PROBABLE CAUSE STATEMENT

The undersigned certifies and swears that he/she has just and resonable grounds to believe, and does believe that the above named Defendant committed the following violation of law.

The Person taken into custody . . .

☒ committed the below acts in my presence.

☒ confessed to ME admitting to the below facts.

☐ was observed by _____ who told _____ that he/she saw the arrested person committ the below acts.

☒ was found to have committed the below acts, resulting from my (described) investigation.

On the 25 day of December, 2018 at 16:07 (Specifically include facts constituting cause for arrest.)

On 12/25/18 at approximately 1710 hours I was dispatched to 5500 N. Military Trail in reference to a vehicle crash. The caller, Mr. Michael Lane advised that there was a crash inside the parking garage and that he believed the driver of the Honda was intoxicated. Upon my arrival at approximately 1715 hours, I observed there to be a white Mercedes car which had been spun around as a result of the crash and a white Honda Accord which was against the wall of the garage with significant damage to it. I observed there to be a white female driver who was the sole occupant of the Honda. She identified herself as Ms. Violetta Safronova. She advised she did not suffer any injuries during the crash.

I observed her vehicle to be running with the transmission in reverse. I asked her to place the car in park and to turn the vehicle off. I asked Ms. Safronova what had occurred today. She stated she had been celebrating Christmas earlier in the afternoon with an ex-boyfriend's family in Boca Raton. She advised upon returning back to her building, she let her friend Danielle drive the car because she was "in no shape to drive". When I asked what she meant by that, she advised she had a few drinks earlier. She advised Danielle crashed into the Mercedes and the left the scene and went home so Ms. Safronova had to move the car into her designated parking spot on the third floor but was unable to because the car was stuck to the wall.

Ms. Safronova stated she did not know how to get ahold of Danielle and stated she only communicates with her through another friend. Ms. Safronova then stated Danielle was her best friend and that she has known her since high school. She then stated a friend with a Brazillian name that she could pronounce was driving the car. It was apparent that Ms. Safronova was not being truthful as her story kept changing. I stated that I believed Ms. Safronova had been the one driving and the story about a friend crashing the car was fictitious. Ms. Safronova then admitted that she had been the one driving, however she did not remember crashing into the Mercedes but knows she was the one who

PROBABLE CAUSE STATEMENT

committed the crash. When asked why she would not remember the crash occurring, she advised "I would not remember because I`ve had a few drinks, I`m not gonna lie about that but I`m not blackout drunk".

Community Service Officer Crowley arrived on scene and completed the crash investigation. He advised Ms. Safronova that his crash investigation was complete and he was now "changing the hats". She was told I would now be working on the criminal portion of the investigation. While speaking with Ms. Safronova, there was a strong odor of alcohol being emitted from her breath. Her eyes were glassy and bloodshot. Ms. Safronova was asked to submit to a series of roadside sobriety tasks, to which she at first stated she would not do. I then explained the Taylor Warning to her and she began crying, stating "I`m not that drunk, come on". She then stated she would agree to perform roadside sobriety tasks.

Ms. Safronova was directed to the bottom of the parking garage on a dry and flat surface. She advised she does not suffer from any disabilities or have any issues with her legs or back. She advised her highest level of education was an Associate`s Degree. She stated she takes medication for anxiety and depression, however she had not taken the anxiety medication in a week and a half. I asked her what time she began drinking and she stated noon. I then asked what time it currently was and she advised that it was around 7:00 P.M. (it was approximately 3:45 P.M.). Ms. Safranova advised she started drinking at noon and drank two beers and four mimosas. She was wearing flat shoes with no heel and she was advised she could take them off if she felt that it would help her perform the tasks, however she declined to and left her shoes on.

Task one was the walk and turn. I explained the task to her and she advised she understood the directions prior to starting. When she began she took 9 steps, holding her arms approximately 8 inches out for balance and then stopped and asked if she was done. I then explained the exercise again to her and asked if she would like to start over, which she advised she did. She then took 9 steps, 5 of them not heel to toe and stepping off the line. She held her arms out to her side for balance then stopped after 9 steps, stating she was done.

Task two was the finger to nose. I explained the task to her and she advised she understood the directions prior to starting. While standing, she was swaying 3-4 inches. The series was L, R, R, L, L. She touched her finger to the side of her nose on the first, her finger to her upper lip on the second and third time.

Task three was the one leg stand. I explained the task to her and she advised she understood the directions prior to starting. Upon being told to start, she lifted her left foot up and began counting. When she reached 5, she began waving her arms to assist with balance. When she reached 10, she asked if she could start over using the other foot. She started over and lifted her right foot off the ground. Upon reaching 3, she

lost her balance and began using her arms held straight out to her side to assist with balance. When she reached 6, she held her arms out approximately 8 inches for balance. When she reached 15, she began alternating touching her toe to the ground every other number and was hopping up and down She held her arms completely out to her sides for balance and left them there for the remainder of the exercise. When she reached 24, she had to take several steps sideways as to not fall. At 30 I advised her the exercise was complete.

Task 4 was the Romberg Balance task. The task was explained to her and she stated that she understood. Prior to beginning, I used my watch to demonstrate 30 seconds passing. When she began, she was swaying 3-4 inches from side to side. When she told me to stop, 42 seconds had elapsed.

Task 5 was the Horizontal Gaze Nystagmus. She advised she wears glasses to drive however she does not have any other vision issues. There was a lack of smooth pursuit in each eye. Distinct and sustained Nystagmus was at maximum deviation in each eye. Onset of Nystagmus was prior to 45 degrees in each eye. I observed her to be swaying 2-3 inches as she stood. She was told several times to stand with her head and neck still, just following the pen with her eyes. She repeatedly moved her neck and head to follow the pen.

At that time, Ms. Violetta Safranova was advised she was being placed under arrest for Driving Under the Influence resulting in a crash with property damage (F.S.S. 316.193(3a)). She was transported to the Boca Raton Police Department for booking. Breathalyzer results were 0.182 and .179. After being medically cleared at Boca Raton Regional Hospital she was transported to the Palm Beach County Jail. She was issued Florida Uniform Traffic Citation A6LQ6CE with a mandatory court date of January 29, 2019 at 0830 hours at the South County Courthouse (200 W. Atlantic Ave, Delray Beach).
