempting to explain the walk and turn task, Navarro interrupted me multiple times, asking me to let her go home, and had mood swings from compliant, to emotional and crying, to non compliant. Upon completion of explaining the task, Navarro stated that she understood, and was instructed to begin the task. Navarro did not walk in a straight line, stepped out of line, missed heel to toe, and only took three steps. I explained to Navarro that she was instructed to take 9, and that the demonstration was only three steps. Navarro stated that she understood the instructions, and understood how many steps to take, but that she stopped at three because she felt she was going to look foolish, and knew she was not performing as requested.
