PROBABLE CAUSE

On the above date and time I was working in Palm Beach County. Dispatch had advised they received a call from a worried driver. The caller advised they had been following a black in color pickup truck that was swerving all over the road. The caller advised they had been following the truck since Cypress Creek in Broward County. Dispatch advised the caller stated they were northbound on Interstate 95 now passing Palmetto Park Road. Dispatch also advised the caller was still landline following the pickup. I then told dispatch that I was traveling southbound on Interstate 95 just North of Boynton Beach Blvd and that I was heading to the area. Dispatch continued to keep the caller on the line who gave us updated location on the pickup. I then advised dispatch that I had turned around at Congress Avenue and was stationary on the left shoulder that when the caller approached Congress to put their hazards on. Dispatch relayed the message and as the caller passed they put their hazards on. At that point I then entered onto the roadway and got behind the truck that match the callers description. The caller then advised dispatch that they saw me behind the correct vehicle. Once behind the vehicle I observed the pickup which was traveling in the inside center lane to start swerving over the white divided lines that divide the inside lane from the inside center lane. The pickup then almost struck the vehicles in the inside lane (See Video) at that point I activated my lights and sirens (emergency equipment) and proceeded to make a traffic stop on the pickup. The truck then began to stop in the middle of the inside lane and then slowly moved to the center lane where the pickup then stopped in the middle of the road (See Video). I then advised dispatch that I had conducted a traffic stop on the vehicle and that he had stopped in the middle of the road northbound on Interstate 95 at Linton Blvd. I then approached the vehicle from the driver's side and observed a white male in the driver seat. I also observed a young girl and young boy occupying the vehicle. As I spoke to the driver I observed him to have red/blood shot glossy eyes. When asked if everything was ok they driver began to respond as he responded I observed an odor commonly associated of that of an alcoholic beverage emitting from his breath as well as a slurred speech. I then had the driver exit his vehicle. Upon exiting I observed the driver to have a lack of balance. At that point I had the driver walk onto the left shoulder. I was riding with my recruit Trooper Cantelar #1753 who I had move the vehicle from the middle of the roadway to safely on the left shoulder. I then proceeded to ask the driver where he was coming from which he advised Key West. The driver advised he was celebrating his daughter's birthday. I then asked the driver to provide me with his license, registration, and insurance at that point the driver advised Recruit Trooper Cantelar that all of his documents where in the vehicle. I then began to ask the driver if he had anything to drink to which he replied "a shot of rum" (See video). I then again asked the driver if he had his license to which he then advised he did and he pulled his driver's license from his pocket. At that point I was able to identify the driver as Yoelvys Cabrera Manso by his Florida driver's license. I then asked the subject that due to the odor commonly associated of that of an alcoholic beverage emitting from his breath if he would perform the field sobriety exercises to which he agreed.

Before the exercises the subject was asked if he had any medical conditions that would prevent him from performing these exercise to which he replied "no". Each exercise was demonstrated by myself and by recruit Trooper Cantelar and explained to the subject before he performed and each time he was asked if he understood the instructions to which he replied "yes".

Horizontal Gaze Nystagmus(HGN): Lack of Smooth Pursuit observed
Distinct and Sustained Nystagmus at Maximum Deviation observed
Onset of Nystagmus prior to 45 degrees observed
6 clues observed

Walk and Turn: Subject could not balance during instructions (Breaks heel/toe)
Subject stopped walking
Subject does not touch heel to toe
Subject stepped off line
Subject used arms for balance
Subject made improper turn
Subject took wrong number of steps
7 Clues observed and subject took two attempts at the exercise (See Video for all clues)

One Leg Stand: Subject put foot down
Subject used arms to balance
Subject swayed while balancing
Subject was hopping
4 clues observed (See video for all clues)

---	---	------------	-----------------------------------	-------------	--------------------------------------	---------------------	---------------------------------

Finger to Nose: Subject swayed while balancing
 Subject did not touch tip of nose
 Subject could not differentiate between left and right finger
 (See Video)

Rhombberg with Recitation: Subject swayed while balancing
 Subject could not state alphabet mixed up his letters
 (See Video)

After completing the exercises I then advised the subject as well as Dispatch at 11:00pm that he was being placed under arrest pursuant to Florida Statue 316.193 suspicion of operating a motor vehicle under the influence of alcohol and or a controlled substance. Recruit Trooper Cantelar then searched the subject and placed him in the back of my patrol vehicle. I then proceeded to speak to the driver's son (15) and his daughter (9) to make sure they were ok. The son advised they were and that they had a friend coming to pick them up. I also spoke with the children's mother advised her that her children were ok and they had a friend to pick them up. Trooper Sayih #1498 then came on scene and stayed with the children and vehicle until the friend came and pick up the children. I then advised dispatch that Tpr.Sayih was with the vehicle and that I was headed to Palm Beach County Jail. Trooper Denis#1704 was able to speak with the witness who called it in bt they advised they did not want to give a statement as they wanted to remain anonymous. Once at the jail I observed the subject for twenty minutes before entering the breathalyzer room. Once inside we asked the subject to provide us with two samples of his breath to which he agreed. At 12:15 am the subject blew a .236 and then blew a .234 at 12:18 am. The subject was then issued his DUI citation pursuant to Florida Statue 316.193(4) .15 Breath alcohol content or higher with person under 18 accompanied in the vehicle. Video of the traffic stop, field sobriety exercises, and transportation to the county jail are available upon request with FHP custodian.
